Water Department Accounts Reported in Good Condition

Village Clerk A. C. Burandt Shows Delinquents at Lowest in Years

The village water accounts are in the best financial condition now than they have been for a number of years, according to figures from Village Clerk A. C. Burandt.

Outstanding water accounts at the end of 1935 total \$765.33, including in that amount \$415.20 which is covered by taxes included by the water department for old delinquent accounts. Promissory notes for that amount were taken from several individuals to clear delinquent accounts. These notes are being reduced by monthly payments in a majority of cases. The remaining amount is \$350.13.

When the village second committee, which consisted of N. O. Plagge, chairman and H. D. A. Grobe, and Trustees John Blakely, now resigned from the delinquent accounts upon the suggestion of the entire board in November, 1935, the total outstanding was \$1668.48. On August 1, 1936, the total was \$1245.15 and included current bills. Since that time a drastic reduction has been made through the office of A. C. Burandt.

Parallel Parking Will Be Effective for Main Street

State Official Confers With
Local Authorities on
Problem Monday

T. Mason, state highway engineer from the Elgin office, conferred with village officials Monday concerning the proposition of angle or parallel parking on Main street. Village Trustees N. O. Plagge and H. D. A. Grobe and Village Clerk A. C. Burandt were present as well as several local business men.

Mr. Mason stated at the conference that the state statute on parallel parking on a state highway must be observed but that the village may pass an ordinance provided state rulings are not affected. Nothing has been found that did not conflict with such regulations.

The state refuses to remove parallel parking signs attached to the ornamental light posts upon the ground that any motorists parking diagonal on Main street could have cars extending into the center sections of concrete.

A plan to adopt 35 degree angle parking was suggested, but the village street committee does not favor it.

Mr. Mason told the group that similar difficulties had been encountered in Libertyville where village officials sought to continue with diagonal parking on Milwaukee avenue. Parallel parking was installed and enforced there as a result, Libertyville officials decided to adopt parallel parking all over the village.

The Barrington street committee consists of H. A. Grobe, chairman, N. O. Plagge and Rudolph Koehler. According to reports, they will confer with the rulings of the state and continue to enforce parallel parking on Main street.

Mr. Mason told village officials Monday that a letter from the state department interpreting the parking statute could be sent to the village board.

"Suzy" Headlines Prominent Stars at Catlow Sunday

"Magnificent Obsession" Has
Return Showing Here
Friday Night

The stars of Jack London's "White Fang," now showing at the local theatre, share honors with "Lightning," the dog in this story of the Yukon. Beautiful photography forms the background for this adventure into the trackless wilderness of the far North.

Michael Whalen, Jean Muir, Slim Summerville and Charles Winninger have the important roles. A production so outstanding as "Magnificent Obsession" offers fully as much entertainment upon being re-shown as it did when first screened.

This Irene Dunne-Robert Taylor classic has received many requests for its return, and for the patrons so minded, as well as for those who missed its first run, the management of the Catlow has scheduled a return engagement for Friday night.

"The Girl of the Orkneys" has received splendid recommendations as family entertainment. This true picture of a primitive people in our own land is convincingly acted by the entire cast.

"The Girl of the Orkneys," with comedy, cartoon, sportlight, Pathe news and 9 p. m. gift event will form the program for Saturday night.

"Suzy," the Sunday Monday feature, is truly a four-starred number with Jean Harlow, Franchot Tone, Cary Grant and Lewis Stone forming a grand constellation.

Suzie is an American chorus girl stranded in London when the World War began.

Two combat aviators enter her life; she marries Tone in London; when she is informed he has been killed, she goes to Paris and in time marries Grant; later she discovers Tone is alive.

The satisfactory resolution of this problem makes the theme of "Suzy," with spy intrigue and the distant rumble of a great war for background.

Zane Grey's "Raiders of Spanish Peaks," retitled "The Arizona Raiders," comes to the Catlow next Tuesday as its bargain offering for the week.

A series of remarkable and majestic scenes punctuate the rapid-paced action which culminates in a stampede of wild horses.

Larry "Buster" Cabbie, Raymond Hatton, Marsha Hunt, Johnny Down and Grant Withers have the leading roles. Monkey comedy act, musical frolics and screen song will precede the showing of the feature.

Frank Morgan, Robert Taylor, Binnie Barnes and Louis Wilson

form the quartette of unusually fine players featured in Ursula Parrott's, "There's Always Tomorrow," which plays the Catlow next Wednesday and Thursday.

This is a wife-versus-secretary story with an angle decidedly different than the usual one.

Stop the Drafts by Caulking With Plastoid

(An Indispensable Product to Have Around)

Cold walls, drafts blowing in around doors and windows, all can be eliminated by caulking with Plastoid. Your home will be warmer and the window frames will be protected from rot caused by water getting in through the unsealed cracks.

What It Is . . .

Plastoid is a name which has been synonymous with materials of this type for over a decade. It is applied with a simple trigger-operated tool. These guns are inexpensive and are easy to operate. (We will rent or loan the tool, depending on the size of your job.)

