**Add to Residences
By Planting Trees**

Along with the many jobs connected with the annual spring cleaning, tree planting has taken an active part. A. E. Bateman, 600 S. Summit street; K. K. Lillien, 604 S. Summit street, and R. A. Granger, 609 Grove avenue, are among the residents who have added to the beauty of their homes by setting out trees. Three elms taken from Main street were moved out to the Orchard Hill development on Brinker road.
 The Garden club of Barrington will continue its program by setting out seven more elm trees in the downtown park. The first seven were planted late last year by the club along Park avenue and seven more are to be planted.
 The Garden club of Barrington, Village Garden club, Countryside Garden club and the Parent-Teacher association are distributing seeds to school children in a program to create home gardens for them. The children participating in the plan are to have individual plots 3 by 3 feet in size at their homes.
