## Neptune Night at Club

There were few parties this week. All seemed to be waiting for the largest party of the year, scheduled for Saturday night. The Neptune party, an annual event at Barrington Hills Country club, will be even more enjoyable this year than last. There will be two orchestras so that there will be dancing all the time. For entertainment, professional swimmers and divers will give an exhibition and at 9:30 p. m. and 12 p. m. there will be floor shows. Breakfast will be served when 2:30 comes around.

Members of the Garden Club at Lake Geneva spent Monday at the home of Mrs. Perkins. Afterward about fifty people bridge and then visited lovely gardens in the vicinity. Among the most beautiful of these were the Perkins', the Bartholomew's, the Rhems', and the Grunow's. Last year the Bartholomew's raised 200 pheasants from eggs. At the Bartholomew's garden, 10-foot tall delphiniums and lilacs, and grapes hanging from the roof of the greenhouse were particularly striking. The bathhouse at the Rhems' had tomatos hanging along one side. Equivocal double potting was seen at Grunow's. On the main street of the city was a tiny house and garden, called the Wee House. It was remarked that the garden looked like an outdoor living room. After seeing the gorgeous gardens the guests had tea at Mrs. Brand's and then left for home.

Mrs. Simon of St. Paul was married to Chauncey Lamb of St. Paul at a small wedding in the home of her daughter, Mrs. John Remond, Saturday noon. ## "Becky Sharp" Color Makes Screen Realism an Enchanting Thing

"Becky Sharp" will begin a four-day run at the Rialto theatre, Elgin Sunday bringing to movie fans a new all-color motion picture.

With the coming of color in motion pictures, the limited impression of the black and white screen becomes outmoded. No longer will it be possible, by clever shifts, to create a sense of the genuine. The technicolor camera photographs objects as they are. A fake of any kind is quickly recognized for what it is.

An excellent example of this is make-up. The heavy, opaque make-up, that is perfectly satisfactory in black and white, looks heavy and lifeless to the color camera.

Fabric is another example. A cheap piece of material gives itself away immediately in color photography. Patterns and designs that are unhappy combinations of color are still unfortunate on the screen if they are supposed to be the taste of discerning people. On the black and white screen line and cut of clothes determined their style. Today the couturier of the films has to meet the demands of color and fabric. Silk must be silk, damask must be damask and velvet, velvet, or else it doesn't look like what it is supposed to be.

Robert Edmond Jones, designer for "Becky Sharp" the Pioneer Pictures' full-color feature produced by Rouben Mamoulian, shows motion picture audiences damask that is damask, and Miriam Hopkins and Frances Dee exactly as they would look at an evening dansant.

# GAS HEAT

Investigate our Special Summer offer—install gas heat now and pay nothing until October

EVENTUALLY you'll have a modern, automatic gas heat. When your neighbors tell you of the joy and comfort that gas heat brings into their homes you'll want it, too. Then why not have it now? There's no need of putting off the day when you'll have this twentieth-century convenience. Before you order fuel, get the full facts on gas heat.

Now at low rates, every home—even the most modest—can afford gas heat. Rates for gas

are now one-half of what they were in the 1930-31 heating season. And our special offer lets you try before you buy. We'll install it at our expense and you pay only \$3 a month rental during the first year for the equipment in the average home. This charge will be included in the bill for the gas you use. Use it for one month, two months or a year.

There are many reasons why you want gas heat. It ends days

and nights of coal shoveling... chopping kindling... the anxiety of watching fires, setting dampers. Walls and drapes stay clean, free from dust, grime and soot. There is no more tracked-up dirt from the basement.

Don't delay—investigate TODAY

With gas heat a single match is your kindling pile for the year. You fire your furnace from your easy chair.

Now in effect

**"Les Miserables" Featuring F. Marchand and Laughton Here Wednesday**

"Les Miserables" which plays the Fox River Grove, gives a picture of an outstanding performance and enhanced photography. The picture is laid in French and the betrayal.

by McLaughlin of his best friend. Saturday night brings Heather and the "Alibi Ike" in "It Happened in New York." It is a comedy drama, rapid and light, built around the attempt of a movie star to steal a little money from a boy friend. Ring Lardner's classic of baseball and blunder, "Alibi Ike," is scheduled for the Sunday-Monday spot with Joe E. Brown as the dizzy miracle man in the box. It will be a near call for the great game on account of laughter, as the scene how. What a picture!

Charlie Chase in "Poker at 5." Mickey Mouse in "Service Station," news band act and community singing will build the Sunday-Monday program to a new high in light entertainment.

