

Chevrolet Sales and Production Set New Records

Record-breaking sales of Chevrolet cars and trucks in Barrington and throughout this section have hastened the company's attainment of another important milestone—the production of its 12,999,999th car. It was announced this week by R. W. Hill, Chicago zone manager.

Chevrolet No. 12,999,999 was built at Flint, Mich., on August 5, Mr. Hill said. It came off the assembly line exactly eight months and one day after the 12,000,000th Chevrolet was built, and its production brought to 1,182,099 the number of cars and trucks produced since the manufacturing and assembly plants began on the 1935 model.

"In all but two of the months since the current model's introduction," said Mr. Hill, "the output has exceeded the 100,000-mark. Three of these months set new all-time records. Chevrolet's total of a million plus in 1935 is assured.

Sales in the Chicago zone alone in the month of July were 3919 units, as compared with 2124 in July, 1935.

Lake Zurich
