

Mr. O'Kane, a brother-in-law of Mr. Harnden, had been accidentally shot. Funeral services were held at 10:30 a. m. at the home of the Harnden family on Friday morning.

Mr. O'Kane is survived by his widow and three children, two sons and a daughter. News of his death had been sent to a resort at Greer Lake, Wis., where the rest of the family had been on a vacation and a message from them was forwarded to Barrington.

# BARRINGTON REVIEW

BARRINGTON, ILLINOIS, THURSDAY, AUGUST 23, 1934

## Several Buildings in Process of Construction at the Present Time

Barrington has seen more building this summer than it has during the last three years. Most of the construction has been centered around the business district.

Two large business houses and church are at the present time. A 62-foot building on Park avenue near South Cook street is being torn down this week to make room for a new structure, a large part of which will be occupied by the National Tea Co. The new building will have a brick and Bedford stone front and construction will begin the middle of next week. The Chesterfield Tailors plant and the First Church of Christ, Scientist are two other buildings that are being erected simultaneously.

Other buildings in the business center of town have been remodelled and redecorated this summer. Saturday night will mark the opening of the new Miller's Confectionery store on the corner of South Cook and Station streets in the building formerly occupied by the Royal Blue store. The building has been completely renovated and redecorated on the interior. The National Tea Co. has taken up temporary quarters in the new building until the new building is completed.

## Annual Evangelical Camp Meeting Will Close Monday A.M.

800 Persons Attend Sunday Service; 600 in Sunday School

With an attendance of 800 persons the Barrington camp ground on Hillside avenue was an active spot as members of the Salem Evangelical church from the Chicago vicinity gathered for the third day of their annual 11-day encampment. This was the 61st annual meeting.

The principal speaker at the Sunday evening gathering at the largest audience of 500 persons was Rev. Harry M. Lintz, evangelist. A crowd of slightly more than 600 persons attended the afternoon Sunday school gathering. Friday, designated as Anniversary day, will be devoted to the commemoration of the aged. There will be an appropriate sermon given by Bishop L. H. Seager. This will be followed by a holy communion service also in charge of Bishop Seager.

The daily program for the closing day of the meeting will be as follows:

Friday, August 24

10:30 a. m.—German service, in round top—sermon, Rev. M. Gronowald, Humboldt, Pa.

10:30 a. m.—Bible message, in tabernacle, Harry M. Lintz.

2:30 p. m.—Anniversary sermon, by the aged, Bishop L. H. Seager, D.D., Holy Communion, in charge of Bishop Seager.

7:00 p. m.—A parent-entitled, "Who Bids," by the children's division.

8:00 p. m.—Evangelistic service, Harry M. Lintz.

Saturday, August 25

8:00 a. m.—Ministry's council address by Bishop Seager.

10:30 a. m.—Bible message, Harry M. Lintz.

2:30 p. m.—Allright brotherhood rally, in charge of the officers of the Chicago district area. Special Sunday service.

## Three-Year-Old Boy Injured in Fall From Second Story Window

Lovell Edwin Bennett, three-year-old son of Mr. and Mrs. J. H. Bennett, 530 S. Hough street, brought momentary consternation to his parents' household Saturday morning by falling 15 feet from a second story window.

"Nebbie," as the youngster has been nicknamed, leaped a little too hard against the screen. At the moment later he was picked up from the soft drift where he landed not more than six inches from a concrete sidewalk. His small body made a deep impression in the ground. Some of the force of his fall was probably absorbed by the screen which was found to be badly broken after the fall.

The child has shown no ill effects from the descent, it was reported.

## Tailoring Plant Retail Store Will Be Finished Soon

10 Days Required to Finish Interior Decorating of Building

Workmen spent the first half of the week placing a yellow brick and stone facing on the front of the Chesterfield Tailors new home on East Main street. The scaffolding that covered the front of the building has been removed, and all that remains now to complete the structure consists of painting and decorating and installing plate glass windows. It is expected that in another week or 10 days this work will be accomplished.

During the coming week several hundred complete samples will be shipped out to the Chesterfield representatives and stores throughout the country. It is expected that this will give the company a business that will permit the company to increase its working force to a considerable extent.

Public officials state that they are already in a position to fill local orders in spite of construction delays which are still holding up the formal opening of the retail store. This service has been extended to accommodate young men preparing to leave for school.

During the past week a complete line of fall and winter wools has been assembled, and a number of orders have already been placed. The company offers the opportunity to seeing clothes actually going through the various processes of tailoring, from the wools to the finished garments.

## First Run of "Grist From the Mill" Mixes With Ink This Week

For readers who enjoy a little bit of light reading and perhaps a laugh or two, the Review introduces this week a new column, "Grist From the Mill," by Clarence Miller. The column will be devoted to several religious magazines and conducts similar columns for a number of other papers. It is a fun and quips, quarks, pungent paragraphs, puns and bits of pithy truths that if they hit home will have well served their purpose.

## Village Trustees Accept State Bank Settlement Offer

\$21,000—\$5000 in Cash, Balance in Two-Year Notes—Is Agreed Upon

An offer of \$21,000, consisting of \$5000 in cash and the balance of approximately \$16,000 in two-year notes secured by collateral, was accepted by the village trustees in a special meeting Wednesday night as settlement of the village deposit in the closed First State Bank of Barrington.

Eight directors of the closed bank each gave a note for approximately \$250 payable in two years and posted collateral, consisting of several first and second mortgages, some American Telephone and Telegraph stock and some Barrington assessment bonds, to secure that amount. It was also decided and agreed to by Howard Brinkley, attorney for the eight directors that they would sign an agreement stating that in the event that any one defaults, his liability will automatically be assumed by the rest of the directors.

