## "The Crusades," Drama of Middle Ages, at Catlow

"Freakles" to Be Shown Wed.  
and Thurs. as Campfire  
Girls' Benefit

The magnificent and terrifying  
epic of the armies of two  
worlds at battle; the color, pa-  
per and rustic beauty of the  
Middle Ages; the poignant ro-  
mance of a king and queen whose  
loves crossed the course of world  
history.

These three story elements Ce-  
cilia M. Catlow created the plot of  
this most spectacular and daring  
production. He has ever produced  
"The Crusades," which will be  
presented by the Catlow theatre  
company Friday and Saturday.

Patricia Loretta Young and  
Ben Wilcox with a supporting  
cast of over one hundred name  
actors and thousands of extras  
recreate that magni-  
ficent period of history when  
the Christian armies of the king  
Charles followed the fanatic  
precepts of the crusade to wrest the  
holy land from the Saracens.

William plays Richard the Lion  
Heart, commander of the combi-  
nations. Loretta Young is Ber-  
engaria, the girl he had to marry  
to secure supplies for his  
army.

Keith is cast as Saladin, and  
Joseph DeMille, C. Aubrey  
Joseph Schickel and Alan  
are prominent in the sup-  
porting cast.

"The Crusades," playing Sunday  
afternoon, is the starting dra-  
ma of the U. S. Crypto-  
graphic Bureau as told by the man  
who created it and headed it  
during the World War.

Major Herbert O.  
the sensational bestseller  
"The American Black  
Secret" is crammed with the  
most revelations of the secret  
espionage department of  
the foreign diplomatic or en-  
emy communications were secretly  
decoded and deciphered.

Through this amazing tale of  
code and cipher has been woven  
romance with William Powell  
as chief cryptographer and Ros-  
amund Russell.

Others in the cast are Blaine  
Homes, Henry Stephenson and  
John Atwill.

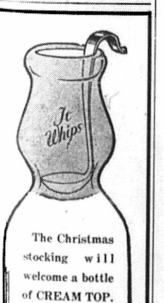

"The Crusades" will be the bar-  
nacle offering next Tuesday.  
When Boyd is starred as Hopa-  
cousa in this new episode  
of the colorful West.

Representing a departure  
from the regular movie formula  
is "Freakles," Gene  
Hart's outstanding nov-  
el in the brave beauty of  
the backstage, the story nar-  
rows the difficult course pursued  
by orphan boy in his search  
for happiness.

Tom Brown as the title charac-  
ter and Carol Stone have the ro-  
mantic leads, with Lumsden Hare  
and Tom Rush in other roles.

"Freakles" will be presented as  
a benefit for the local Campfire  
Girls' organization, and will be  
shown next Wednesday and Thurs-  
day nights. "Handway Kid," a  
comic in color, Sportlight and  
show, will be other items of  
interest on the bill.

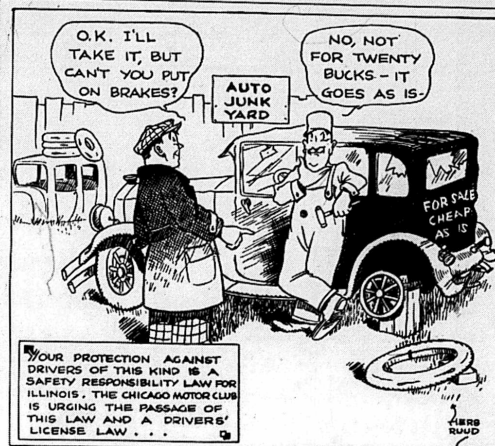

**Grows Largest Leaves**  
A native lily, whose name is Vic-  
toria, grows the largest leaves  
of any plant in the world. They  
measure 20 to 40 feet round.  
The leaves turn up and the leaves  
float on the water, looking like plant  
leaves. A man can quite easily sit  
on one of these leaves.

## Dead Branches Fire Hazard

Forest fires are a frequent af-  
flict of serious insect outbreaks  
in the woods. Large forest areas  
hit by defoliating or boring insects  
that kill a high percentage of the  
trees are often swept later by con-  
flagrations that are very difficult  
to control, reports the United States  
Department of Agriculture.

