Miss Mabel Wohlhausen

Bride of Edwin Stumpf

A simple but beautiful wedding ceremony was solemnized at Salem church early Saturday evening when Miss Mabel Wohlhausen of Barrington became the bride of Edwin Stumpf of Oxnardville. Rev. Judson Perkins of Kalona, Ia., an uncle of the bride, officiated using the impressive single ring service. Rev. Perkins was assisted by Rev. W. A. Staudt.

The bride was lovely in white satin and lace. Her veil of tulle was held in place by a band of pearls and she carried a beautiful arm bouquet of call lilies and lilies of the valley.

Miss May Perkins in pale blue crepe and Miss Elizabeth Mader in orchid crepe served as bridesmaids. Miss Perkins is a cousin of the bride.

Clarence Stumpf, a brother of the groom, was best man.

Miss Lois Hennings, a niece of the bride, played an organ prelude as the guests were being seated by the ushers, Hobart Berghorn, Wesley Schaefer, William Graben, Kort, and Harvey Bierman. Raymond Gieske sang "The Sweetest Story Ever Told" and the bride and groom entered at the strains of "Lohengrin's wedding march."

Mr. Gieske sang "Because" just before the service was read. Following the exchange of vows and the bride and groom returned to the entrance of the church where they received congratulations and good wishes.

A reception was given at the home of the bride's parents, Mr. and Mrs. Henry Wohlhausen, with forty relatives and friends present. The bride and groom were in full dress. The bride and groom left for a honeymoon trip of several days. They will make their home in Highland Park.

Miss Wohlhausen has spent her entire life in Barrington and is a graduate of the local high school.

The following relatives from out-of-town were guests at the wedding and reception: Mrs. Judson Perkins and son and daughter of Kalona, Ia., and Mrs. E. Stumpf and son Edward of Oxnardville. Mr. and Mrs. Walter Hennings and daughter Audrey of Wayne, Mr. and Mrs. Clarence Staudt and son Norman of Lincoln Heights, Mr. and Mrs. Edwin Wohlhausen and Mrs. Erwin Wohlhausen and Mr. and Mrs. Volmer Anderson of Chicago.

Auditor's Report Shows Closed Bank Matters Improved

Anticipate Large Payments to Depositors During Next Period

The financial condition of closed banks in the metropolitan area of Chicago, as revealed in a statement by Edward J. Barrett, state auditor, indicates an improved position in liquidation as result of a rise in real estate markets and sounder security ratings.

It has been predicted by William L. O'Connell, receiver for banks in this district, that a total of \$150,000 will be repaid to depositors in six banks in the near future. During the last period \$200,000 was paid out from four closed institutions. The First State Bank of Barrington was one of the four to make a payment.

The others were: Des Plaines State Bank, Forest Park Trust and Savings bank, the Hubbard Woods, Trust and Savings bank.

The state auditor's report shows that in the majority of cases collections were higher during the period which ended March 31 than during the quarter which ended December 31.

With the securities market gradually improving, bank collateral has risen to almost the full value of the notes, according to Mr. O'Connell. It was also pointed out in the report made by State Auditor Barrett that the rising real estate market has released sums of money advanced to protect real estate assets.

Below are individual analyses of two banks in the northwest district.

First State Bank of Barrington—Receipts, \$242,756, with \$25,050 collected last quarter, an improvement. Paid on prior claims, \$125,250; RNC \$38,500 loan paid in full; paid to depositors, \$34,200, or 30 per cent. Excellent liquidation in the bank made possible repayment of the RNC loan and the 5 per cent repayment to depositors last quarter. Fifteen per cent more may be expected eventually. Costs: receivers', \$2,200; legal, \$11,250; clerical, \$23,100; interest, \$2,800; advanced to protect assets, \$100,150, with \$91,500 refunded to the bank.

Des Plaines State Bank—Total receipts, \$791,850, with \$25,150 collected last quarter, an improvement over the previous quarter. Paid on prior claims, \$145,500, or 45 per cent. Small additional return is anticipated in time, possibly 10 per cent. Costs: receivers', \$4,100; legal, \$10,000; clerical, \$41,550; interest on borrowed money, \$750; advanced to protect assets, \$100,150, with \$91,500 refunded to the bank.