Plastoid Caulking Compound forms a tough rubbery seal which keeps the under portion permanently plastic. It is water proof—Non-staining—Non-soaking—Easy to apply.

G. Ohlendorf Wins
Neatest Farm Award

Sparkling with the smartness of a well-kept suburban "estate," the practical dairy farm of George Ohlendorf near Crete, Ill., was this week announced as the nearest dairy farm in Chicago and by Pure Milk association officials.

Winning for the second straight year, Ohlendorf was victor over a field of 407 of the nearest Pure Milk association farms. Judges who made the final decision were Dr. H. A. Ruebe of the University of Illinois, Professor H. W. Gregory of Purdue university, and Professor L. C. Thomas of the University of Wisconsin. All three

are in their respective colleges of agriculture.

Ohlendorf's farm was selected from a final field of 15 Pure Milk Gold Medal farms, each being the champion of one of the 15 districts of the association. These

Ohlendorf's farm these included: Henry Plati, Brooklyn, Wis., district 1; Francis L. Kittling, Roscoe, Ill., district 2; Lars Kolstad, Lake Geneva, Wis., district 3; Arno P. Schmidt, Kenosha, Wis., district 4; L. W. Pate, Union, Ill., district 5; Ben Justen, Richmond, Ill., district 6; Earl Kane, Mundelein, Ill., district 7; Charles Johnson, Watertown, Ill., district 8; C. H. and R. E. Barnes, Aurora, Ill., district 9; Ray Meyer, Roselle, Ill., district 10; Henry Henke, Tinley Park, Ill., district 11; Joseph Edgar, Cedar Lake, Ind., district 12; Gust Grier, Valparaiso, Ind., district 13; Ernest Aulaker, Francine, Ind., district 17.

Selection of these dairy farms was based upon a rigid scoring program, in which neatness, regardless of the financial output of the dairy farm, was the main consideration. Those dairy farms that scored 90 per cent or better in neatness will receive the "award of merit" plaque from the Pure Milk association; while those scoring 80 per cent to 89 per cent in neatness will receive the "junior award" plaque. The first three winners in each Pure Milk farm district will receive gold, silver, and bronze medals respectively.

The Chicago and the Nearest Dairy farms contest, as sponsored by the Pure Milk association, is in the third year of its inception. It was started experimentally in district 12 (Will county, Ill.) of the

association in 1934 as a means of encouraging the dairy farmers on the Pure Milk farms to have the neatest dairy farms in the United States. As a further step, five of the 15 association districts sponsored the contest last year.

Census Figures of School District No. 4 Show Increase of 99

Census figures compiled at the
close of the spring school term last
June show an increase in the male
and female population in Cook
county in school district No. 4
over the previous year and a de-
crease in Lake county for the same
school district. The population
of both Lake and Cook counties

combined increased 99 over the
year before.

The total population in Cook and
Lake counties in school district
No. 4 for 1936 is 2331 while in
1935 the total was 2230. Cook
county has 955 men and 1001 wo-
men in the school district while
Lake county has 677 men and 685
women for 1936. In 1935 there
were 923 men and 949 women in
Cook county of district 4 and 749
men and 741 women in Lake coun-
ty in Lake county of the district.

Children living in school dis-
trict No. 4 between the ages of 6
and 21 in 1936 number 410 boys
and 358 girls. For 1935 the total
was 393 boys and 377 girls.

Enrollment Gains for High Schools Add to Cost Rate

Slash in Assessed Valuations
Reduces Income Needed
To Meet Load

High school enrollment has in-
creased as much in the past eight
years as in the first 58 years of
Illinois statehood. The load has
become so heavy that many school
boards, faced with dwindling in-
comes, are doubtful of their ability
to provide an education to all
the children, according to a bulle-
tin received by E. S. Smith, super-
intendent of schools.

The increase in high school
enrollment has been 40 per cent
during the eight year period from
1927 to 1935. In Lake county the
enrollment was 3183 in 1927. In
1935 the enrollment was 2259,
making an increase of 65.9 per
cent. In 1936 the enrollment will
probably still be larger.

With this increase and with the
assessed valuation taking a 37 per
cent drop during the last eight
years, cutting in half the assessed
valuation back of each pupil in
high school, the high school educa-
tion of thousands of boys and
girls in Illinois is endangered. The
high school is entirely dependent
for its support on the general prop-
erty tax levied on property found
in the local school districts.

Most board members feel that
the high school is discriminated
against by the state government
since the high school is the only
unit of the public schools from the
first grade through the state uni-
versity not given state aid. It is
argued by many board members
that the high school should receive
the same treatment as all other
parts of our public school system,
the article further relates.

During the past few years high
school education has suffered se-
vere retrenchments. From 1910
to 1934 17 days were cut from
the high school term and expendi-
tures for new equipment were
more than cut in half. Classrooms
have been crowded and the teach-
ing load has been increased. Sev-
eral schools have been unable to
pay their teachers for long periods
of service, the statement points
out.

