Officials Expect R.F.C. Loan for Bank in 90 Days

An RFC loan to the receiver of the First State Bank for the purpose of paying a dividend to depositors is expected this winter, according to information from an officer of the receiver's organization.

The loan probably will be approved in about 90 days but it may take as long as six or eight months, he said. The amount of the loan is uncertain but probably will be enough to warrant a 20 or 25 per cent dividend.

The bank's bond account with the First State Bank is \$100,000 and the bank has \$100,000 in cash on hand.

## Thanksgiving Program

### Sent to County Schools

"Thankful for Health Day" is the title of a grade school Thanksgiving program which the Lake County Tuberculosis Association is sending to schools in the county this week. Songs, poems, and plays are included in the program. The plays tell the story of the first tuberculosis sanatorium which was established by Edward Trudeau 30 years ago.

In addition to furnishing school health programs, the tuberculosis association is sponsoring an essay contest in the schools. The life of Trudeau is the topic for the essay. The first one will be broadcast from a Chicago radio station by the end of the month.

Judges of the contest will be W. C. Petty, county superintendent of schools, Mrs. Albert P. Saito of Highland Park and Mrs. John C. Mecham of Lake Forest.

Material on the life of Trudeau may be obtained from the association, or in the court house at Waukegan.

## MUNICIPAL INDEPENDENCE AT STAKE

Voters in the suburban communities must go to the polls next Tuesday and vote to save their own necks.

Strange as it may seem, many thousands of fair and honest citizens in Illinois unwittingly and without malice are going to vote to wean a rope which might some day be used to strangle, financially and politically, the people in all of the Chicago suburban territory.

That rope is the proposed constitutional convention, a scheme conceived in the inner offices of the Kelly-Nash-Horner political hall, and devised for the purpose of substituting a new state constitution for the old one which has held Illinois legislators in check ever since the state was an infant.

There is reason to believe that a new constitution, drawn up at this period of political unrest and rotten machine control of state affairs, would be a sorry substitute for the old bill of rights. That old constitution insures rural Cook county and adjacent territory entire independence from Chicago in the matter of municipal control, school system, and park district management. Under the old constitution no city in the state can annex adjacent rural or urban territory without the consent of the residents of that territory. It is a well known fact that political interests of Chicago have for a long time coveted not only the adjacent territory but also all of Cook county as well as DuPage and part of Lake county. Schemes have been formulated for building up a single police system, combining the many park districts into one county-wide district, and consolidating more closely the Cook county schools. This was to be offered to the people under the guise of "cooperation and economy." The various towns and villages of the county were to retain their nominal identity but lose control of their municipal, park and school affairs. However, the old constitution requires that such steps can be taken only if the voters of the several towns and villages as well as those of Chicago, (voting separately and not collectively) approve.

The rural residents of the Chicago district have no assurance that a new constitution would give them as adequate protection. In fact they can rest assured that it would not. With the city hall gang in a position to dominate the proposed constitutional convention, all barriers to an expanding metropolitan Chicago would be conveniently eliminated from a new constitution.

If 100 per cent of the residents of this community understand this underlying motive for calling a convention, they will cast an overwhelming majority of votes against it.

## YOU CAN KILL SALES TAX

Henry Horner holds the political balance of power in Illinois almost as strongly as Franklin Roosevelt holds the balance of power in the nation. Roosevelt probably will not lose control of either the senate or the house. Horner will not lose control of the state senate but he may lose the legislature.

Democrats and republicans alike in downtown Illinois pray that his machine will be defeated in the legislature. They cannot forget that he hammered through both houses the infamous sales tax law which extracts \$20 a year from the average poor but employed man's pocketbook and spends a few dollars of that amount for support of necessary state government and the rest for upkeep of Boss Nash's political machine.

Republicans and democrats alike cannot forget that Horner moved hell and earth to force the state NRA compliance act through the two state legislative bodies he controlled. Both laws will die if the republicans gain control of the state legislature. They should die, but they will live as long as the people of Illinois permit Horner to retain control of the state government. Next Tuesday, November 6, is the day when citizens can go to the polls and decide that the sales tax shall not live after July 1, 1935. Democratic and republican voters can and will do it by taking away Horner's majority in the lower house.

## WHY PASS BOND ISSUE?

The voters of Illinois will be asked to vote a \$50,000,000 bond issue at the election November 6. As both political parties have endorsed it, the question cannot be termed a partisan one. Every effort will be made by well-meaning people to put this bond issue over; the principal argument and only one for it, is that, if it does not pass, the total bond issue will have to be paid out of next year's taxes, which it is estimated will amount to from 62¢ to 68¢ on the state tax.

We believe, in the interest of economy and good government, this bond issue should be defeated. It is true that its defeat will force its payment next year, but why not? What right have we to pass this on to our children, who have had nothing whatever to do with this diabolical condition we are in? We have already passed too much on to the coming generation, and we will be condemned by them and rightly so.

The people were told that if they would pass the \$50,000,000 relief bond issue, two years ago, that that would be the last. They had no more than passed it until this \$50,000,000 bond issue bill was drawn through the Legislature.

legislature. Now they are asked to pass this one. We understand that plans are under way to pass a \$50,000,000 bond issue bill at the special session right after election. If this one is passed, mind you, the \$50,000,000 has already been spent—it isn't a question of keeping people from starving—that will be the argument for the next \$50,000,000.

According to statistics given out from Washington, D. C. by the national administration there have been 4,100,000 put back to work under the new deal the year. As Illinois is the third state in the union and has one-fifteenth of the population, it is natural to assume that we have 273,333 more working today than a year ago, and yet \$6,000,000 was expended in October, 1933, for relief and \$10,000,000 has been allocated for October this year. That the relief is a huge political deal is admitted by practically everyone who has investigated. Are we going to pass this bill onto our children and invite the legislature to jam through another so-called relief bond issue?—Minook News-Dispatch.

## Arlington Beats Palatine 32 to 0 for League Lead

Arlington Heights practically clinched the conference grid championship by defeating a fighting Palatine eleven 32 to 0 last Saturday on the Cardinal field. A strong chilly northwest wind made playing conditions bad but didn't stop the powerful Cardinals from scoring six touchdowns in the first five minutes of play.

Wining the toss and taking the wind advantage, the Cardinals clinched the game in the first quarter. Long runs enabled Himes and Howling to cross the Palatine goal in the first minutes of play. Miller scored the third touchdown in the second quarter on a 40 yard run through the right side of the Palatine line. The score at the half was 26 to 0.

Arlington Heights sustained

an 18 yard run for their fourth

score in the third period with Harrel going over for the score.

In the last quarter when both

Groce and Magel had a second

team players in the lineup, Arlington scored for the fifth time. Deans recovered a Pirate fumble. Michalek ran for 20 yards and Johnson scored the touchdown.

Palatine did not go down to

defeat without putting up a battle

but they were up against the best

Cardinal team Groce has ever

coached.
