# Tell Them About It

The small town merchant who succeeds is the one who has what people want and lets them known about it. People are busy today. They will not take time to shop where merchants insist on keeping their wares and prices a secret. The busy stores are those who send to their customers' living rooms the home newspaper containing the stores' advertisement of products and prices. Advertising has become the greatest service in time-saver and money-saver to the busy housewife. She knows from the advertising where she can buy what she wants at the price she wants to pay. She does her shopping on a third of her original shopping time.