The dead branches both in the in-  
sect-killed trees and on the ground pro-  
vide plenty of fuel for any chance  
spark or flame. Furthermore, the  
defoliated trees offer little resist-  
ance to the sun and the litter on the  
forest floor is more readily dried  
out. Some insect outbreaks, such  
as those of the mountain-pine  
beetle in Idaho, kill from  
50 to 90 per cent of the timber in  
the stand where they occur. Even  
a 50 per cent kill opens the forest  
canopy enough to keep the material  
on the ground highly inflammable,  
and, in addition, supplies nume-  
rous dead stems which aid in start-  
ing lightning fires, in supplying fuel  
for the flames, and in throwing  
burning twigs or pieces of bark  
across fire lines.

## Medical Men Loved Music

Perhaps the most famous of med-  
ical men who have loved music was  
Bilroth, close friend of Johannes  
Brahms, and one of the greatest  
surgical pathologists in modern  
history, says Hygeia, the Health  
Magazine, the home in Vienna was  
the scene of frequent musical eve-  
nings, and many of Brahms' finest  
string quartets, vocal and piano  
duets were first heard there.

## Jerusalem's "Wailing Wall"

The "Wailing Wall" in Jerusalem  
is near the Moslem Mosque of  
Omar. A portion of it is 50 feet  
high, and it is supposed to contain  
some of the stones of Solomon's  
temple. It is the gathering place  
of Jews on Fridays to lament and  
pray. It is said to have been built  
8,000 years ago by King Solomon  
to protect his temple. The Wailing  
Wall has been a shrine sacred to  
the Jews since Titus destroyed the  
temple in the year 70 A. D.

## Name of Cod Fish

The province of Nova Scotia, the  
Acadia of French days, was once  
named in honor of the cod fish. Dar-  
ling Basque fishermen, who crossed  
the Atlantic in the thirteenth cen-  
tury to fish off the Grand Banks of  
Nova Scotia, called present day  
Canada's most easterly province  
"Baccalao," meaning cod fish. Bac-  
calao Point, near Shelbourne, is the  
only surviving place-name derived  
from the old Basque term.

## Old Pavement

During the war, Australian sol-  
diers, trench-digging near Beer-  
sheva on the road to Egypt, turned  
up ancient pavements with Chris-  
tian signs and inscriptions. For a  
week the Australians, continually  
under airplane bombing by the en-  
emy, dug away, carefully raised it  
and dispatched it safely to Cairo.

## Party for Children

Perhaps the most enjoyed party of the week was the one given for the youngsters at the home of Mrs. Robert Buckley on Wednesday. It was primarily a Sunday school affair, the boys and girls who comprise the group, known as St. Peter's Sunday school. Mrs. Samuel Rowe was in charge of the party, and about 50 youngsters sat delightfully through three short movie reels, munching popcorn just like they were at a regular movie. Games were played supervised by Miss Erica Wleber.

## N. U. Man Speaker

Sunday night the Barrington Hills Country club was the scene of another interesting gathering. About 60 dinner guests listened to a most delightful talk by Mr. William, the athletic director of Northwestern university. He spoke on "Good Sportsmanship" and showed moving pictures of the Notre Dame-Northwestern game.

The Thursday night open house at the club drew out a good number who stayed to play bridge.

The report comes that Tuesday night is Men's night at the club, and a bridge party that is really

a serious study of that enthralling game is the object of the gathering.

"The Country club is to promote many winter activities. Among the rest, the tennis courts are to be booked for skating, and a toboggan slide will be erected on the golf course.

## The Bat's Wings

The surface of a bat's wing is furnished with a multitude of nerve-ends of almost incredible delicacy, by which, it is believed, the animal perceives the presence of something unseen, but to be avoided, by the varying of the air caused by its flight and deflected back. This theory explains the ability of bats to fly and fly about in pitch dark caves, or when experimentally blindfolded in a room containing tangled wires that remain untouched.