Barnes night offering next Tuesday will be a return showing of Gary Cooper's, "A Lionel Lincoln," a production rated among the best of the entire year—one that fully merits repeated play.

"Les Miserables," Victor Hugo's greatest classic, with the stars, Frederic March and Charles Laughton, is scheduled for Wednesday and Thursday next week. The story's arrangement of injustice flames anew as Laughton in the role of Javert pronounces the words, "I sentence you to 10 years in the galleys!"

It will be remembered Jean Valjean had stolen a loaf of bread. After serving his monstrous sentence he was free—free to live a lifetime of terror—a hunted thing bereft of love, honor and a name.

Viewers of "Les Miserables" will acclaim this production as eminently distinctive—a fitting successor to "The Count of Monte Cristo."

**Use of Double Negative**  
In Anglo-Saxon, Greek, French and some other languages, the double negative acts only as a negative intensifier. In modern English it destroys the force of the real negative; in other words, two negatives make an affirmative.

**Largest Salt Lake in World**  
The Caspian sea, the largest salt lake in the world, has no connection whatever with the ocean. Its surplus waters are lost through evaporation alone.

**Eskimo Chippewa Term**  
The word Eskimo comes from a Chippewa term signifying eaters of raw flesh. They call themselves Inuit, meaning people.

**Americans Use Much Paper**  
The average American uses his weight of paper each year, while the average Russian uses less than 10 pounds.

## Longest Eclipse of Moon in Fifty Years Monday

Residents View Celestial Show from Gardens and Porches

The longest eclipse of the moon visible in this country in fifty years kept hundreds of Barringtonians awake until long past their usual bed-time Monday night. According to scientists there will not be another eclipse of such length for another half century.

Barrington's view of the spectacle was pronounced "perfect" since skies were clear. From gardens, porches and windows, residents watched the phenomenon. A scientific explanation of it follows:

The phenomenon came with direct alignment of sun, earth and moon, the moon sliding through the earth's umbral cone, which extends 860,000 miles into space. The moon touched the p.m. light in cut off, at 10:15 p. m. central daylight time, and reached the umbra, or totally dark shadow at 11:12.

By 12:09 it was in total eclipse, emerging from the other side of the thick cone an hour and 40

minutes later, and clearing the penumbra at 2:35 a. m.

The refracted rays from the sun, which gave the eclipsed moon a pale phosphorescent copper color and made it still visible, were bent around and directed into the earth's umbra by vaporous substances about the earth's surface.

Mostly who are served by the truck, but the dealer should be paid, Mr. Church declared.

The bank has signified willingness to make a loan of \$500 but wants the village, through its official board to guarantee payment of the amount. The board took the matter under consideration and will reach a decision at a special meeting Friday.

The board approved purchase of 300 feet of fire hose and other small items for the department. The village clerk was instructed to get bids. The trustees also approved benches for Railroad park and for the lawn in front of the village hall. Trustee Grobe was authorized to borrow some forms for concrete benches from Arlington Heights—the use of which had been offered Barrington previously—preparatory to constructing the benches.

Medical Instruments Classified Musical instruments are classified according to the way the sound is produced. There are stringed instruments, wind instruments and percussion instruments.

Torrents of rushing water from melting snows on the Big Horn mountains in Wyoming provided thrilling experiences on our climb through Matterhorn pass. Snow plows had just opened the road on the morning of the day we went through. That afternoon our way was possible but we had to cross a bridge before it was washed away. Yellowstone National park was just being opened the day we arrived in country. Years ago it meant bloodshed some time, but today the light is still shining on quieter terms. For hundreds of miles we saw nothing but sagebrush except where the land had been irrigated. On July 4 I took an airplane ride over some irrigated country. The irrigation ditches glimmered like silver threads in the sunlight. As long as the ditches were in view the ground appeared green and productive, where they left off the soil was parched and brown. Rain is very rare on the east side of the Cascade mountains where our camp is located. It is difficult for us to imagine the floods we hear about in the mid-west.

"Boden, Idaho, is a beautiful city standing like an oasis in a desert. Just for a novel turn I rented a bicycle and toured the city one morning. Water runs down the beautiful hillsides in the form of small streams. The water is the great problem of this part of the country. ## Trustees Receive Instructions on Sewer From State

District PWA Engineer to Inspect All Details on Project

A letter from the Illinois office of the public works administration was received by A. C. Benson, village clerk, this week outlining forth the necessary steps of procedure for the approval of the sewer project.