Correspondence Schools Cannot Guarantee Jobs With U.S. Civil Service

The United States civil service commission has sent out a post office, warning that misleading information is being given the public by representatives of some of the correspondence schools which sell "civil service" courses.

For a long time, the commission has been receiving complaints from different parts of the country, which indicate that opportunities for obtaining federal employment have been greatly exaggerated.

No school can guarantee government employment and none is given information regarding examinations, or any other information, which is not available to the federal public. The commission stated that it does not recommend any school, and explained that it is not necessary for anyone to take a course with a so-called civil service school in order to compete in a civil service examination.

Little Change in Standing in Hall-Mason Vote Count

Failure of judges of election to initial three ballots in Wauconda about the only apparent change in the standing of State's Attorney Charles E. Mason and Harry A. Hall in the recount in progress this week in county court for the republican nomination for state's attorney of Lake county.

Two of the uninitialed ballots were for Mason and one for Hall, thus reducing Mason's lead from 22 to 21 votes. The third uninitialed ballot was thrown out.

Aside from those changes there were no changes in the canvass of returns for Cuba and Wauconda precincts.

The counting room, returns in Lake county showed Hall 214, Mason 211 and 5 objected to ballots. The Fremont count was Hall 156, Mason 203 and objected to 11.

After the certificate of nomination was issued to Mason by the county clerk, Russ Alford on the face of the returns made by the election board, which gave Mason 10,622 votes and Hall 10,669.

Pupils of Junior High School Plant Trees at Northside Park Thursday

Pupils of the local Junior high school observed their annual custom of planting trees at Northside Park Thursday afternoon. The sixth grade planted a Redbud tree, seventh grade a Tamarack and eighth grade a Hop Hornbeam tree. The custom is observed each year in connection with state-wide Arbor Day programs.

A Ginkgo tree, uncommon to this section of the country, was also planted. The tree is already 25 years old and was planted by the entire Junior high school. The cost of the trees was \$15. Classes earned funds for their purchases by means of candy and auction sales.

Alford Declared County Clerk by Court Decision

Ruling By Judge Persons Is Finish of 16 Months' Legal Battle

Russ Alford is now duly elected Lake county clerk by virtue of a decision made by Judge Perry L. Persons in the circuit court of Lake county Tuesday. Alford's majority over Hendee was 35 votes.

The official count after the question of legality on some votes was settled showed Hendee with 18,457 and Alford 18,492.

In stating his decision, Judge Persons has culminated a court battle that was fought for 16 months. He outlined his ruling on three highly significant questions raised in the contest, with relation to the rights of students at a school as voters, the initialing of ballots and the alleged tampering with ballots.

In Libertyville precinct 3 votes cast by students of St. Mary's of the Lake Seminary were not allowed by Judge Persons. By that ruling, Hendee lost 35 while Alford dropped 128. He also held that 402 ballots that were questioned in Waukegan precincts 20 and 24 were valid and the apparent differences in election judge's signatures were not sufficient to disenfranchise voters of those precincts.

A handwriting expert had been introduced by Hendee to prove the initialing was not done by the judges but Judge Persons chose to regard the testimony of the judges themselves as correct.

Allegations that tampering with ballots had occurred in Waukegan, Elia and Deerfield townships were also ruled against by the judge.

J. B. Barstow, nominee for Lake county state's attorney on the democratic ticket, represented Alford in the case.

WHAT'S GOING ON IN WASHINGTON

(Courtesy The United States News)

The administration's tax bill sweeps to victory through the house by a majority of 267 to 93. It goes to the senate, where committee hearings open, restricted, however, to taxing proposals sponsored by the administration.

Chief feature of the tax is an impost on undistributed earnings of corporations, so graduated as to give companies an incentive to pay out profits and bring them under the personal income tax levy. Large corporations keeping all their earnings would pay 42 1/2 per cent of them to the government.

Those passing out all profits in dividends would pay no tax. In course of adoption, two chief amendments are approved, one to insure the revenue desired (\$82 million dollars in the first year and \$20 million annually thereafter).

