**Attending Meeting**  
**of Building Group**

V. H. Lageschulte, of Lageschulte and Hager company, is attending a two-weeks merchandising conference at which plans are being discussed to stimulate the building trade and employment in Barrington. The conference started March 16 and will close March 28.

Mr. Lageschulte, with more than 100 other building material dealers and sales managers from 11 mid-western states, is studying this new development in building industry merchandising so that he may analyze local market conditions with a view to organizing a housing guild in Barrington. Membership in the guild, which is sponsored by John-Manville, would include contractors, architects, real estate men, financing agencies, etc.

It is planned that these guilds will be set up throughout the country so that selling methods which have been so successfully used in the automobile, radio, home appliances and similar industries may be applied in the home building and modernization fields. This would include full utilization of the single mortgage plan of the Federal Housing Administration under which, after a down payment, a person may pay for a house on monthly installment and own it outright as the end of not more than 20 years.

**Woman's Club**

The Lake County Federation of Women's clubs met Friday at the Elgin township high school as guests of the Lake Zurich Community Woman's club. The morning session was given over to the Art department and the program chairman, Mrs. William B. Sperry, presented Mrs. Sumner Mead of Barrington.

Mrs. Mead is Art supervisor of Melrose county school and is devoting much of her time introducing the study of art in the rural schools, and with very little experience, it is being carried on very successfully. Mrs. Mead showed work done by pupils which spoke well for the progress made.

In a delightful manner, Mrs. Mead gave a constructive talk on design in the painting of a picture—gave definite ideas as to what was good design and what was bad, which was very much appreciated.

The morning session adjourned for luncheon, which was served by the Home Economics department of the high school, under the direction of Mrs. Loomis. About 75 persons were present.

to enjoy the luncheon served by the girls.

The afternoon session was opened with saxophone music given by two high school boys, Frank Heybeck and Claude Rudinski, accompanied by Miss Alice Hofstetter, piano.

The afternoon program was under the Literature department and was given over to the review given by Mrs. Frances Grubb, Treasurer of "My County and My People," by Lin Yutang, which is a very fascinating book of the lives of the people in China and was very ably presented by Mrs. John.

One of the interesting features of the days' program was the reports from the various clubs in the county as to what was being done under the Art and Literature departments, given by the various presidents' department chairmen. All the county clubs are sponsoring public library and literature classes with book reviews and days given to program of art, music and drama.