## Equal Rights

Women in Burma, India, have equal rights with men whose property is concerned; husband and wife live on terms of greater equality than in any other country in the world.

## Great Pyramid

The great pyramid of Egypt shows evidence of technical skill unsurpassed in the history of building—in level, in length of side and in true square of angle, the great square of the base is practically correct; one could cover the amount of error with one's thumb. The joining of the lower courses of masonry and of the ascending gallery is practically invisible, for the time of mortar is less than a fifth of an inch in thickness.

## The Bassett Hound

The Bassett hound originated in France some time during the eighteenth century. It is 14 inches high and weighs from 40 to 50 pounds. It comes in both the rough and smooth coats but the former is practically unknown in this country.

afternoon with Mrs. Alexander Reichmann as guest speaker. Her subject was "Begonia and Cacti." Mrs. Reichmann has developed a splendid collection of rare and familiar species of these two plant families and her discussion, supplemented by slides showing the gorgeous blooms, was interesting and valuable.

Ten and a social hour followed the program with Mrs. E. F. Wichman as hostess, assisted by Mrs.

F. C. Kirchman and Mrs. R. L. Mundbank. Christmas decorations were used at the attractive tea table and in keeping with the Christmas spirit of the affair, members brought gifts in holiday wrappings to be distributed to bedridden children in Chicago hospitals. Each member had been requested to make at least one hospital bag and put in it toys or small articles which would be of use or pleasure to inmates.

## All Talk Not in Powder;

## Other Minerals Are Used

Talc is a mineral which finds many uses on account of its extreme softness and unctuousness. It is so soft that it is readily scratched by the finger nail and feels as slippery as if it had been greased. Its familiar use as a talcum powder depends on these properties as well as the absence of grit and the fact that it does not cake or become plastic when wet.

Talcum powder is the pure mineral ground to powder and perfumed. Sometimes a little borax is added as a mild disinfectant. Other somewhat harder and less unctuous minerals such as sericite and apophyllite are sometimes substituted for the talc, and chemical products are sometimes substituted for special purposes. In Colonial times our grandmothers used fuller's earth as baby powder.

Talcum powders account for but a small part of the tale used, according to Field Museum News, an organ of the Field Museum of Natural History, Chicago. For every pound of talc ground for talc powder four pounds are used in other ways.

## Four Persons Die Following Crash at Holland, Mo.

Local Relatives Attend Rites at Wauconda for Mrs. Gossell and Son

A group of relatives from Wauconda, Monday for the funeral of Mrs. Gossell and her son, David, victims of an airplane crash which ended the lives of the four persons near Holland, Mo., Dec. 5.

Gossell and her two children, Franklin, 8, were killed with her parents, Mrs. Clayton Warden of Wauconda, when the airplane crashed in the winter, having been in flight for some time.

An automobile struck a truck on the highway near Holland and the car was thrown into the air. The car was trapped in the car and the driver was killed. The car was pulled out of the wreckage and the driver was taken to a hospital immediately and died at Bytchville hospital the following day.

Gossell continued at the funeral service were held at the Wauconda church. Mrs. Gossell was not considered a relative who had been in the family for some time. The funeral service was held at the Wauconda church, Wednesday evening, Rev. O. F. Jordan, pastor of the Community church of Park Ridge was the principal speaker.

## Willard Scherf Is Seriously Hurt in Building Accident

Struck by Timber; Unconscious Several Hours But Recovering

Willard Scherf of Barrington was seriously injured at Harvard at about 3:30 o'clock Wednesday afternoon when struck on the side of the neck, at the base of the skull, by an 8x10 timber. He and his brother, Kenneth, and two or three other men were engaged on a job of moving a building when a timber slipped off of place and struck him.

The young man was rendered unconscious by the blow. He was taken to the Harvard hospital where he had not fully recovered consciousness at 7 p. m. although he was showing promising signs of recovery. An X-ray did not reveal any bone fractures.

A. L. Scherf, father of Willard, was not in Harvard when the accident occurred.

New Program of Study Adopted by Countryside Garden Class Members

The Countryside Garden class is entering upon a new year under the guidance of Mrs. Nellie Hammond, club president.