The first amendment is a provision requiring payment in 1937 of income taxes on dividends received in 1937 but earned in 1936. This is designed to prevent a year's lag in the collection of revenue.

The second amendment reduces from 22 1/2 per cent to 10 per cent the tax imposed on earnings used to defray indebtedness.

Meanwhile, before senate committee, Secretary of the Treasury Morgenthau insists that the house bill raises insufficient revenue, particularly in the first year, and proposes a processing tax on farm products.

Add to the list of Uncle Sam's projected expenditures for next year as follows: Navy department—\$31 million dollars.

This is the sum approved by the house. Added to an approximately equal sum already voted by congress for army upkeep and expansion, it brings the bill for national defense to more than one billion dollars—largest peace-time total.

Action called for in the appropriation bill includes: 1.—Increase of naval personnel from \$7,000 to \$6,500. 2.—Expenditure of \$182 million dollars for continuing the construction of ships already begun.

3.—Outlay of forty million dollars to add 332 airplanes to the present air strength of the navy. 4.—No navy yard competition with private manufacturers and airplanes and engines.

5.—Construction of two new battlehips of the largest size, costing \$50 million dollars each, to be undertaken, if possible. The "U" depends on action of other naval powers. If they advance the date for building of new ships ahead of schedules in the Arms Limitation Treaty expiring December 31, then the American building program goes into effect.

Secretary of the Navy Swanson asserts that Great Britain has already given notice of intention to advance her building schedule. Comment of anti-war experts: This exhibits the armaments race in full action.

To rule out as unportable certain weapons of cut-throat competition, the senate adopts, without a record vote, a so-called Chain Store bill.

As originally introduced by Senator Joseph T. Robinson (Dem. Ark.), it would forbid discrimination in price to purchasers of commodities of like grade and quality. The federal trade commission would have been empowered to fix the limits beyond which buyers of large quantities might not go in obtaining price advantages over buyers of small quantities.

Discrimination was made to cover such practices as concealed price reductions through advertising allowances, rebates and brokerage payments.

Ship Accident Resulted in Development of Glass
Thousands of years ago a ship's crew of hungry Phoenicians had to eat their way out of a desperate situation. Through it they learned about glass.

It all happened when they tied their boat with a cargo of soda salt to a river bank in Palestine and began building a fire to cook their food.

Finding no convenient large stones, they used huge lumps of the ship's cargo to support their pots near the flame. It was then, notes a writer in the Los Angeles Times, that the heat from the fire melted the glass, fused it with the sand of the river bank and produced a transparent substance, which in its improved form, we know as glass.

It is recorded that in 1200 B. C. the Egyptians, Greeks and Romans had perfected glass making for beads, lenses, perfume bottles, plates, inlay designs in sacrificial cups, and even for coffins!

In the thirteenth century glass manufacturing became an industry in that part of Czechoslovakia known as Bohemia. It was there that a fine sand was found as a necessary ingredient. Rapid progress began immediately as Venetian, Arabic, German, and French glass flowed into artistic beauty. Some of these places appear in the world's leading museums.

Deerfield

Takes Trophy for Third Consecutive Year at Waukegan

Barrington Ties Grant High School for Fourth With 15 Points

Deerfield-Shields high school again proved its superiority over schools in Lake county by taking the lake county track championship for the third consecutive year in the meet run off at Waukegan high school Tuesday afternoon.

The Deerfield outfit scored 57 1/2 points to win, Libertyville ran a close second in scoring 46 1/2, with 20 points while Barrington and Grant tied for fourth with 15 points.

Two records fell before the onslaught of 200 athletes. Sharp of Grant broke the old 50 yard dash record with a time of 59.1 seconds. Ray of Libertyville cleared the high jump at 4 feet 6 inches to beat the old mark by 2 inches.

Members of the Bronco track team from Barrington high school failed to top the heap in the event and were only able to score two second places while picking up the remainder of points in a scattering of thirds and fourths.

Stanger, Deerfield, shot the steeple and took second in the high hurdles and Stout finished second in the broad jump.

