

Barrington Bears Lose Close 5 to 4 Contest to Algonquin Sunday

Locals Meet Glen Ellyn Sunday on Opponent's Field

Bears Held Scoreless After Third Inning; Owsns Win in Ninth

The Barrington Bears suffered defeat at the hands of the Algonquin Cubs in a hard-fought game Sunday at the latter's home.

The Bears and Owsns have played in previous contests, the former being victors on two occasions and defeated in three.

George, who was the heaviest hitter of the third, connecting with a single and two doubles.

Nolan and Russi received passes with the third with no scoring.

Ward's second inning Charley Berg pitched for the Bears. Nolan substituted for Berg.

George, who received an injured knee in last Sunday's game, at second base.

Russi, a new Bear recruit, replaced Kenny as catcher.

The Owsns first score was done in the second inning by H. Hopp and Andreas. Andreas again scored in the sixth.

The ninth inning decided the game for the Owsns, two runs being scored by Ritt and Ebel.

Sunday's game was more or less a pitcher's battle. Charley Altenburg pitched for the Bears striking out six men and walking none. Ebel did the hitting for the Owsns with 14 strikeouts and four walks.

The local Bears will play the Glen Ellyn nine on the Glen Ellyn diamond this Sunday at 3 p. m.

This team has a reputation of a dangerous ball team and is expected to give the Bears a stiff game.

Lineups:

Bears—4	AB RH
George	4 1 4
Nolan	2b 0 0
W. Altenburg	ss 4 1 4
E. Altenburg	cf 5 0 0
Lazansky	1b 1 1
Russi	c 3 0 0
Holms	if 4 0 1
Flock	rf 3 0 0
C. Altenburg	p 4 1

Owsns—5

AB RH	
Ritt	5 1 4
Ebel	5 0 1
Bailey	cf 5 0 2

Rumi's Reds, virtual champions of the Jewel softball league, won their final game last week defeating Jamison's Comets 11 to 4.

However, Brinkman's Bees have four games coming up which, if they win, will put them in a tie with the Reds with one loss.

The All-Stars expect to play a game this Wednesday night. The opponents are, however, undecided.

Hurles for Elgin

Les Bartholomey, local pitching ace and former major league pitcher, formed the hurling end of the Elgin battery in the contest with Elgin and the Mount Blues Friday night at Elgin.

The Elgins defeated the Mounts by a score of 3 to 2.

Bartholomey pitched a no-walk game with eight strikeouts.

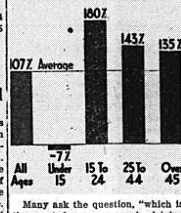

Village of "No."

Boasting of its "no" Station-Valley, England, is described locally as the loneliest village in North Lincolnshire.

The village has no public houses, no policemen, no bus service, no school, no unemployment office, no telephone exchange, and they have their own agricultural interests.

Our Young Drivers

The Most Dangerous Age

Many ask the question, "which is the most dangerous age in driving an automobile?" The chart above gives the answer. It shows that between 1923 and 1934 inclusive the rate of death from automobile accidents in the United States increased 167 per cent. Grouping all the ages under 15 shows that the rate of death has decreased 7 per cent. If the ages are grouped, however, by each five years, the data developed by the Travelers Insurance Company disclose that the only reduction has been in the group of 15 to 24, where the rate of death has decreased 26 per cent. Data should be off to this group and to the police and teachers for the savings in life.

The really serious fact that this chart brings out is the very great percentage increase in the death rate in the group between 15 and 24 years of age. A part of this age corresponds to the high school group. Such a bad record gives emphasis to the question whether high schools everywhere shouldn't be providing instruction in the safe use of the automobile.

Drouth Changes in Soil Program Made

Misunderstandings of many Lake county farmers relative to three drouth modifications just made in the soil conservation program are cleared up in a statement which C. A. Faulkner, president just received from the extension service of the college of agriculture, University of Illinois.

Under the first of the three new rulings, farmers may harvest a crop of small-grain, hay or annual legume hay such as soybeans or field peas, in 1936, and the land will still be classified as soil-conserving and eligible for class 1 payment, provided a good stand of soil-conserving crop is growing on land when performance is checked later in the year.

According to earlier provisions, small-grain hay could only be clipped or pastured, and it was necessary to plant annual legumes under green in order for the land to be classified as soil conserving.

"This new provision will add to the production of feed and roughage available to Lake county farmers this year," C. A. Faulkner said.

"By encouraging late summer and early fall seedings of legumes and grasses, it will offer a definite incentive to farmers to take steps to provide for pasture and hay crop in 1937 and thereby get back to a more normal acreage of soil-conserving crops. Furthermore, a

Suggestions for July Gardening

While growth is retarded generally during hot weather, gardeners will not want for something to do. There are the tall perennials to be staked before they bend and break. Old wood must be thinned out of shrubs which have finished blooming and much time must be spent watering the lawn and garden.

