Water Department Accounts Reported in Good Condition

The village water accounts are in the best financial condition now that they have been for a number of years, according to figures from Village Clerk A. C. Burandt, of the Wednesday.

Outstanding water accounts at present total \$765.23 and included in that amount is \$415.20 which is covered by notes being held by the water department for old water accounts. Promissory notes for that amount were taken from several individuals to clear delinquent accounts. These notes are being reduced by monthly payments in a majority of cases.

The remaining amount is \$350.03. When the village water committee, which consisted of N. O. Plagge, chairman and H. D. A. Grobe, and Trustee John Blanke, resigned from the board, started an active drive on delinquent accounts upon the suggestion of the entire board in November, 1935, the total outstanding was \$1566.48. On August 1, 1936, the total was \$1145.62 and included current bills. Since that time a drastic reduction has been made through the office of A. C. Burandt.

When the present board took office on May 1, 1936 the water accounts total \$1000.00. Two years previous to that it amounted to \$3796.92.

The bill for water consumed will also include a service charge for rental of sewer service. The sewer and water departments are now combined into one and the bill is being charged for the use of the sewer system to retire principal on the system of water mains laid in the new improvement.