Part of Joint Account

The settlement Wednesday night is a partial settlement of a joint account that the village held with school township 43 amounting to approximately \$45,000 at the time the bank closed. It was determined by accountants that this amount the village's share was \$23,000. The balance of \$22,000 will be settled, it is believed, in dividends from the bank receiver.

A settlement also was made with the Public Service Co. for a village light bill amounting to \$1546.31 dating back to 1931. The bill was settled in full by payment of village tax warrants. The amount was split between Lake and Cook counties, \$800 being paid with 1934 Lake county warrants and the balance with 1934 Cook county warrants. The rate of interest agreed upon was five per cent.

\$2500 in Gas Tax Receipts

A letter from the state highway department concerning the paving of Park avenue was referred to at an earlier meeting of the board on Monday night. The letter stated that a fund of \$2528.26 in gasoline tax receipts is available for the improvement. The village will pay for materials and skilled labor out of the fund. However, the contract cannot be let until contract bidding blanks arrive. The board continued to express its eagerness of giving complete approval to the project.

Decide on Metal Tags

The vehicle license tags for 1935 will again be made of metal. The housing department is considering the use of metal tags.

## Chicago Newspaper Heaps Praises on Miss Blanche Frye

The popularity of Miss Blanche Frye, Barrington's own state soprano champion, has spread far from home this summer. Not only has Miss Frye's voice been heard and praised by hundreds of thousands of persons who have listened to it at the village greens and Red Lion inn at the "Merrie England" village at Century Park, but newspapers have picked up the acclaim.

In support of her popularity we reprint the following item which appeared in The Chicago Daily News on August 20 in a column headed "The 1934 Frye."

"Mention should also be made here of Miss Blanche Frye, 18-year-old graduate of Barrington High school, who has turned out to be one of the surprises of the 1934 Century of Progress exposition. With a fine dramatic soprano voice, she is 'singing' us nightly in the village square entertainment at Merrie England, despite the fact she sings only classical and semiclassical numbers. Visitors stoutly applaud her encores and from all indications it looks as if Miss Frye has turned out on a promising musical career."

## Former High School Faculty Member Back From Chinese University

Dr. Lewis S. C. Smythe, a former member of the Barrington high school faculty, has returned to the United States after spending the last six years in China.

Dr. Smythe is spending the summer with his wife and two daughters in Denver. He plans to arrive in Chicago October 1, at which time he expects to spend several days visiting friends in Barrington. He will spend one year studying at the University of Chicago after which he will return to China.

Dr. Smythe became known in Barrington in 1925-26 when he taught history and biology and was also the football and basketball coach in the local high school. He was known to many at that time as a friendly, approachable man. After leaving Barrington he studied for two years at the University of Chicago, receiving a Ph. D. degree from the university school. For the past six years Dr. Smythe has been a member of the faculty of the University of Nanking, Nanking, China.

## Federal Housing Act Designed to Increase Building

Credit Provision for Local Property Improvements in Effect This Week

Although Barrington has had more than usual building activity and sprucing up in the business section this summer, improvements in residential sections have been comparatively few. However, the federal better housing program inaugurated this week by the National Housing act should give added impetus as well as provide more work for the local building and trade workers.

This act is designed to make available through banks and other approved private lending agencies approximately \$1,000,000,000 for financing alterations, repairs and improvements upon all types of real property at the lowest charges ever offered for this type of loan. This act is designed to make available through banks and other approved private lending agencies approximately \$1,000,000,000 for financing alterations, repairs and improvements upon all types of real property at the lowest charges ever offered for this type of loan.

Loans Up to \$2000

Application for a loan from \$100 to \$2000 may be made for improving residences, apartment buildings, stores, office buildings, factories, and other commercial buildings. The notes may be made payable for any number of months from one to three years and must be paid in regular equal monthly payments until the note is paid in full except in the case of farmers who pay on crop income dates.

The housing department restricts the loans to buildings that are basically fit for use and are in need of repairs or improvements and the work must add definitely to the value and become an integral part of the structure.

## Falls From Tree; Breaks Arm

Little Harold Schaefer, son of Mrs. Sam Schaefer and grandson of Mrs. H. A. Schaefer, is suffering from a broken arm which he received when he fell out of a tree last week.

## Eager Scouts Give Time, Labor to Complete Unfinished Cabin

Work on the boy scout cabin located on the south side of the Russell street playground, has been slowed up during the past few weeks because of a dearth of FERA carpenters. The large auditorium has been veneered, and completion of the interior woodwork is about that remains to be finished by the project.

"First by Merit" in Barrington and Near-by Communities.

72.50 A YEAR IN ADVANCE, SINGLE COPIES, FIVE CENTS

## School Board Sets Opening Date for Monday, Sept. 10

Opening Date Delayed One Week for Completion of FERA Project

The Barrington grade and high schools will open for the autumn semester on Monday, Sept. 10, instead of the customary date of the first Tuesday after Labor day, according to a decision reached by the school board at a meeting on Tuesday evening. The date was set in order to allow sufficient time to complete the important work that is being done on the school building by FERA workers.

The opening day was set with the understanding that it will be the customary date of the first Tuesday after Labor day, according to a decision reached by the school board at a meeting on Tuesday evening. The date was set in order to allow sufficient time to complete the important work that is being done on the school building by FERA workers.

Extensive Repairs

There is not a single room in the old school building, which is utilized chiefly by the grammar school, that has not been retouched or completely remodeled or redecorated. The ceilings of many of the class rooms have been lathed and then plastered and painted. It is expected that the plaster will adhere much longer to the steel lath than to the ordinary lath made of wood. New cabinet and filing spaces have been built into nearly every room.