The letter showed that all work and preliminary work must first have the approval of the state organization before installation of the sewer is begun. Approval of the state PWA engineer must be obtained before advertising of bids can be done.

Three sets of drawings of plans upon which the contract is to be based are to be first sent to the state board for approval. Also three sets of specifications are to go for inspection and approval.

Two copies of information furnished to bidders are asked by PWA heads for approval. Two copies of the contractors proposed form are also necessary for the board of trustees. Three copies of the bids are then to be sent to the state group for inspection. Three low bids are to be copied and sent to the state engineer with the recommendation from the engineer or architect stating which bidder

After all bids have been received and opened by the village board of trustees, three copies of the bids are then to be sent to the state group for inspection. Three low bids are to be copied and sent to the state engineer with the recommendation from the engineer or architect stating which bidder

# Bears Lose Hard Fought Game to Elgin Parkside Sunday 2-0

## Libertyville to Play Return Game Sunday With Bears

Game Lasted 12 Innings Before Parkside Score Two Two Hits

Libertyville's pitching staff was not between the Bears and Elgin Parkside in the diamond Sunday. The Bears won the game 2-0 in 12 innings. The Bears' lineup was: 1. Left field, 2. Center field, 3. Right field, 4. First base, 5. Second base, 6. Third base, 7. Shortstop, 8. Pitcher. The Bears' lineup was: 1. Left field, 2. Center field, 3. Right field, 4. First base, 5. Second base, 6. A mother who spent much time helping older sons with their studies suddenly realized that a young daughter felt "left out." She quickly adjusted matters by helping this child to "fix up" her room. A father who had required his young son to do more work than his daughter, told the son that he was training for a man's responsibilities. And he won the son's affection by helping him learn to run the family car. Jealousy, like some of the less common causes of perverseness, is easier to prevent than to cure. Jealousy has little place in the family. It is the only emotion that there is never the least question in the mind of any boy or girl regarding its fairness. Besides this, the emotion should be taught to each other. To tell them to do this produces little effect. Home life should develop a natural jealousy. It is the only emotion that has little place in the family. It is the only emotion that has little place in the family. It is the only emotion that has little place in the family.

## Bedlam of Nationalities

### Lines Singapore Streets

The crowded Singapore streets present a bedlam of nationalities, each garbed in the national attire as modified by an equatorial sun, observes a correspondent in Washington Post. Confused Chinese coolies, barefooted, sport abbreviated black shorts for their complete costume. Tall, powerful, brown khaki from the hills of India, parade in long shirts worn outside of a voluminous pair of white pants; their long hair bound by a turban which hangs well below the shoulder. Thousands of cool black, painfully thin Tamils from south India are a marked contrast to the southern Indians as they wander about in brightly tinted loincloths. The "forgotten men" of Mexico, the native Indians, are everywhere, outnumbered by their fellow and black brothers from China and India, lodge their Mohammedan caps squarely on their broad heads and wend their way unconcerned with the drama of a fast moving age. Egyptians, Arabs, Filipinos, Japanese, and others, all mingle in this truly international city.

## Drum, Bugle Corps of District May Be Here Wednesday

Local Legion Post Plans Parade, Contest Plus District Meet

A parade of drum and bugle corps of the ninth district American Legion units and competition between various corps at the local ball park will be a highlight of the ninth district meeting to be held in Barrington Wednesday evening, July 24 if all corps accept Barrington post's invitation to come.

Park Ridge drum and bugle corps, state champion, is included in this district.

Answers have not been received from the various posts to date, according to Commander M. H. Schreiber but tentative plans are being made for a parade and also a drum and bugle corps contest about 7:30 p. m., prior to the regular district meeting to be held in the school auditorium that evening.

District Commander Joseph Bernhard will call the meeting to order about 8:30 or 9 p. m. and with his staff, will conduct the business session. Committee reports and plans for the state convention at Quincy will constitute the program.

Members of the local post will

serve refreshments at its conclusion. A committee appointed by Commander Schreiber to take charge of local arrangements for the meeting includes the following men: Cecil Paxton, in charge of drum and bugle corps activities, and Paul Schroeder, Kenneth Shoup and Emil Miller.

It is estimated that between 200 and 400 guests will attend the district meeting.

**Jewel Tea Company Will Be Host to 900 Employees at Picnic Here Sunday**

Jewel Tea company will be host to over 900 employees in the Jewel organization Sunday at an all-day picnic on the company grounds.