Soil Conservation Program Signing Up Farm Acreage

National Plan Based on Soil
Building and Conserving
By Legume Crops

A nation-wide soil conservation program is now being sponsored and is active in all sections of agricultural states. The organization has been divided into districts in each county with a planning and inspection board contacting farmers interested in the plan.

The plan is a composite of the best features brought out in the regional conferences held recently in Chicago, St. Lake City, New York and Memphis.

A goal is set for 1936, which includes an increase of crop land, devoted to soil improving and soil conserving crops from the 1935 level of 100,000,000 to 120,000,000 acres. This is an attempt to halt wasteful exploitation of soil resources.

Plan calls for production of quantities of food and fibre and to supply domestic consumer needs.

Plan calls for soil-depleting base acreage for each farm on which application for payment is made. The base is figured from the acreage the farmer had in soil-depleting crops in 1935. Special soil-depleting base acreage is set forth for cotton, tobacco, peanuts, flaxseed, rice, sugar beets, sugar cane.

Two types of payments: soil-conserving payment averaging \$10 per acre for the country as a whole and a soil-building payment of up to one dollar per acre in soil-conserving and soil-building crops in 1936.

Crops are classified as soil-depleting crops, soil-conserving crops and soil-building crops. Farmers may also qualify by adopting one or more of a series of soil improvement practices, details of which are set forth later in this

article. These are worked out by state and local committees.

A soil-depleting base for any farm, is the total acreage in soil-depleting crops on that farm in 1935, modified to take care of unusual situations. Modifications, by local committees, will include allowances for (a) acreage planted to soil-conserving and soil-building crops in 1935 because of the A.A.A. adjustment program and (b) for unusual variations in plantings in 1935, because of drought flood or unusual conditions. Adjustments will also be made where one farm's soil-depleting or soil-conserving crops are materially out of line with the rest of the farms in a community. It will be seen from the foregoing that the administration is about the same general procedure as under the old setup, the extension service taking over the educational and information work and the A.A.A. the investigation and administration.

A man to be eligible must have in 1936 an acreage of his crop land in soil-conserving crops equal to 15 per cent of the soil-depleting base set up for his farm. He has a chance to earn two types of payments: class 1 payment, which is a soil conservation payment, based on the productivity of the land. The payment will average about \$12 per acre for Illinois and will be paid on the number of acres the applicant has really diverted from soil-depleting crops in 1935.

In addition to the class one payment, he may earn class two payment, for satisfactory soil building practices. These payments will average about one tenth of the class one payment. There is a limit set on each tract of land which might be paid, which is calculated on the number of acres of soil conserving production in 1935 times one dollar. The definite rate of payment for soil building practices applicable in Illinois, may be seen from the following:

Seedlings of alfalfa and vetch—\$12 per acre, when seeded on crop land between Oct. 1, 1935 and Sept. 30, 1936 incl.

Red clover and mammoth clover—\$15.00 per acre, when seeded on crop land between Oct. 1, 1935 and Sept. 30, 1936 incl.

Alsike clover, sweet clover, white clover and Korean lespedeza—\$1 per acre, when seeded on crop land between Oct. 1, 1935 and Sept. 30, 1936 incl.

Legume mixtures—\$1.50 per acre when seeded on crop land between Oct. 1, 1935 and Sept. 30, 1936 incl.

Soybeans and cowpeas plowed under as green manure—\$1.50 per acre, when seeded on crop land on or after Oct. 31, 1935 and Sept. 30, 1936, incl.

Application of at least two tons of limestone (ground) per acre—\$2.50 per acre when applied on crop land or pasture between Jan. 1, 1935 and Sept. 30, 1936, incl.

Planting of forest trees—\$5.00 per acre, when planted on crop land or pasture land between Jan. 1, 1935 and Sept. 30, 1936 incl.

Such plantings must be in accord with the state forestry recommendations.

Forest Preserve Heads Appeal for Protection of Wild Flower Plants

An appeal for protection of wild flowers in the forest preserves was issued this week by Clayton P. Smith, president of the board of forest preserve commissioners.

"The annual carpet of spring wild flowers is beginning to spread itself throughout the 33,000 acres of forest preserves. Permitting wild flowers to grow without molestation causes further propagation of each species as the season

advances. Picking of blossoms ruins the plants and they die. The blossoms which will almost immediately, hence the futility of picking them," President Smith explains.

