## HANDWRITING ON THE WALL

Unless President Roosevelt announces that he is through with reform and is giving his attention to recovery, and unless he gets rid of those of socialistic tendencies and brings into his cabinet the real democrats of the nation, disaster will befall the democratic party nationally as it did in Rhode Island, is the opinion of former governor Ely of Massachusetts.

This opinion, voiced in an interview following the special election, reflects the frank view of one of the most astute political leaders of all New England, the first democrat to be elected governor of the old Bay state in more than a generation. Gov. Ely, in that same interview diagnosed the causes that led to the overwhelming defeat of the democratic candidate for congress, who ran wholly as a New Deal supporter, but regarded as of even greater significance the vote of the entire state refusing to accept federal aid for bonddogging relief projects.

## THE PUBLIC FRIEND

We have heard much of late about the public enemies. The United States government is pursuing certain conspicuous characters whom it declares to be public enemies and it has disposed of several conspicuous figures in that class. There is a whole army of public enemies with whom the country has to contend, and many of them have never seen the inside of any prison.

Meanwhile we should recognize that we also have a great many public friends, as well as public enemies, and warm tributes should be paid them, and people should be encouraged to qualify for this class. What are the characteristics of the public friend?

The public friend believes he must take some share of the labors of carrying on community work in his home town. If he is asked to take some office in some good community organization, he does not say, "Oh, no, I could not possibly do anything like that." You find him taking up tasks that are more or less distasteful. You will probably see him at your door some night, offering you an opportunity to give money to some good home town cause.

The public friend is interested in everything that promises progress for his home town. He attends meetings and gatherings called to discuss local problems. He offers suggestions when he can see things that should be done.

The public friends makes his purchases at home whenever he can, which is practically always.

The public friend always speaks good words for his home town. He does not think it smart or funny to take a superior attitude and point out its defects, but he always speaks of its kindly and friendly spirit, and the public institutions built up over years of labor.—Tribune, Royal Oak, Michigan.

## WHAT'S GOING ON

WASHINGTON

(Courtesy The United States News)

The good ship "Social Security" nosed its way into the legislative port as the present session for the present session of Congress, a federal-state system of unemployment insurance and aid for dependent children.

Signed this bill, whose passage

marked historic for all time the president characterized as the "new deal which we have never offered by the measure."

1. A measure of protection against two chief hazards of our industrial civilization—unemployment and poverty—old age.

2. A partial leveling of the ups

and downs of the industrial cycle—applying a brake on the rate of earnings in good times, and cushioning the shock of depressions, as these impounded reserves are drawn on for unemployment and destitution relief.

Tossing aside all opposition, the new tax-the-wealthy bill speeds through the Senate, passes the House on Aug. 22, and goes into conference with the house version approved the previous week.

Rejected by 3-to-1, majorities are amendments for broadening the tax base and doubling the revenue. Accepted is one amendment to exempt federal securities in the future and another which would permit trading in silver securities.

Estimated revenue to be raised by each bill is about 250 million dollars annually, but methods differ.

House bill would tax inheritance; Senate bill would omit this feature, increase tax on estates willed.

Both bills assess higher rates on large corporation incomes, but the senate bill strikes deeper at "bigwigs."

Farm control in amended form is assured as house and senate take concurrence in the conference report on the bill to "clarify" the agricultural adjustment act.

Ready for white house approval, the measure sets processing taxes on a surer constitutional basis, making them levies by congress instead of by the secretary

of agriculture.

Senate bill, as amended, provides for the present in event of invalidation by the court, but loss must be proved and books opened for court inspection.

Retirement of submarginally

land is authorized, but only with work-requirements; not with proceeding tax revenue.

2. The export of farm commodities, 25 per cent of farm revenue may be used.

3. Subsidize the export; that is, pay the exporter the difference between domestic prices and the lower prices realized from abroad.

Red Wings Jolt Bears 5-1 Sunday for Second Win

Shimmel's Altenburg's Homer in Ninth Saves Locals From Shut-Out

legitimate counters-home runs by Willert and Hertel. Emmy "Shimmel" Altenburg saved the Bears from a shut-out by belting out a home run in the ninth with no one on. Charley Berg got the only other extra-base hit of the game, a triple in the sixth inning.

### Line-up Changed

The Bears had a somewhat changed line-up Saturday, as the regulars were missing. Willert, Altenburg, shortstop, was in Elkin's place for a try-out with the Trades Councils; Al Heitman, second baseman, was out of town on a vacation. Ray Witzman, out-fielder, still not well from an injured knee; and Mike Taylor, pitcher, had joined the C.C.C. and will be lost the rest of the season.

Next Sunday the Bears travel out of town for a game with the Benavensia Tugos. The woman's golf tournament, also completed last week-end.

Miss Pauline Seipp won the woman's golf tournament, also completed last week-end.