Basement Greatly Enlarged

The most drastic changes have been made in the school basement. A new boiler room and coal hooper have been constructed by extending a large portion of the basement to the west side of the building under the playground. Two new boilers have been installed, and a new and separate three-brick chimney with a three-foot flue is under construction. The top of the boiler room is level with the surface of the playground. Coal will be received in the coal hoopers by driving the trucks directly over the boiler room. The old chimney is being reconstructed as an incinerator to receive waste paper from either the first or second floors. The old boiler room is being transformed into a new and larger woodworking and mechanical workshop. The equipment will be moved into the new location some time next week. The room vacated by this equipment will be utilized for the teaching of a new course, building trades. Draftsmen's desks will be installed in the new course. The woodwork finishing room in the west corner of the basement has been plastered and painted. It will be used for courses in printing.

Adequate Office Space

The superintendent's office and school board conference rooms have not been abandoned. There are numerous other minor improvements throughout the building.

Continued on page 4

## Clubs - Society - Personals

## Surprise Mr. and Mrs. George Arn

Mr. and Mrs. George Arn had a pleasant surprise on Wednesday, Aug. 15 when a surprise reunion was given for them, Mr. and Mrs. William Tassar Jr. of Ray, N. D., Mr. and Mrs. Frank Schneider of Williston, N. D., Mr. and Mrs. William Tassar Jr. of Clovis, Mr. and Mrs. William Meister of Barrington and Clarendon Meister of Tulsa, Okla. were present.

## Lake Forest Party in Lake Forest

Vivian and Ruth Read, Mary Laughlin, Marion Hall, Jane Marie Curran, Margaret Jane McLeister, Leona Kotel, Ardith Wente and Vera Cady had a beach party in Lake Forest last Thursday afternoon. After having a swim in Lake Michigan they cooked supper on the beach.

## Miss Ruth Lageschulte Showered

Miss Evelyn Hansen gave a shower on Wednesday night, Aug. 15 in honor of Miss Ruth Lageschulte who is to be married on September 1 to Raymond Tate. Miss Eleanor Woolowski came to Barrington for the party and visited her grandmother, Mrs. John Woolowski until Sunday.

## Mrs. Efrink to Entertain W.C.T.U.

The next meeting of the W.C.T.U. will be held at the home of Mrs. George Efrink on Tuesday, Aug. 28 at 7:30 p. m. There will be special music, Mrs. Richard Heyboeck will be leader in charge and the subject will be "Child Welfare."

## Kolkmeier-Hartley Nuptials

Miss Thelma Hartley and William Kolkmeier were married in Chicago on Friday, Aug. 17. Mrs. Kolkmeier is the sister of Mrs. Eugene Grebe and Walter Hartley.

## Local Bird Club Plans to Present 'Sanctuary' Again

Continued from page 1

"Sanctuary," a bird masque by Percy MacKay, that was given in Barrington some years ago by the Barrington Bird club will be produced again this year. The masque was shown in the woods on the Hecht estate at its first presentation, and those who witnessed the performance were impressed by its loveliness.

This time the play will have an equally appropriate setting in the gardens of Mr. and Mrs. Alexander F. Reichmann, and the performance should be even better since many of the actors who had part in the first presentation have consented to play their parts again.

The masque is a poetic appeal for the spirit of brotherhood between men and the so-called "lower" creatures, especially birds. The characters are a little girl, a faun, a poet, a naturalist, a wood nymph, a bird-maiden and a plume hunter.

The out of doors setting, in mysterious half lighted woods, with distant music makes a peculiarly enchanting experience for observers.

The masque will be produced about the middle of September. The cast will be composed of local persons, and the play will be directed by Mrs. R. B. Hammond who was in charge of the first performance.

Our Diseases Are Old

Ancient Egyptians suffered from the same diseases which now afflict humanity. They had bladder, stomach, sinus, respiratory, tooth and nervous troubles, fever, epilepsy and headaches. Then, as now, women claimed the majority of ill.

## Local Bird Club Plans to Present 'Sanctuary' Again

Continued from page 1

"Sanctuary," a bird masque by Percy MacKay, that was given in Barrington some years ago by the Barrington Bird club will be produced again this year. The masque was shown in the woods on the Hecht estate at its first presentation, and those who witnessed the performance were impressed by its loveliness.

This time the play will have an equally appropriate setting in the gardens of Mr. and Mrs. Alexander F. Reichmann, and the performance should be even better since many of the actors who had part in the first presentation have consented to play their parts again.

The masque is a poetic appeal for the spirit of brotherhood between men and the so-called "lower" creatures, especially birds. The characters are a little girl, a faun, a poet, a naturalist, a wood nymph, a bird-maiden and a plume hunter.

The out of doors setting, in mysterious half lighted woods, with distant music makes a peculiarly enchanting experience for observers.

The masque will be produced about the middle of September. The cast will be composed of local persons, and the play will be directed by Mrs. R. B. Hammond who was in charge of the first performance.

## Jewel Tea Net Earnings for 28 Weeks More Than Doubled Over Last Year

Jewel Tea Co., Inc. reports consolidated net earnings for the 28 weeks ending July 14 of 1934, 641.33 or \$2.51 per share on 250,000 shares, after provision for federal income taxes, depreciation, and all other operating charges. In the same weeks of 1933 earnings amounted to \$305,637.75 or \$1.09 per share.