The program for the year is a new venture, planned in part from the calendar outlined by May Elizabeth M. Adams in the November issue of "Garden Glories."

The discussion for each meeting is divided into three parts, design, horticulture and a general topic, to be conducted by the members. Five minutes are also to be used for a glossary of plant names.

Members are anticipating the opportunity to enrich their knowledge of plant life and design, it was reported.

## Victor Clinge's Eye Is Operated In Effort to Remove Steel Particle

Victor Clinge, son of B. L. Clinge of Cuba township, was taken to the Sherman hospital, Elgin Thursday where an operation was performed to remove a piece of steel from his left eye.

The particle flew into his eye while Mr. Clinge was working on an automobile. According to the latest report, it worked to the back of the eye-ball and the operation was not successful.

## Local Teams Win and Lose in Cage Games at Lake Zurich Tuesday

Two cage quintets made up of local church league players split even in a pair of games with the Lake Zurich church teams at the Parish gym Tuesday night.

The Barrington lightweight won 22 to 20 with Eiters scoring 13 points for high honors. Lake Zurich won the feature game from the local heavyweight by a score of 27 to 18. This developed into a rather rough affair as evidenced by the 20 personal fouls called on Barrington and 19 on Lake Zurich.

## Undeclared Teams Clash in Feature Games This Week

Two teams will drop from the undeclared class in the Northwest conference heavyweight cage race when Libertyville meets Grant and Bensenville clashes with Wauconda Friday night.

At the present time six quintets—the four already mentioned and Barrington and Warren—are tied for the lead by virtue of victories in opening games last week. However, when ring ceases Friday either two, three, or four teams will be left at the top depending on how the games come out.

Concerning the chances of the other two leaders, Warren and Barrington, Warren should get safely by week Antioch, but Barrington will have a tough job to down the powerful Leyden Eagles, who are smarting under that 7-point defeat by Libertyville.

In other games this week-end Lake Forest has an edge over Palatine while the Arlington-Elia tilt appears a toss up. The opening card Friday produced some interesting results. Barrington and Wauconda turned in what might be termed upset victories over Lake Forest and Palatine. Warren just managed to beat Arlington, and Elia almost nipped Bensenville. Libertyville defeated Leyden 22 to 15 in the feature game, while Grant rolled up the widest margin in trimming Antioch 21 to 19.

Leyden Eagles established themselves as the leading lightweight team by trouncing Libertyville 26 to 13.

## Name Libertyville State Sectional Basketball Center

Locations for Illinois State high school regional and sectional basketball tournaments and dates of play have been announced by the Illinois High School Athletic Association.

Libertyville high of the Northwest conference has been selected as one of the 16 sectional centers. The other sectional sites are Decatur, Champaign, DeKalb, East St. Louis, Freeport, Gillespie, Joliet, Johnson City, Kankakee, Macomb, Lincoln, Mattoon, Mt. Carmel, Peoria Central, and Pittsfield.

This year there will be four tournaments a week-end. The districts will be held February 27, 28 and 29.

The regionals, which include the winners and runner-up of the district, and six other teams, will be played a week later, to be followed by the sectionals and the state finals of 16 teams at the University of Illinois gym.

Among the nearby regional centers are Waukegan, Woodstock, DeKalb, LaGrange, and Rockford.

## Girl Scout Notes

Local troops met in a joint meeting at the scout cabin Tuesday afternoon. Troop 2 is planning for a formal party to celebrate Christmas, the probable date is Thursday evening, Dec. 26. Each scout may invite one guest.

The council held a special meeting Monday afternoon in Miss Miller's room at the public school. Business left over from the regular meeting last week was finished. Mrs. Edwin J. Parke was elected commissioner for the next term. The attendance was very good with ten of a possible fourteen councilors and troop committee members present. Although the scouts met together again this week, regular separate meeting dates have been arranged. Troop 2 on Tuesday afternoons immediately after school at the cabin and Troop 2 alternate Thursday evenings at 4:30. Because of the evening meeting, it is more necessary than ever that scouts bring a

written note for absence from meetings. The committee in charge of the rummage sale held in the cabin Saturday report a satisfactory result, \$12.58 having been secured. It is planned to open the sale once more this coming Saturday, Dec. 14, in the Standard Motor building.

