PLEDGE IS THE PRICE

As a protector of public morals and particularly an en-courager of good ones, one newspaper in the United States is courage of good ones, one newspaper: in the other discase in a unique position. This particular one also has arrived at a solution to one of its most vexing problems.

As all newspaper men know, in a small town where every one knows his neighbors, publication of police news

when it deals with local intoxication charges, usually is em barrassing. The Independence (Kansas) "Reporter," con-fronted with requests that the names of residents of that aronned with requests that the names of residents of that eity who were picked up occasionally for having had a drink too much, be kept out of print, hit upon a fairly successful plan. If it agrees to such individual requests, a pledge of future sobriety must be signed by the culprit, if the case one of a first offender.

The pledge is not considered an exceptionally impossible one to keen Its wording is such as to make the signed and the contractions.

ne pieceje is not considered an exceptionally impossible one to keep. Its wording is such as to make the signer agree to do his best to keep away from liquor in the future, with the understanding that in event he should break the pledge the newspaper is released from any further obligation to refrain from publishing his name.

Out of slightly more than 100 signers of the pledge,

only three have broken it, jaccording to reports from the publisher, who believes that he has it upon a plan that is of assistance to those who are inclined to be too sorely tempted by liquor. At the same he has saved his newspaper from requests that are annaying. Also the community is the gainer all around, and the newspaper has done a nice piece of social work that entitles it to a little praise.—Press Citizen, Iowa City, Iowa.

MANY CHURCHES LACK MONEY

When one looks over his home town and sees the in-ordinate struggle of many good and worthy people, our very best citizens in fact, over the problem of church finances in order to keep a demoninational machine in operation in a order to keep a demonstrational machine in operation in a field where the competition is so keen that survival displaces service, he cannot help but realize that a denominational soul isn't worth saving.

Five struggling preachers, five worried congregations they are, all patriotically waving the banners of their several church denominations and each with only strength to hold up the staff and not enough to do any valiant service for the Master.

The answer comes in field exchange, merging of congregations, federation of denominations or what have you to get into united action the Christian folk of every rural community for consistent and unselfish service which would enlist the whole-hearted support of youth, middle-life and

illusioned young men, with a laity who will see less in de-nominational yokes and more in active service to others nominational your and more in active service to often there will arise a commonsense and unbiased view of the present tragic situation. Out of it will come a new order of church comity and the world will be far better off, for souls will be born into the real kingdom of God.—Journal, Lander, fing their respective gardens.
