**Local Firm Sells 9 Truck Fleet to Air Line Company**

A fleet of nine 1 1/2 ton Chevrolet trucks was sold by Schaubje Chevrolet Sales last week to the United Air lines in a deal which is one of the largest motor vehicle sales ever transacted in Barrington.

These trucks, sent out for distribution Saturday, went to the company's headquarters at the following places: Chicago, Salt Lake City, Omaha, Cheyenne, Cleveland and Newark. The machines were assembled at the Chevrolet garage on North Cook street Wednesday ready for distribution Saturday. They were identical 1237 machines, and probably will be used to haul materials to and from the landing fields. Fred Schaubje, manager of the local garage reported.

Schaubje Chevrolet Sales, organized in 1935, has built up a very creditable business in sales and service of the leading selling unit of General Motors corporation. The company has moved a large number of passenger cars as well as trucks.

**Numbers for Social Security Act Here**

Employees registered under the social security act will receive their numbers within the next few days as quickly as the mailmen can prepare them for delivery. Those employees who filed through their employers will receive the numbers where they work while others will receive them from the postmen.

Approximately 2,500 numbers have come in the local post office in the last two days. C. C. Snyder, acting postmaster, reported. The number is used as an identification of the employee under social security act provisions as a means of keeping the individual records straight.

When the persons receive their serials, they are to submit them to their employers for filing the numbers but are to retain their cards.

**Will Advertise for Bids for Contract to Widen Pavement**

A. F. Schepko, designing engineer for the Cook county highway department, reported to Earl Hatje, village president, Wednesday that plans for the proposed widening project on Main street will be completed either Saturday of Monday after which the department will advertise for bids.

January 18 has been the date set for the opening of bids and letting of contracts for the job. Mr. Schepko reported to President Hatje. On the basis of the above statements, it can be assumed that plans will progress rapidly.