## Furry-Day, Annual Fete;

Its Origin Is Unknown

Furry-day is a fete-day observed

annually, and only in the town of

Hellestone near the extreme tip of

Cornwall, England. The origin of

the festival and the origin of the

name are both lost in antiquity, says

Literary Digest. Local legend con-

nects the festival with the name of

the town. It is said that a huge

granite block lying within the town

up to 150 years ago, formerly lay at

the door of hell; that Satan carry-

ing it away for some diabolical pur-

pose encountered St. Michael, and

that, feeling from the victorious

angel, he dropped the stone in his

haste. Thereafter the day of the

struggle has been commemorated

annually, with Michael as the pa-

tron saint of the town.

The celebration is observed by a

morris-dance called rationally the

faddy-dance, fade-dance, or furry-

dance. Possibly the name furry

may be a corruption from fair, O,

from the second line of a verse in

the tune always sung during the

dance:

Robin Hood and Little John,

They both are gone to the fair, O,

And we will to the merry greenwood,

To see what they do there, O,

And for to chase, O,

To chase the buck and doe,

With Italian-tow.

Jolly rumbly, O.

Formerly, the entire village took

part in the dance, and anyone fail-

ing to observe the fete, if detected,

was ridden on a rail and dumped

into the river. The dancers walked

two and two during the first half of

each verse of the tune; at the sec-

ond half the first man turned the

second lady and the second man

turned the first lady. All doors in

the village were left open and at

their will, the dancers might trav-

erse any house and garden. The

day was always closed by a ball.

Several Indian Tribes

Once Owned Part of Ohio

It cannot be determined definite-

ly just how long it has been since

Indians inhabited Ohio, says the

Cleveland Plain Dealer. Early in

October, 1817, a treaty between the

United States commissioners (Gov-

ernor Cass of the territory of Mich-

igan and Gen. Duncan McArthur of

Ohio) and the Indians who had

possession of lands in the north-

western corner of the state, was

concluded at Fort Meigs. The ces-

sions made by the Indians on this

occasion nearly extinguished their

title to the state.

One of the earliest tribes which

inhabited Ohio was the Erie, or Cat

tribe. They dwelt in the region

south of the lake, to which they

have given their name, and their

country extended probably half way

down the state.

The tribes living within the pre-

sent boundaries of the state at the

time the white settlement com-

menced were the Iroquois, who in-

habited northeastern Ohio; the Wy-

andots, the entire northwestern

part of the state; the Delaware,

most of the region east of the Sci-

oto; between the Scioto and

Miami rivers were the Shawnees,

while beyond lay the lands of the

Miami, which extended westward

into Indiana.

Various other tribes had occa-

sional residence in the state—a re-

sident of the Mohicans who had

settled themselves with the Delawares,

a few bands of the Senecas and

Tuscarawas, and a single band of

Ottawas.

## THE ROAD TO MORE JOBS

"The cheaper a product can be produced, the cheaper it can be sold; the lower the selling price, the larger the number of people who can buy and use it."

There is no hocus-pocus economics about that plain statement. It is simple, understandable language for any layman, taken from the report of the National Association of Manufacturers which held its convention in New York last week.

Carried a step further this process means an increase in production and in the number of those who can purchase, enjoy and consume the product; it means an increase in employment; and, finally, an increase in the consumption of raw materials, particularly those produced on the nation's farms, and therefore more employment in the rural regions.

"The progressive relationship between low costs and low prices, increased consumption and increased production, and the certainty of its leading to increased employment and increased use of raw materials is so simple and clear that it should have been entirely obvious to those directing the destinies of the nation," the report said.

"We join in the demand made by every enlightened economic organization for abandonment of the philosophy that prosperity can be produced through curtailing production, whether in agriculture or in industry. True abundant life can be supported only by abundant production of the things that enrich the lives of all."