Improvement of 21.65 per cent in sales is attributed almost entirely to serving more customers, for selling prices were only slightly higher than a year ago, the report said. On July 14 the company was operating 1254 units.

The balance sheet shows net working capital of \$3,935,358.24 and a ratio of current assets to current liabilities of 4.20 to 1. Total inventories are 23.51 per cent higher than on July 15, 1933. The marketable securities account includes holdings at market prices on July 14, 1934: U.S. government obligations of \$1,001,727.50, state and municipal securities of \$112,987.81, and corporate and miscellaneous bonds of \$573,323.50. Congress and the various state legislatures continued to increase the tax burden during the first half of 1934. In that period taxes cost this company \$343,992.15, an increase of \$187,343.11, or 119.59 per cent compared with the same weeks in 1933. Tax payments in the first half of 1934 amounted to \$12.23 per share.

## Reservoir History of Jewel and N. Hough St. Sewer Installation Case

Following is a letter in part from R. H. Hilton, vice president of Jewel Tea Co. relative to the history of the Gjeliefeld or North Hough street sewer. Mr. Hilton, chairman of the sewer and water committee of the village board at the request of Mr. Blanke who proposed a comprehensive report on the subject.

"I shall be glad to set down for you my recollection of the steps and incidents involved in the construction and arrangement of the lift station on North Hough street, in connection with the sewer outlet from Jewel park. I should like to point out, however, that these are recollections only and there is nothing concrete or authoritative in the file to substantiate them. To the best of my knowledge, however, they are the facts and I give them to you for whatever benefit they can be in helping the village to correct the situation.

"You will recall the plans of both the village board and the village engineers during 1929 to provide a sewer system which would take in the south end, and north portions of the village, not then serviced by the sanitary sewage outlets, which would be taken up with a new unit at the disposal plant. If I am not mistaken, this program was undertaken at this time because of the application of the Jewel Tea Co., Inc. for an outlet for its plant and residential subdivision, the village board feeling that this was the time to extend its service to the outlying portions of the town. At the same time it was providing an outlet for Jewel park.

"I recall, having attended a board meeting or hearing at which this plan was laid before the village. A number of us appeared at that meeting and spoke for or against the proposed plan. Prospective residents of Jewel park appeared for themselves, and I appeared for the company. We were, of course, all in favor of the plan."

"At this time, the Jewel Tea

company retained as its engineers to take care of its development, Sahr, Berrman, Peterson and Subi, who were also village engineers. Our principal reason for retaining these engineers was because we felt that the best interests of the village as well as ourselves would be advanced by a sympathetic understanding of all of the problems of both."

"As is well known to you, there was at that time going on in the courts controversy between the village and the Barrington Hills Country club over the sewer situation as a whole. We were never formally advised, although it came to us by word of mouth, that not only had the Barrington Hills Country club objected to another unit of the disposal plant being constructed emptying into Pilot creek, but also that a neighbor of ours to the south had objected to giving an easement for the sewer lines to pass through his property. It soon developed, therefore, that the village had abandoned construction of other parts of the proposed sewer lines and that the only parts which were to be completed were those contracts which had been let by the Jewel Tea Co., Inc., as an individual. The disposal plant and the outlet line connecting it with Jewel park were abandoned."

"In the fall of 1929, some thirteen homes were constructed in Jewel park and were to be occupied that fall. The Jewel Tea company building was under construction but it would not be completed until the following spring. In the fall, it came to our attention that no outlet had been provided for the sewer lines and that apparently there were no plans under way to provide such an outlet.

"As soon as this was recognized, I personally interviewed Mr. Cadwallader and the engineers, placing emphasis upon the extraordinary situation in which we were placing ourselves with a complete system of sanitary sewerage and no outlet, and this company as well as individual home owners of Jewel park were quite insistent in their demands upon the village that this outlet be provided.

"Some time passed during which presumably the village board was working on this problem, and after our follow-up with the engineers and Mr. Cadwallader, the latter came to me stating that the problem had been solved. A concern which had had much to do with the construction of sewers in Barrington and which was under contract to the Jewel Tea Co., Inc. to provide certain portions of its improvements, had agreed to pull, at its own expense, an outlet connecting Jewel park with the then available sewerage treatment plant.

"We take this means of thanking our relatives and friends who so kindly offered their sympathy, for at our times, cars and assistance during our recent bereavement. Mr. and Mrs. Frank Kirchman. Mr. and Mrs. Sandfort Riecke.

plan. Further information was given that although the village was not proceeding with the re- mainder of the proposed sewer system, the Gjeliefeld Construction company felt reassured that the system would eventually be completed. They wanted to bid and, if possible, obtain the contract for completing the system, and they were willing to take the chance and install the connecting outlet at their own expense. It was pointed out that when the whole system was completed, if they were successful bidders, the outlet would be included in the plans and accordingly they would receive their money for having completed the work."

"So far as I know, from this point on no interest or attention was ever directed to the situation, in the spring following the occupancy of our plant, difficulties did develop in the flow of the sanitary sewers, occasioned by wet weather. From this time on, considerable attention was directed to the situation and when members of the village board and others in the community learned of the situation, much confusion, lack of understanding, and hard feeling started to grow up because, as I understand it, members of the village began to feel that this arrangement was something which now devolved upon the community, which was both expensive and unsatisfactory, and that it now devolved upon the community to correct something with which it really felt no concern.

"Along about this time I was called upon by Mr. Gjeliefeld of the Gjeliefeld Construction company, who pointed out to me the fact that he had constructed the sewer at his own expense and that

now the village not only would proceed with its intended plans but apparently had no intention of doing so. He had been unable to obtain payment for the work which he had done, and he called upon me in an effort to get the Jewel Tea Co., Inc. to pay him for this work which he had done for the village.