The program for the day will include many sporting activities and included will be a competition for the All Company trophy to be decided on a list of events. Tennis, baseball, putting, ping pong, bowling and horse shows are the competitive games.

Additional features have been included for women's interest. Youngsters will also come into their share of the festivities. Due to the picnic the tennis courts in Jewel Park will not be open to the public on that day.

**Tennyson Disliked Criticism**  
Tennyson published a small volume of poems in 1830, the year before he left college, and another volume in 1832. They were both severely criticized. Blackwood's Magazine called them "lilliputian" and "drivel" and Carlyle characterized the aesthetic verse as "lilliputian." This criticism caused the poet to remain quiet for nearly 10 years.

## 25 Enter Vacation Reading Contest at Public Library

Party to Be Given for All Reading at Least Eight Books

With 25 boys and girls enrolled in a newly organized vacation reading club the contest being held in conjunction with the club is now in full swing. Miss Olive Dobson, local librarian, is in charge.

Entrance requirements state that each contestant must read at least one book a week, not including series books, Tennyson stories or magazines, and the winners must read at least eight books.

At the end of the contest there will be a party to which all winners will be invited. A specific prize will be given to the boy and girl reading the largest number of books.

The contest only started last week, but it is not too late for further enrollments since any boy

or girl can easily read two books to make up for missing the first week, Miss Dobson stated.

Those entered in the contest to date are, Ruth Emerick, Nancy Bradley, Leona Bohrer, Florence Behrer, Helen Rohrer, Frances Dewitt, Joyce Nichols, Mary Jean McClure, Jack Greening, Julia Bierman, Emogene Golladay, Bruce Miller, Robert Clark, Faith Pedersen, Gloria Homuth, Lester Homuth, Hildegarde Schultz, Margaret Wiedenbeck, Frances Plazek, Van Nicolai, Irving Schultz, Paul Docks, Harriet Taylor, Hugh Watterman, Gretchen Mandelkern.

Two of the girls, Mary Jean McClure and Faith Pedersen are reading while away on vacations.

**A Feathered Architect**  
Although he is accused of being Public Enemy No. 1 of other birds of the prairie sections the black and white magpie is one of the finest architects of the feathered tribe, says Pathfinder Magazine. His nest, which is built of sticks, is sometimes as large as a basket basket and is domed over. The inside of the nest is plastered with mud, nicely lined and is completely weather proof.

**Myke 55**  
If a spider spins down on or near you pick it up and put it in your pocket, and it will bring you money.

**Former Residents Hold Reunion in Los Angeles Park**

Mrs. P. Cannon, G. W. Wagoner, W. Phagge, H. Aurand New Officers

The following account of a reunion of former Barrington residents at Los Angeles July 15 was sent to The Review this week by Ross Dabbs Plagge, secretary of the organization:

The Barrington circle met at a beautiful Griffith Park in Los Angeles, Sunday, July 14. After visiting and partaking of a beautiful lunch, we had a business meeting. The following officers were elected to serve for two years: President, Mrs. P. Cannon; vice president, G. W. Wagoner; secretary, Warren Wagoner; treasurer, H. O. Aurand.

We were happy to have Eunice Reese with us. Three of the former Barringtons brought their children; namely, Billy, son of H. O. Webster Procter; two daughters of Erna Gottschalk Briner; and two daughters of Laura Webster Hanawalt.

Various games were played and prizes awarded to the winners. Later in the afternoon the group accompanied with a hearty barbecue.

Names and addresses of those attending the picnic were:

Mrs. M. Wagoner, 1314 W. 43rd street, Los Angeles.  
Mr. and Mrs. H. O. Aurand, 3115 10th street, Santa Monica.

**Auto Theft Gang Sentenced to Jail in Criminal Court**

Prison sentences were meted out today at the Cook county criminal court for members of the auto theft gang that had been operating in this territory.

John J. Gilbert, prominent garage owner and school trustee, was sentenced to from 1 to 30 years. Nick Wenden, Madison Park, was also given a 20 year sentence. Marvin Jure, son of John Jure, and Edward Magdon, Die Plaines, were granted probation.

Other members of the gang had already received sentences of 1 year each.

Arrested upon information furnished by E. W. Beale, local chief of police, they were held for the theft of a car belonging to Richard Taylor, 811 Hillside avenue.

With the arrest and conviction of these men police believe they have solved many of the missing car cases in this neighborhood. Jure had used his garage in Gilberts as a "stripping plant" for the cars taken from around here. At the garage changes would be made and the auto then sold as a used car.