Signs reading "Do Not Pick Flowers. Others Wish to Enjoy Them," are to be found in wild flower areas to remind those who might thoughtlessly pick blossoms.

Charles G. Sadors, general superintendent of the forest preserve district, warns that anyone found wantonly destroying wild flowers or other vegetation in the forest preserves will be arrested and prosecuted according to the forest preserve district ordinance covering such destruction.

Local Brevities

Mrs. Robert Work will discuss the preservation of wild flowers and birds in informal talks to Barrington school children Monday morning and afternoon.

Miss Agnes Welch returned to school Monday after a week's absence to tonsillitis. Mr. Harold Grebe taught during her illness.

Mrs. Donald Titterton, 138 W. Lake street, is recovering from a severe attack of influenza.

William Dawson is seriously ill at his home, 309 E. Lincoln avenue.

Additional Floor for School Wing Is Given Approval

WPA Officials Authorize Third Floor for New Wing

Erman S. Smith, public school superintendent, was notified at a meeting with officials in Chicago Monday that the WPA has approved construction of the school project authorizing addition of a third story to the present story wing being built at the south end of the building.

Although not included in the original specifications, it had been planned by the school board that the additional floor would be added some time. With the work progressing so rapidly on the present project, the works administration officials agreed that the school board could finish the structural job now.

The estimated cost of the additional story is being figured by Robert G. Work, school board architect. It was reported by Smith that materials on the present project had been bought for more than estimates called for at this excess amount could be used to reduce the amount of materials that would have to be obtained.

Materials and most of the labor for the project are furnished by the WPA while the school board supplies some labor.

Funeral Services Held Saturday for Mrs. F. Pompilio

Funeral services were held for Mrs. Frank Pompilio, 221 Hag Avenue, at the funeral chapel, 203 S. Cook street, Saturday afternoon and interment was made Sunday in Evergreen cemetery.

Rev. Hermann Koenig officiated. The interment was delayed until Sunday awaiting the arrival of the brother of Mrs. Pompilio from Georgia. Mrs. Pompilio died September 14, 1929, at her home in Chicago.

Elizabeth Kellerman was born in Chicago in March, 1879, the daughter of Mr. and Mrs. John Kellerman, and later moved to Melrose, she was married to William Schwanke. She made her home at Reynolds lake, Bellwood, farms, until 30 years ago when they moved to Barrington. Six children were born to them. Mr. Schwanke died 13 years ago. She was married to Mr. Pompilio in 1925, 1926.

Surviving her are her husband, four daughters, Mrs. William Huter, Palestine; Mrs. George Richards, Summit; Mrs. Weale Harris, Toledo, O.; Mrs. Laura Carson, Chicago; and Mrs. Carl Schwanke, Palestine. One son, Walter, Chicago, died in December of last year and was buried in Barrington.

There are three brothers, 150 ward and Joseph Kellerman, Chicago; Fred Gunther, Roswell, Ga.; one sister, Mrs. Carl Doy, Walden, Barrington township, 11 grandchildren and one great-grandchild surviving her also.

Hold Burial Rites for William Dawson Sunday Afternoon

William Dawson, resident of this community for 59 years, passed away at his home Friday afternoon after a long illness. He was buried following services at the family residence, 309 E. Lincoln avenue, Sunday afternoon. Interment took place in Evergreen cemetery.

Charles Brunel officiated. Rev. William Dawson was born in England, Gloucestershire, England, February 26, 1875. He came to America with his brother at the age of nine and settled in Chicago.

While a young man, he married Mary J. Prater and they had three children. The parents of these children, William, now of Austin; Nellie, who lost her life when the iron quills theatre in Chicago burned in 1903; and Grace who died at the age of seven. Mrs. Dawson also lost her life in the iron quills fire.

Mr. Dawson married Mrs. Helen Huter, July 9, 1910. He worked for the Chicago and North Western railroad for 45 years, most of the time in the terminal located here. He was retired on pension in 1931 and had been a resident of Barrington since 1917.

He is survived by his widow, one son, William, and one brother who lives in England.