"This statement of my recollections in the matter is given without criticism of anybody involved and with only the hope that the whole matter will be straightened out to the entire satisfaction of all members of the community. If it serves this purpose, I shall be gratified.

Very truly yours,

(Signed) Robert Hilton,  
Vice President"

## BILL OF RIGHTS OR —?

A warning of a dangerous encroachment on the liberties guaranteed every citizen of this country in the cherished Bill of Rights of the constitution was sounded by Carl W. Ackerman, dean of the Columbia University School of Journalism, in an address delivered at a special meeting of the California Newspaper Publishers' association recently.

"From the day the National Industrial Recovery act was signed by President Roosevelt to the present hour, General Johnson has been fighting to control the press and substitute NRA-made opinion for public opinion," he charged.

At the outset of his talk, Dean Ackerman, who was an active newspaperman for more than twenty years before assuming his present post, stated that his remarks were to be in direct reply to utterances made by the national recovery administrator in an address recently delivered in Chicago.

Asserting that in his Chicago talk General Johnson made statements which are historically and factually incorrect and which clearly reveal his intention to substitute government-made opinion for public opinion, Dean Ackerman warned that "freedom of opinion has become as important an issue today as the freedom of the press was one year ago, and every citizen who cherishes his liberties must decide between the Bill of Rights and government by executive order, the twin brother of martial law."

Dean Ackerman stated it as axiomatic that public opinion must not be servile to government, but General Johnson is opposed to that principle, he said, adding: "He has opposed it ever since he became national recovery administrator and his latest address is a direct challenge to the press to lead the fight for freedom of opinion."

Recalling how the first draft of the NRA newspaper code contained a provision for the licensing of the press, Dean Ackerman said that General Johnson had expected by this means to "control the press and suppress public opinion, but the fight of the newspaper publishers of the United States for the freedom of the press in the daily newspaper code deprived him of his opportunity to establish a dictatorship by law."

## SERVICE CLUBS

The Kiwanis, Lions, Rotary and similar organizations exert a powerful influence in erecting those standards of citizenship which guarantee to every man the opportunity to develop his God given talents in accordance with his ability and resourcefulness. Their creeds are simple and constructive, containing no platitudinous generalities, but embodying the plain objective of serving, building and spreading the gospel of the underlying principles of American independence—the pursuit of happiness. The materials with which they build are not limited to any particular line of endeavor, but are as varied as circumstance, place and time suggest opportunities for concrete and constructive effort for the common good.

A great cardinal principle of these clubs, in maintaining their service to humanity, is a belief in the fundamental fact that behind every finished product there must be the human heart, the human mind and the human hand, and that only in so far as these human agencies are trained and developed, given breadth of vision and courage, can any worth while building be accomplished. Their record of achievement is open for all the world to see, and it is abounding in the high purpose of upbuilding human character, relief of suffering humanity and a constructive attitude toward every worthy problem, local, state and national. At the recent Florida district Lions convention in Miami a well merited tribute was paid to these service clubs for the beneficent work they have accomplished by Fred H. Davis, chief justice of the supreme court of Florida, who said: "Service clubs, such as the Lions, Kiwanis, and Rotary have prospered and grown great in America, because they have evidenced the scope of human relationships, fostered good will. We've left us no opportunity for the spread of hatred in this country and I feel the chief responsibility for this happy condition may be laid to the service clubs of the nation."—Topic, Mount Dora, Fla.

## EDITORIAL SHORTS

Presumably President Roosevelt took himself away for a nice rest and vacation. But the truth is, according to the best informed sources that he had some serious thinking to do and there was no better place to do it than aboard a battleship where no one dared to disturb him. That was the reason not even his secretaries, who are long-standing friends, went along. Rudolph Forster, chief clerk of the white house for years and years, can go for days without speaking unless spoken to, and enjoy it.

Here's the world's biggest gambler, the American farmer! He gambles with the weather, with the soil, with grasshoppers, with army worms, with grubs, and a score of other offshoots of the plagues of ancient Egypt. Every spring he takes a chance—a desperate chance. If he wins, as he does occasionally, he comes off with a big stake; if he loses, which he does more frequently, he has a chance to try again. Happily, he is a good loser, else the world would starve.—Gazette, Mitchell, S. D.

## WHAT'S GOING ON IN WASHINGTON

(Courtesy The United States News)

President Roosevelt, confronted with a full and busy week at his desk in the white house. Most of his time was devoted to conferences with his advisers, acquainting himself with what has been going on in the many government departments and agencies during his six weeks' absence from the capital. Few decisions were announced; none of any of the major problems which have been laid on the president's doorstep.

Much attention was devoted by the president to the problem presented by the NRA. That organization has completed its work of code making and its task now is entirely one of administration. Several plans have been laid before the president providing for change in the set-up in the NRA organization so as to provide more efficient administration, and a greater measure of compliance with the codes. Some of these plans involve an entire change in policy. Discussion of these plans were continued over the week end and were given a prominent place on the program of the executive council at a meeting scheduled to be held early this week.

Demands from business for government financial aid—even for the national direct loans in industry—have slackened so much that Jesse H. Jones, chairman of the reconstruction finance corporation, says conditions are trending upward. Others say that particularly the new direct loans to industry are concerned, it is rigid government requirements rather than better times which are keeping down the loans. Less than 12 per cent of the \$580,000,000 which congress appropriated for direct loans to industry has been put in use two months after the appropriation was made.

