P. T. A. Sponsors Free Examination of First Graders

The Parent-Teacher association is sponsoring a clinic to give a free medical examination to every child entering first grade in August.
Entry blanks are being distributed to parents this week by a committee working under the leadership of Mrs. James Haffner, secretary of the association.
Members of the committee are: Mrs. J. M. Friedlander, Mrs. A. L. Daterman, Mrs. Albert Wilkins and Mrs. E. J. Harris.
A local physician will examine the children at the clinic assisted by a competent medical nurse. It will be given a thorough test as to height, weight, condition of heart, lungs, tonsils, etc., even including an eye test.
"The purpose of the clinic is to give each parent the assurance that his child is in good condition to enter school, unhandicapped by physical defects that would make school work hard for him," Mrs. Haffner stated. "Sometimes a slight eye-strain for example, if unchecked, will do great damage. If such defects are found, parents will be advised of the fact so that there will be a chance to have the child put into good physical condition before the opening of school."
The committee is calling on parents to bring their school children to the clinic, entering first grade, but any who are not notified during the next week should call for a blank immediately since the committee does not want to miss any one. Parents will be notified of the date of the clinic next week.

Levy Delayed by Small Attendance

Supervisor Calls for Another Session To Be Held July 28

When only four taxpayers were present to express their opinions and vote on a proposed levy of 30 cents on \$100 valuations, V. D. Hawley, supervisor of Barrington town, declined to open a special meeting that had been called for Thursday afternoon, July 16, to enact measures for handling and paying of relief funds as specified by a recently passed state law.
Believing that more taxpayers will realize the importance of the program, he has called another special meeting to open a special meeting on July 28 at the Barrington village hall.
In an interview given The Review by Mr. Hawley stated, "The levy can be passed with only a few taxpayers present but it is advisable that a large number of residents attend. It is in the public interest to be there, whether he favors the increase or not."
"if the additional levy for carrying for poor relief is passed, the increase will be noted on the tax bills next year and for that reason everyone is urged to be present so that all may understand how it was made and for what purpose."
Townships are now caring for poor and indigent persons. The purpose of the meeting is to discuss ways of raising additional funds to care for the load and to regulate methods of distributing relief.
In order to participate in reported money from the occupational retailer's sales tax, it is mandated by statute that each township levy a minimum of 20 cents on each \$100 valuation on real estate.
Residents of the town of Cuba will meet at Schable Brothers and Collins garage, 126 N. Cook street, Monday evening, July 25, at 8 o'clock at an adjourned meeting to discuss any additional changes or articles that may have come up since the special meeting July 11.

Strike on County Roads Halts Jobs

Nearly 500 road laborers on highway projects in Lake County were idle because of strike between labor union officials and county officials.
A Skokie road project in Lake Forest, which had 175 workers, was deserted. Other state jobs were at a standstill and many members of the Hod Carriers, Building and Common Laborer's unions, headed by Tony Rossi of Highland, were congregating in Waukegan.
They threatened the strike of hoisting engineers and chauffeurs called by Michael Carozzo, head of the street laborers' union in Chicago, was to blame for the trouble. Rossi contended in a conference with Charles E. Mason, Lake county clerk, that Carozzo is attempting to invade Lake county and take over his union.
Laborers and carpenters on the Barrington sewer and treatment plant job were not pulled off and other work of the same nature in the county was allowed to proceed.
The walkout of hoisting engineers and truck drivers on the job, according to Rossi, prevents the laborers from doing work.