Simple logic of that kind is hard to escape. When automobiles cost \$2000 there were very few sold and little employment in the industry. But \$600 cars made automobile manufacturing the leading industry of America. Pork chops at 60 cents a pound only cut down the consumption. Arbitrary curtailing of production make escape from the depression doubly difficult.

## HOW NOT TO DO BUSINESS

A Wright county merchant once went out of business. While in business he made no money for himself and succeeded in keeping his competitors from making money.

He landed in the county with a stock of goods, and announced that he would undersell his competitors. If his competitors offered merchandise at a dollar, he announced that his price would be 90 cents.

When he went out of business he owed a large sum of money. He settled with his creditors on a basis of about 10 cents on the dollar.

His idea of business was to cut the price. That is all he knew about business. As a result he chalked up a miserable failure, folded his tent, and quit.

Not only did he lose his money but he deprived his competitors of a profit, and the trade was demoralized. And his creditors footed the bill. It even caused other business houses to fail, and because of no fault of their own.

No community can thrive unless people who do business make a profit. This applies to merchants, farmers, industrialists, and all. When some fellow thinks he can outsmart the rest of the crowd by elimination of profit he is nothing short of ridiculous. It costs money to operate a business, and anyone who thinks he can escape this cost is absurd.—Independent, Belmond, Iowa.

## LITTLE FELLOW'S CHANCE

The Press believes that the Spirit of American sportsmanship is such that the little fellow will get the break every time if—and this is the big IF—he demonstrates that his merchandise, his service and his establishment are not necessarily equal or superior to, but even approach those of his competitor. Finally, if he is to reap full advantage of this innate American characteristic he must remember that as much as the true sportsman favors the little fellow if he is game and a fighter, just so much does he hold him in contempt if he proves to be nothing but a "cry-baby" and sympathy-seeker.

The independent merchant very definitely has something to sell that no business not personally managed can hope to cope with—it is his individual and cooperative group problem to sell this certain something.—Western Hills Press, Cheviot, Ohio.

## DID YOU EVER SEE THESE?

And, by the way, did you ever see a man carrying a billboard under his arm? Did you ever see a handbill on a reading table? Did you ever see a picture of the new hat you want come into the home via radio? Did you ever see a live newspaper thrown into the wastebasket without being read? That's why advertising in a good newspaper brings results.

## WHAT'S GOING ON

(Courtesy The United States News)

Cost of the family's market-basket continues its sharp flight upward.

Retail food costs increased another 1.4 per cent during the two weeks ended Nov. 19, principally because of sharp advances in the price of dairy products, fresh fruits and vegetables, according to the labor department's bureau of labor statistics.

Although the bureau reported a drop in the price of flour of two-tenths of 1 per cent, the price of white bread rose by the same fraction. The greatest increase in the price of bread, 10 per cent, occurred in Kansas City.

Prices of pork chops soared upward once more after a previous drop. This time the increase in price was 7 per cent. All meat items combined rose two-tenths of 1 per cent. All beef items and other cuts of pork fell in price. The market said that, in general, meat prices now are lower than they were four weeks ago.

Throughout the nation prices of dairy products climbed. A general increase of 9.6 per cent in the price of butter was reported.

Eggs, however, decreased an average of 2.1 per cent, with the heaviest decline in the Pacific Coast cities.

Fruits and vegetables likewise jumped in price, an increase of 5.9 per cent being reported for them. Most striking increase in retail food costs was reported for potatoes. Advances in these prices amounted to 15.5 per cent, with higher prices in all cities. Most marked increases occurred in New England and the Middle Atlantic states. The new AAA potato control act went into effect December 7. Continued increases in prices are now looked for by many federal officials.

The bureau said that the general food price increase of 1.4 per cent was the result of increases in 48 of the 51 reporting cities. These increases ranged from one-tenth of 1 per cent in Atlanta to 2.1 per cent in St. Louis.

The year 1935 will probably be one of the nation's healthiest years, with approximately 34,000 fewer deaths than the year before.

