

Remodeling Homes Produces Attractive Results Quickly

Always of interest is the remodeling of homes and the construction of new ones to a particular location. Renovating old homes in the village during 1936 has been undertaken in many instances with the results achieved highly gratifying. Several of the homes are now under process of change. Ray M. Jura and Earl Schwemm are remodeling homes on North avenue and Summit street respectively.

The picture above shows the residence of R. W. Muir, on Liberty street. Using the shell of the old house, it was completely remodeled and modernized and now stands as one of the show places in the village. The basement was lowered and many partitions cut and changed to re-arrange the outlay of rooms on the other floors. A recreation room in the basement with a built-in piano is one of the features of the home. Miss Marjorie Muir and Robert LaPointe are pictured above as they inspected the landscaping around the building.

The home of H. R. Bristlinger, 484 Dundee avenue, was enlarged this year with the addition of several rooms at the rear. The new part may be seen in the picture above at the right. Little Charles and Jane Bristlinger, are the children playing at the bird fountain.

E. M. Schwemm has been one of the most active residents in the village undertaking construction work. Last year, two homes were completed for him and he is remodeling a third place on Summit street at present. He is shown above at the residence erected on Liberty street.
