## "Why I Want a KELVINATOR"

Here are other good letters received in our recent contest:

"By buying meals and groceries in quantities at 'sales' and keeping them fresh and healthful in a Kelvinator until needed I could bridge the gap between mounting prices and lagging incomes. A Kelvinator would preserve 'left-overs' and I know numerous ways it would assist in preparing them into delicious variations for added savings. Kelvinator's attractive design would enhance my kitchen; and I have never seen a refrigerator equal the carefully planned, spacious interior which provides maximum refrigerating services. Friends tell me their Kelvinator operates very economically. My husband says the simplicity, quiet automatic operation, and vibrationless mounting appeal to him."

"Of all the desirable gifts which I have listed for Christmas, there is nothing I want more than a Kelvinator. After visiting the Acme Home Service stores and inspecting the Kelvinator on display there, I was convinced of its superb qualities, excellent construction and practical interior arrangement. It has exclusive features not found in other refrigerators and the modern design makes its outward appearance a thing of beauty. My choice is a Kelvinator, and I know that nothing will give me more pleasure and satisfaction than to see a Kelvinator in my kitchen on Christmas morning."

Although the above letters did not win a prize, they forcefully bring out advantages of Kelvinator Refrigeration

The Acme Home Service Company takes this opportunity to thank those who cooperated in our contest including the more than 100 persons who stopped at our store to inquire about it and the Kelvinator features and also the three judges who donated their time.