Such was the prediction made by Dr. Chester T. Brown, medical director of the Prudential Insurance Company, before the annual convention of life insurance presidents in New York City last week. Basing his analysis on the records of 49 companies, having in force 87 per cent of the legal reserve life insurance policies in the United States, he reported that deaths among each 100,000 policyholders in 1934 numbered 847, while for 1935 the figure is 822—a reduction of 3 per cent.

With the works program going fully under way, the size of the CCC has been set at 428,000 enrolled men for the quarter beginning January 1, 1936. This figure represents a reduction of 72,000 men below the present authorized strength of 500,000 enrollees. The readjustment in the maximum strength of the CCC will be effected gradually. Director Fechner said.

Third week's tally in the Literary Digest straw poll, now including 421,540 votes, shows five southern states now for the new deal and 13 states, mostly in the North and West, opposed, with a 55-44 division in percentages.

In the pro-new deal column (thus far are Georgia, Kentucky, Tennessee, Texas and Virginia; and in "anti" parade, California, Florida, Illinois, Iowa, Kansas, Massachusetts, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma and South Dakota.)

Democratic chairman Farley mislaid significance of the Digest poll at his Wednesday press conference. So far as the mislaid is concerned, the poll is "100 per cent wrong," he said. A reporter suggested that the democratic or-

ganization had thought highly of accuracy of the Digest poll in 1932. Chairman Farley replied its reliability had skidded in 1934. Democrats, for example, had strongly carried Maine in spite of the Digest giving it to the republicans.

More farm mortgages are held by Federal land banks than by life insurance companies and commercial banks, which formerly ranked as the largest holders of farm mortgages among classes of credit institutions.

Rest Chairs in London Parks For nearly a century an English family has held the right to rent chairs in the public parks of London. Although there are a certain number of free seats, this family owns 150,000 chairs, placed in the better locations. The tickets, which are good for one day, sell for four cents and entitle the owner to come to park and chairs from Collier's Weekly.

# Bronchos Defeat Lake Forest 28 to 21 in Conference Cage Opener

## Local Five Plays an Improved Game; Ponies Win 20 to 14

Libertyville Leads Scoring: BHS Teams Play at Leyden Friday

Following an all around improved game, Barrington High's basketball team defeated Lake Forest by a score of 28 to 21 in the opening conference cage game Friday night. The BHS quintet functioned well all through the game and the favored Lake Forest team was unable to keep up with the Bronchos.

The game was played at the Leyden High School gymnasium. The first quarter was a close one, with the Bronchos leading 10 to 8 at the half. In the second quarter, the Bronchos increased their lead to 20 to 14 at the half. The third quarter was a close one, with the Bronchos leading 28 to 21 at the end of the game.

The Bronchos were led by Ray Hackett, who scored 15 points. Other players who scored were: John Hackett, 10 points; John Hackett, 10 points; John Hackett, 10 points; John Hackett, 10 points; John Hackett, 10 points.

## Salem, Baptists Cop Decisions in Church Openers

St. Paul vs. Methodists and Baptists vs. St. Anne Next Monday

Salem defeated St. Anne and the Baptists triumphed over the Methodists in the opening church league basketball games Monday night.

Salem took a 17-4 lead over St. Anne at the half and kept increasing the margin to the final game when the score stood 39 to 20. Tate and Harder led Salem with 16 and 14 points respectively.

The Baptist-Methodist tussle was nip-and-tuck all the way. At half time the Methodists led 15-12 but the Baptists went ahead in the next two periods to win 23 to 19. Heitman, Baptist, and Ertter, Methodist, topped the scoring with eight points apiece.

On next Monday night the Baptists meet St. Anne in the first game at 7:45 P. M. while the league champs, St. Paul, make their debut against the Methodists in the second game.

**GAS HEAT**  
AT OUR EXPENSE

FREE TRIAL OFFER ENDS  
DECEMBER 21, 1935

Thousands of satisfied users prove value. Gas Heat no longer on trial. To give everyone an opportunity to install it at our expense we are making this announcement. Act quickly.