A list of some of the important things to be done in the garden during July might be helpful to many persons who have a garden for the first time this year, as well as by some more experienced gardeners. Here are some of the things that ought to be

Bears Win First Game in Semi-Pro Tourney Tuesday

Flat First Contest at Elgin in Elimination Meet for Title

The Barrington Bears won their first game of the seasonal tourney last night at Elgin for the semi-pro championship of semi-pro baseball by beating Aurora by a 4 to 3 score in the eighth inning.

Cameron, pitching recruit from Hickwood, hurled a starting game for the Bears when he struck out 22 men and pitched four hits and allowed two walks. Two of the walks eventually became the only scores made by Aurora.

The locals made 14 hits off the efforts of McDonald while scoring the four runs. No free passes were issued by McDonald.

Berg scored the first Bear run in the third when he doubled to start the inning and came home as a single by Cameron. Russell did over the second marker when he doubled and advanced on errors.

The next two Bear runs were made in the fifth when Berg connected with a single with one down and Cameron repeated the performance with a single.

Marino and W. Altenburg went into the lead in the sixth inning when McCue was

walked and sent home on singles by Pauley and Oberman.

Cameron set down the next nine men that faced him by the strike-out route. Meyers going out on a fly to George at second in the fifth with two strike-outs also in that inning.

Aurora scored its last run in the seventh when Meyer walked and Winand was safe on an error. McCue drove in the run with a single. Cameron struck out the next six batters to close the game.

Marino, Cameron, Lenini and Russell are players from Hickwood who were recruited for the series.

The games are made by drawing and the next opponents are not known at present. Two losses will remove a team from competition.

Lineup:

Suburban Building Continues Active

An increase in suburban building in the Chicago region from \$2,281,311 in May to \$2,723,945 in June is a gain of 19 per cent in the month, as shown by the fifty communities reporting this month. The June figure compared with the same month a year ago, which was \$1,829,651, shows a gain of 48 per cent.

The gain in the first six months of 1936 over the same period of last year indicates the tremendous strides made in suburban building. The total for the first half of this year being \$12,165,276 and for the same months of last year \$5,286,917, an increase of 118 per cent.

The increase over the second half of last year is also noteworthy the amount for that period having been \$9,146,001. Month by month totals are as follows:

Month	1935	1936
January	\$ 293,698	\$ 797,681
February	306,940	613,259
March	1,047,650	2,732,627
April	1,096,079	3,109,248
May	1,796,659	2,911,891
June	1,926,091	2,723,945

Perhaps the greatest satisfaction to be found in the improvement in building in the Chicago region lies in the fact that the June total is so largely made up of home building, rehabilitation and additions to homes.

Barrington was far in excess of the 1935 figure for June with a total of \$49,300. In 1935 the building permits totaled \$7560.

City	June 1935	June 1936
Barrington	\$ 49,300	\$ 73,660
Crystal Lake	2,100	400
Des Plaines	10,355	1,950
Elgin	42,195	none
Evansville	167,100	101,750
Glenview	750	28,125
Highland Park	260,808	59,867
Lafayette	35,675	20,600
Lake Forest	36,862	41,123
Lombard	1,750	650
Mc Prospect	6,000	4,600
Oak Park	351,705	62,790
Park Ridge	61,328	13,360
St. Charles	300	6,100
Waukegan	63,022	11,847

NEW GARAGE..

PAY FOR IT LIKE RENT AS YOU USE IT

Build a new garage NOW and pay for it in small monthly installments—depending on the total amount and the length of time needed to complete the payments. Materials and labor are reasonable. Our simple finance plan provides low rates, convenient monthly payments.

USE 4-SQUARE LUMBER FOR BEST RESULTS

Precision-cut lumber in exact standard lengths, with smooth, square ends. Property seasoned stock. Guaranteed by Weyerhaeuser. You can buy it with confidence.

done within the next few weeks:

- 1.—Cut back the old, hard cases of rambling roses when their blooming period is over; prune hybrid perennials; feed and mulch the trees for autumn bloom.
- 2.—Pinch off the lateral stems on dahlias to throw the growth into those that will bear flowers at the tops of the plants. Don't forget to feed with a complete plant food every four to six weeks.
- 3.—If you're interested in prolonging the blooming period of your sweet peas, see that they are well watered and heavily mulched to keep the ground cool. No blossoms must be allowed to go to seed.
- 4.—Some time between July 15 and the end of August, lift and divide bearded irises.
- 5.—Make final sowings of annual lupines, shirley poppies and nigella until the middle of the month.
- 6.—Start slips or cuttings of geraniums in early summer for blooming plants in the winter. Start in small pots and shift to larger pots as plants develop.

good stand of legumes and grasses this coming winter and early spring will tend to prevent wind and water erosion on land that otherwise might be void of vegetation because of drouth.

The second revision provides that farmers may qualify for soil-conserving and soil-building payments on land on which they have seeded soil-conserving crops in accordance with good farming practice, even though such crops have been lost because of drouth, insect infestation or other conditions beyond farmers' control.

Emergency forage crops include the sorghums, sudan grass, soybeans, millets and other similar crops.