In the meantime the NRA has become the storm center of criticism both from inside and outside the government. From within complaints are being made by both labor and industry that the NRA is not using its power to see that provisions of the codes are complied with. From within the national labor relations board complaints come that NRA is not cooperating in its efforts to enforce

the codes. Government spending lagged last week as the pressure for relief funds relaxed. Instead of spending the \$25,000,000 which it has usually paid out in recent weeks, the federal relief administration, during the week ended August 15, disbursed only \$11,000,000. This reduction was reported by the treasury department.

pathological condition. All the scolding in the world won't help them. You need the skilled psychiatrist, neurologist, physician. Sometimes fear drives children into telling lies. That sort of lie is as easily detected as the other. Try to find what sort of fear is troubling the child and do your best to remove it. If you cannot find the fear and you see that the child is suffering from it, take him to the psychiatrist and have him treated for it. There is no time to be lost when adolescent children suffer from such ills. Sympathy is all very well but what is needed is skilled and prompt treatment.

Little children are easily handled as a usual thing. Even when we find the psychopathic liar. You will know him if he comes your way. His stories are not imaginative fairy tales, but the defense gesture of helpless childhood, but the tales of fear, distress, oppression and outrageous wrongs. Take that child to the doctor.

There is no cause for alarm when a little child strays from facts. Set him right by saying: "That is the fairy story. Tell me the real one. But when untruthfulness continues on into adolescence, call the specialist.

Many times these adolescent children are in the grip of sex urges that they know nothing about. The little instruction they have received is not enough to carry them through the terrific onrush of feeling, sensation, and desire. You choose to term it, that besets them. In their endeavor to maintain themselves in any degree of comfort they make mistakes, then lie out of them at best, they can because they are afraid to tell the truth. There is no use in the bottom of that you may be able to do something for him, or her.

When you find yourself in such a fix as this, waste no time. Go to the specialist. Find the one who knows adolescent children. Try to find a specialist who is serious in a hospital or clinic where such young people are treated. Tell him or her the story and put your afflicted child under treatment. Lies are indications of a

ected in a slackening in both emergency expenditures and the grand total of all expenditures. During the week the government spent on all activities only \$99,000,000. Previous weeks have seen the total over the \$100,000,000 mark. Almost all the decline in weekly spending was due to the drop in emergency outlays for relief. Ordinary expenses continued last week, as in the week before, to run a shade over normal. Total net emergency expenses for the week were \$45,000,000. Of this sum the largest single lump was \$24,000,000 paid out by the Public Works administration. The PWA has been averaging about this total week by week.

Choral Eucharist at 11 a. m.

Evening at 8 p. m.

A. E. TAYLOR, Rector.

Survey Under Way to Determine Extent of Drouth Relief Needs

Steps to obtain immediate help necessary for nine drouth affected northern counties comprising the main Illinois dairy section have been taken at the request of Governor Henry Horner by Walter W. McLaughlin, director of the state department of agriculture, who ordered a three day survey preliminary to a conference last Friday of state and federal agencies to consider the problem.

The survey is being made in Will, DuPage, Lake, Kane, DeKalb, Boone, McHenry, Winnebago and Cook counties to determine whether that area should receive primary drouth relief rather than secondary, as now classified. Primary classification would obtain for delivery of the section being surveyed immediate loans from the Federal Farm Credit administration for the feeding and care of cattle because of the feed shortage. The survey is being made in Will, DuPage, Lake, Kane, DeKalb, Boone, McHenry, Winnebago and Cook counties to determine whether that area should receive primary drouth relief rather than secondary, as now classified. Primary classification would obtain for delivery of the section being surveyed immediate loans from the Federal Farm Credit administration for the feeding and care of cattle because of the feed shortage. # Gussie Altenburg Homers as Bears Win 7-6

## Pounce on Storm for Victory Over Elgin Parkside

Bob Jones Has Perfect Day at Lake Zurich Sunday

Altenburg who came with the Bears to the first inning, was the deciding factor in the game. He hit a home run in the second inning, by a 3-2 margin. Gussie Altenburg, who was the star of the game, hit a home run in the second inning, by a 3-2 margin. Gussie Altenburg, who was the star of the game, hit a home run in the second inning, by a 3-2 margin.

Design of an Eagle The design of an eagle was suggested by the national flag, but was abandoned for the simpler stars and stripes. It has often been used on national flags. The eagle was first used on American coins about 1780, and has since been used on the seal of the United States.

Name "Mackinac" The name of Mackinac is the name of the strait and of the city is spelled Mackinaw. These names are of the same Indian derivation and are pronounced alike, as Mackinaw, with accent on the first syllable.

## Strangler Lewis in Pre-Championship Test Friday Night

A large percentage of Lake county's sport fans will gather in Rephan's open-air arena at Round Lake tonight (Friday), to see Lou Plummer, Waukegan's heavyweight mat ace, wrestle Ed "Strangler" Lewis, former world's champion in the main event of the greatest wrestling card ever staged in this part of the state.

This will be the last match in which Lewis will engage before his world's championship contest in Chicago, on the night of September 20, against Jim Londos. Besides this great attraction, matchmaker Lou White has signed a host of other world's title contenders for his preliminary matches. Jim McMillen will get a chance to redeem himself for his defeat at the hands of Lou Plummer on the last Round Lake card, when he meets "Crybaby" George Zaharias, the Colorado Greek in the semi-windup.

Another match that should keep the fans on the ends of their chairs early in the evening is one in which Able Coleman, the greatest Jewish grappler in the game, faces Hans Bauer, stocky German strong man. Coleman is the exponent of the spectacular "flying drop-kick" and hopes to use it to good advantage in this match.