TWO heating seasons ago, intrigued by the thought of constant, comfortable heat without the dirt and discomfort of old-fashioned heating methods, thousands took advantage of an offer to try gas heat without investing one cent for equipment. Today these thousands of satisfied users have more than proved gas heat's worth. They have shown beyond all doubt that gas is the ideal fuel for heating the home. Our trial offer has served its purpose—to acquaint these users with gas. Therefore, the free trial offer will be discontinued on December 21, 1935.

If you haven't yet done so, we want you, without investing one cent for equipment, to learn as these thousands of others have done, what a marvelous thing gas heat is. But you'll have to act NOW. Here's what we'll do. We'll install gas heat in your present furnace or boiler entirely at our expense. You can try it for a month, two months or a year. While you are trying it you will have to pay only a small rental—only \$3 a month for the burner during the heating months in the average home. This charge is included with the bill for the gas you use. Then, if at any time within the year, you would like to return to your former fuel we'll replace your former heating equipment in good order at our expense. But if you decide to keep gas heat, as these thousands of happy users did, the rental you have paid is applied on the purchase price of the equipment.

Act right away. Take advantage of this free trial offer before it's too late. You have only until December 21, 1935, before the offer is withdrawn. Simply call your nearest gas company office for complete details and for free estimate of what it will cost to heat your home the modern way—with gas.

**De Not Forget Famous Dates**  
Far be it from the Barrington Review to forget the famous dates in history. They may forget the particulars of what occurred, but forget the date—never. A daily lesson is taught to both grown-ups and children alike, and to visitors, too, for many of the most important thoroughfares are named to commemorate dates of significance to the history of the world. The most important of these is the Avenida 18 de Julio, or 18th day of July, avenue, named in honor of that day in 1800 when the constitution of the country became law. Two others of importance are Calle 25 de Mayo and Calle 25 de Agosto, or 25th of May and 25th of August streets, the former named to honor the independence of the colonies of the River Plate, obtained from Spain in 1810, the latter being the day in 1825 when the independence of the republic itself was proclaimed.—Washington Star.

**"Soldier" Imperialist**  
The soldier in Russia is the "Red Army Man," the word soldier being imperialist and bourgeois.

**Rock Talks Weather**  
Fried by contrary winds "rock barometer," a beautiful piece of green stone, which turns a dirty gray when there is an increase of moisture in the air. The stone is unidentified.

**That Barrington's proposed improvement** early last year by a grant of \$83,500 to the public works administration has become more of an impediment than a help, it is now being considered as a case of an impasse at the public letting Dec. 20.

**It is no secret now** that contractors declined to bid because stipulated maximum contract price was lower than what it would be at the public letting Dec. 20.

**Many contractors called** plans and specifications, and several were represented at the meeting December 2 when bids were to have been opened. But one bid for sewer construction was received. The plan for disposal of plant material was submitted. No one contractor entered a bid for both.

**The trustee, village president** village attorney, engineers and village director of the public works administration have given time and thought to working out some kind of plan that will keep the PWA going and make the improvement possible. Tentatively, another tag has been planned for Jan. 10. Before bids are called, the engineers and the attorney will have to make some modification in plan or create in maximum cost of sewer improvement.

**A special meeting of the** village engineers and the attorney will be held at the engineers' office. Continued on page 5

**Public Library to Be Kept Open on Friday Night**

**Decision Made at December Meeting of Library Board**

**Barrington public library** is to be open on Friday night four days a week, starting Jan. 1. It was decided at the December meeting of the board.

**"Library house will be from** 7:30 to 10 p. m. every Monday, Wednesday, Friday and Saturday to inform the public of the library's hours, according to Mrs. G. Olson, local librarian. At the same time, the library will be open for the return of books.

**Since its organization in 1914** it has been kept open to the public three days a week, many years. It was closed from 7:30 to 10:30 p. m. on the 10th night. The additional hour will make it more convenient for library patrons to return books.

**More library days** will be made possible by a quicker turnover of books so that fast readers can have additional service and more community service profit additional reading time, it is reported.

**Grade school children** recently organized a Reading club under the direction of Miss Doherty. Their group will have a meeting at the library at 2 p. m. Saturday.