Kindergarten children will use the
entrance to the school gymnasium
on Hough street, that room having
been moved into the front of the
gymnasium. All high school stu-
dents will use the north entrance
on Lake street and the grammar
school, with the exception of kin-
dergarten, will use the main school
entrance on Hough street. The
entrance on Lincoln avenue is closed
now due to construction of the
addition to the main building on
the south end.

Class Hours

Classes in high school Wednes-
day will start at 8:15 a. m. and
in junior high at 8:30 a. m. All
grammar school classes will begin
at 9:00 a. m. In the afternoon all
classes in both high and grammar
school will start at 1 p. m.

New Gymnasium Suits

A uniform style gymnasium
suit has been adopted for boys and
girls from high to sixth grade, up
through the high school. This was
done, according to Mr. Smith, su-
perintendent of schools, so that the
same color scheme, and same uni-
formity would prevail in the phys-
ical education classes. Boys will
wear white top pieces and white
trunks while the girls will wear
maroon trunks with a white stripe
and white shirts. Children below
sixth grade are expected to have
gym shoes.

Jewel Tournament Draws 35 Golfers; Gerbosi Low Net

Williams Cards Low Gross in Jewel Tournament at Biltmore

The Jewel golf tournament played at Biltmore Saturday consisted of 35 men playing for prizes furnished by the company. W. A. Gerbosi won first place with a low net of 65. The low gross was won

by O. W. Williams with a 170 for 34 holes. E. M. Brinkman won the blind bogey with an 80. T. E. Davis won the putting prize with 27 puts on 18 holes.

The low net in each foursome was won by C. N. Watkins, H. J. Jeffries, A. U. Hunt, John Weber, D. Klagenberg, H. Homuth, C. G. McCray and A. F. Kunkle.

The local plant will play against the Jewel Food store men for the President's trophy September 13 at the Black Heath golf course.

Salt Figures in History. Food habits and cooking customs have influenced the development of nations and have changed the course of history. Barter for salt built up many of the old time trade routes and led to better acquaintance between races.

In early English history, the salt container on the table marked the line between the social classes. The host and his family sat above the salt; those lower in rank sat at the foot of the table.

Not much can be predicted until the boys have had a few workouts. There will be a Soph-Frosh team to give the beginners a chance to start at the bottom and work up to the regular lineup.

Freight trains nowadays act like express specials. New freight schedules are so fast, sometimes wonder if everything has to be delivered day before yesterday.

Many of our passenger trains are running faster schedules, too. Well, one thing is sure. We make faster runs, but the first railroad commandment is still "Safety First." That's one rule they won't change.

Western railroads and allied industries provided jobs for 750,000 workers last year. Some of them live in our town. Good neighbors.

Passenger fares are now the lowest in history with substantial reductions on round trips. And no more surcharge for riding in sleeping cars.

This new Free pick-up and delivery of less than carload freight—I heard some traveling salesmen talking about it on the train yesterday. They said it saves shippers a lot of money and centers all responsibility on the railroad. The railroad picks up the freight at shipper's door and delivers to receiver's door. Of course, local delivery men get the haul from door-to-door and car-to-door at both ends. The railroad handles the whole transaction.

When railroads are busy, I notice towns along the railroad are prosperous. The merchants put more ads in the newspapers.

Wearproofed of railroad achievements, appreciate the public good will and increased patronage, and pledge continued progress.

Knockouts Feature All-Star Boxing Contest at Park

Show Sponsored by St. Anne Church Friday Filled With Action

Fight fans in Barrington were treated to a real evenings entertainment when the second annual outdoor boxing show was held by St. Anne church in Northside park last Friday night.

Two complete knockouts and one technical knockout were features of the card and a hectic wrestling match that saw Rudy Hoffman lose to Jack Riley by a foul, kept the spectators on the edge of their seats.

The opening match brought together Tony Canadeo and Joe Nickit in the 155-lb. division. Canadeo held a slight margin in points until the start of the third when he was dropped for the count of five by Nickit. Canadeo was quick in getting to his feet and came in swinging, only to be dropped again by a hard right for the count of ten.

Ed Walsh and Sam Zellum fought a hard three round battle with the decision going to Zellum by virtue of a strong third round. The feature bout of the evening was the third which mixed Ed O'Connell and Gene Ward in the 118-lb. division.

O'Connell showed himself to be a flashy fighter with a strong left jab and a powerful right. Ward, a colored boy, proved game and the fight from the start was a heated affair. Ward absorbed considerable punishment for the first

two rounds and when it appeared he was due to be dropped in the third, Ward decided he had taken Continued on page 8

AND NOW - ANOTHER REDUCTION IN Long Distance RATES

EFFECTIVE SEPTEMBER FIRST

© The Illinois Bell Telephone Company announces another reduction in rates for long distance calls to most points where the station-to-station rate is over \$1.10. This reduction applies to both station-to-station and person-to-person rates, night and all-day Sunday.

Also on person-to-person calls the station-to-station additional minute rate applies after six minutes of conversation. This is the first time in the history of Long Distance calls during the last 10 years that the station-to-station rate has been reduced more than once between friends more frequent personal reunions with children at school, the family back home. It permits business men to make contacts in other cities speedily, efficiently, at a still lower economy.