The fourth match in this super-card will feature that Chicago wrestling Adonis, "Gentleman" Smith, from Post's Health club. He will meet an up and coming future champion, Ned Sparks, a Missouri pig farmer. Sparks is being coached by Jim Browning, former world's champion.

## Vernon Athletic Club Trims Lake Zurich Team 5-2

### E. Frank Hurls Entire Game for Lake Zurich; Three Pitchers for A. C.

The Lake Zurich Pirates met their Waterloo Sunday when they wound up a nine-inning battle with a score of 5 to 2. The Pirates scored their two runs from Nehmer in the first three innings after which Zeeman and Schenk each hurled three scoreless innings. The Vernon A. C. scored five unearned runs with E. Frank pitching the whole game for Lake Zurich.

## Net Team to Meet Elgin in Deciding Match Saturday

Series Tied With One Win for Each Club; Locals Lose to St. Charles

With the series tied at one win for each team, Barrington and Elgin tennis club teams will square off in a deciding match, Saturday, at the Jewel Tea courts. As in the other encounters between the two clubs the afternoon's program will consist of single and three doubles matches; play to start about 2 o'clock. In this, its first year of organization, the local net club has whipped together a formidable team and has played several strong teams in this vicinity with fair success.

An experienced St. Charles team took the measure of the Barrington netters by a 6 to 1 count at St. Charles last Sunday. Don Titterton, new club member, and W. Meyer won their doubles match to gain the lone point for the locals. All the matches were close and hard fought but St. Charles managed to come through with the winning points.

## McIntosh Firm Moves Tent for Real Estate Auction of Northwest Hwy. Lots

Climaxing a series of three property sales on its Barrington holdings, Arthur T. McIntosh and Co. have announced their last sale of the year for Sunday, Aug. 26, at 2 p. m. on the Northwest highway addition to Barrington which is situated at the junction of Northwest highway and Hough street, Barrington. In response to many requests from former purchasers and friends and clients of the company, the sale on Sunday will be in the form of an auction.

William H. DePue, local manager for Arthur T. McIntosh and Co., had this to say concerning the sale: "My company has a few very fine building lots left in the Barrington subdivision known as Hillside addition to Barrington, Main street addition to Barrington and Northwest highway addition to Barrington, some of which have not been offered for sale at any of the three previous sales, and a number of our clients are unfortunately forced to sell lots which

they cannot longer carry, in order to realize some cash for immediate needs.

"Barrington post 158, American Legion, has asked us to sell their lot in the Main street addition at this sale, and this will be done for them without charge. The highest bidder will get the lot and the money turned over to the Legion commander on the spot.

"Lawrence Wood will be the auctioneer. Mr. Wood is considered one of the greatest auctioneers of real estate in this country. Those who have heard him speak in Barrington for the past three Sundays will not miss this new opportunity to watch him work at one of his favorite occupations—that of a real estate auctioneer.

"The big McIntosh tent is being moved this afternoon from the corner of Hillside and Hough streets to Northwest highway just west of Hough street intersection, where it will be re-erected for next Sunday's auction. Mr. DePue reports there is plenty of parking space around the tent and that uniformed traffic officers will be on duty to direct the cars. The Barrington post of the American Legion also will have a speaker on the platform with Mr. Wood for a few moments when the Legion lot is auctioned."

**Lakes Warm in Cold Weather**  
There are rivers and portions of lakes in Yellowstone National park that are kept warm by hot springs even in sub-zero weather, and these become water oases for certain water birds.

**First Railroad in Australia**  
About 1855 the locomotive made its debut in Australia, in which year the first length of railway from Sydney to Parramatta in the oldest colony was opened.

## Local Brevities

Mrs. Bernice Bauman, a former classmate of Miss Edna Anderson at DeKalb, spent the week-end with her. Miss Anderson will have charge of the Grove Hill school on Algonquin road this winter.

Henry Hobelin who has been ill is greatly improved.

Mr. and Mrs. Erman S. Smith spent the week-end in Eagle Grove, Ia. Visiting Warren H. Smith who has been ill but is improving.

Mrs. Fred Schaefer who has been ill for some time suffered a relapse on Sunday but is improving again.

Word has been received by Mrs. Thorp that her sister, Mrs. John Lageschulte is ill in Ontario, Cal.

Mrs. Rose Homuth and daughter, Mrs. Dorene, spent the week-end in Woodstock visiting Mrs. Homuth's sister-in-law, Mrs. Laura Landwer. Mrs. Landwer's arm which was broken a couple of weeks ago is now out of the splint and mending rapidly.

Mr. and Mrs. R. Mair drove to the Hickory Hill scout camp Friday evening to witness the traditional ceremony at which badges are awarded. Two hundred girls took part. Sunday they brought Marjorie home with them. Audrey Cameron and Deborah Durbin drove home with Mr. and Mrs. Dowell Durbin who had also driven up.

## Generous Donations of Garden Supplies Are Received for Shut-ins

Generous donations of various kinds of flowers and pears, apples, peaches and many other kinds of fruit and vegetables were received by local representatives of the Chicago Plant, Flower, and Fruit guild at the C. & N. W. station by 9 o'clock Wednesday morning. The collections which are greatly appreciated by the shut-ins of Chicago hospitals and settlements will continue until cold weather cuts off the growth of flowers, fruits and vegetables.

It is the opinion of those who have been in charge of collection in Barrington that many persons are refraining from bringing in donations because they do not have large quantities to offer, whereas the smallest bouquet is

said to be greatly appreciated by the hospital patients who receive them.

