Additional Floor for School Wing Is Given Approval
WPA Officials Authorize Third Floor for New Wing
Eman S. Smith, public school superintendent, was notified at a meeting with officials in Chicago Monday that the WPA has approved enlargement of the school project authorizing addition of a third story to the present two-story wing being built at the south end of the building.
Although not included in the original specifications, it had been planned by the school board that the additional floor would be added to some extent. With the work progressing so rapidly on the present project, the works administration officials agreed that the school board could finish the structural job now.
The estimated cost of the additional story is being fixed by Robert G. Work, school board architect. It was reported by Mr. Smith that materials on the present project had been figured higher than estimates called for and that excess amount could be used, reducing the amount that would have to be obtained.
Materials and most of the labor on the project are furnished by the WPA while the school board supplies some labor.

Local Groups to Raise Funds for Band, Orchestra
A movement to create a fund for the orchestra and band of the Barrington public school has been started by interested persons and groups of this community. The fund is to be used to send the orchestra to compete in the national contest next year. If it wins the right to go and also to purchase the instruments for the band and orchestra as well as pay some traveling expenses which have been incurred by the school.
A benefit movie will be given Tuesday evening through the cooperation of W. R. Catlow, manager of the Catlow theatre, the Barrington post of the American Legion and group women interested in the project.
The high school glee clubs and orchestra will furnish part of the money for the band. Traveling expenses will be met by the 40-minute program. It is expected that several sections will be organized by both. This will be an opportunity for local persons to help the orchestra, which was rated as the best in the state at a contest held at Normal several weeks ago. Miss Hazel Catur and W. N. Sears will direct the groups. Miss Alvina Kocher, who won third place in the state piano contest, will play also.
A club is being formed by mothers of children in the orchestra and band. Mrs. E. A. Beerman has undertaken the organization and is being assisted by Mrs. W. N. Sears.
If the orchestra is selected to go to the national contest, next year, a sum of money will be needed. Instruments are needed to fill out the complement of both the orchestra and band. Traveling by bus has proved expensive for the public school. In organizing the club, according to Mrs. Beerman, mothers of the children will be in a position to help in many ways that she reported at the first meeting of the group which will be held this week.

Relief Quota for Illinois Will Be Reduced June 1
Families With Employable Members to Be Dropped in New Set-Up
Relief will be stopped between June 1 and June 1 for every family in Lake county in which there is an employable person, according to W. F. Kirkham, chairman of the Lake county emergency relief committee.
The action is taken in accordance with instructions of the Illinois emergency relief commission, which has ordered its agents throughout the state to require relief clients to search out all employment opportunities that can be found.
Under the plan suggested by the commission and adopted by the Lake county emergency relief committee, the following major procedure will be carried out:
1. A letter will be sent to the client advising him that on a specified date, he will receive no further relief unless he makes formal application for it.
2. Re-applications will be considered every month. If employable clients have returned to local relief officials three certificates from local employers that they are applied to them for work but were not accepted for employment. If there is more than one employable member in a family, each member must submit such certificates before the family's application will be considered.
For the convenience of local employers, each client will be furnished with three certificate forms which he can have filled out and signed by employers to whom he applies for work.
Special members of the Lake county emergency relief committee is seriously concerned over the present relief problem and genuinely desires to see the time come when our employable men and women will again be self-supporting, said Chairman W. F. Kirkham.
"We have always believed that every effort should be made to place our clients on a self-supporting basis. In accordance with commission policies we have required them to register with the employment service. The present procedure is a step further. The client must actually call on employers and ask for work."
If the client receives a part-time job, but earns less than his relief budget, his relief will be adjusted to conform to his earnings. If he secures temporary employment, his relief will be reinstated on relief when his work terminates. The commission will refer requests for his efforts to obtain work. It does not, however, that he do for himself in his power to support himself and his dependents.
"We should have the cooperation of every employer in Lake county to attend a ninth district meeting at Park Ridge Community house, Park Ridge, Thursday, May 21, at 7 p. m. It will be reported. Barrington chapter was hostess to the ninth district last year."