The latest appeal from the guild is for bacon grease. Youngsters who are unable to secure butter for their bread find great delight in substituting bacon grease. Barrington women who have a surplus of this butter substitute may seal it tightly in glass jars and bring it to the station at the same time the flowers are brought in, the committee in charge announced.

## Father-in-Law of Local Pastor Will Preach in St. Paul Church Sunday

Rev. and Mrs. Hermann Koenig are hosts to the latter's father, Rev. William Baur, a professor of church history at the Theological seminary at Webster Groves, Mo. Rev. Baur arrived Wednesday evening and plans to remain for about a week. He will occupy the pulpit of the St. Paul Evangelical church next Sunday at 10:30 a. m., delivering a sermon in German.

Rev. Baur is just completing a 6,000-mile motor trip through the southwestern and western states. He is accompanied by a son and grandson both of whom are medical students. The son, Alfred, is a student at Washington university, St. Louis. The grandson, Theodore Koenig, attends the University of Texas at Austin.

A European expert has found it possible to play more than 700 different games with a pack of cards.

## Lake Zurich Tavern Keeper Files Petition Against Village Board

A petition was filed Monday by Sam Lazar of Lake Zurich for an injunction to restrain the village board of Lake Zurich from interfering with the operation of his tavern in Nestleer park. The petition was filed in the office of L. J. Wilmut, clerk of the Lake county circuit court.

Lazar was arrested early in August on a charge of selling hard liquor when he was licensed only to sell beer.

## Lazar's Petition Stated that the Village Board revoked his license without notice or just reason.

**An Excuse for Murder**

At certain periods of the year on the hot plains and deserts of South America, South Africa and Asia, blizzards and burning winds blow for several days at a time and so affect both humans and animals that persons who commit crimes, even murder, during these nerve-racking gales are seldom punished.—Collier's Weekly.

## Local Swimming Team Will Compete in Fox Valley Meet Sunday

Seven of Barrington's ablest swimmers have entered the Fox Valley Swimming meet at the St. Charles Country club, Sunday, Aug. 26. Competition will be strong as the best swimmers in all the towns in the Fox valley from Aurora to Woodstock will vie for the honors.

The local participants who will enter the contests in both team and individual events are Crystal Diete, Josephine Parks, Christine Kershaw, Jack Fletcher, George Griselinger, Dick Dwyer and Frank Vokar.

Medals will be given for winners in first, second and third places in each event. Trophies will be presented for four classes of winners—fancy diving, medley relay, freestyle racing and team winners. The preliminaries will be held at 10 a. m. and finals at 2 p. m.

Pub-Adv. Circulation Built on Reader Interest.

## Boy Scouts Make 2 Trips to City; See Game, Fair

43 Scouts and Cubs Guest of American Legion Thursday

Local scouts made two trips to Chicago during the past week, the first for a tour of the fair in celebration of national boy scout day. A century of Progress and the second to attend a big baseball game at Cub's park under the auspices of the American Legion.

The first party numbered 33 boys, including 10 scouts, the second 40 scouts and cubs.

Five local men interested in scouting escorted the first party leaving Barrington at 5:30 a. m. Thursday and directed the boys in sightseeing via the "chuck-a-system" with the scouts waiting in pairs. They returned home at 10:30 p. m. weary but contented after activities and sights of the day.

Leaders who accompanied the boys in the fair were Chris Somerville, scoutmaster of troop 23, Somerville, assistant scoutmaster of troop 21, Roy Wilmetts, executive committee member of the local suburban council, George Miller, committee man of the cub pack, and Percy Dwyer.

The party this week, numbered 42 local boys, witnessed a baseball game at Cub's park Thursday afternoon when two teams of high school boys sponsored by the American Legion met for a second time to determine the national junior championship.

In a game played Wednesday night, the American Legion team from Maryland 4 to 1 but the defeated team came back with a fourth Thursday and handed Maryland a split by winning 4 to 2 at the end of 13 exciting innings. The final game to decide the championship will be played Friday afternoon at Comiskey park.

Leaders who accompanied local scouts and cubs to the ball game were Henry Lipofsky, district commissioner, R. Wilmetts, V. P. Brewer, J. L. Mascher, and J. P. Pelman, chairman bar committee. Boys in scout uniform were admitted to box seats at the game free of charge.

## Swimming Pool Closed for Season Unless the Temperature Shoots Up

Barrington swimming pool will remain closed for the rest of the season unless old man Set happens up and does enough shining to warm the temperature sufficiently to make everyone long for a dip. It was decided at a meeting of the park board held Wednesday evening. Reports from the pool state that there had been very few swimmers Sunday and Monday and none at all Tuesday and today so it was voted to close the pool for the year unless a radical change in temperature took place. If the thermometer should shoot up to the nineties, the pool would be opened for over Labor day but keeping it in readiness for the public during such a hot day as was registered this week was deemed an unnecessary expense by the board.

## Barrington Hills Tennis Courts to Be Opened Sept.

Exhibition matches between outstanding Chicago tennis stars including Karl Kamrath and M. H. Wilson will mark the grand opening of Barrington Hills Country club's tennis courts Sunday afternoon. The first match will begin at 3 p. m. and the exhibition will include competitive matches between a group of champions. There will be a mixed doubles match, men's singles and women's singles. A dinner dance will conclude the celebration.

The club's first tennis tournament, hereafter to be an annual affair, will be held next week according to members of the tennis committee who are busy getting things in shape for a series of games. Entries will close Monday night after which lists will be posted for dates on which juniors and seniors will compete in championships in their various divisions. The junior matches will be limited to boys and girls 18 years of age and under. The senior games will include men's and women's singles, as well as mixed doubles matches.
