#### HIGHWAYS for SAFETY AND SERVICE

By C. C. WILEY Associate Professor of High Engineering University of III

Do Paved Roads Pay? No one would deny that it would e a profitabe transaction if a return of \$45 could be obtained fron

an expenditure of \$25.

The Illinois division of highway in its 1932 report of traffic on the state highways estimated that be tween August 1931 and August 1932 a total of 3,500,000,000 vehi-cle-miles of travel had taken place on the 7530 miles of paved high-ways available at that time. Care-ful studies have shown that travel on pavement costs about two cents per mile less than on ordinary earth roads. Thus practically \$70,000,000 were saved to the mo-torists by the paved roads that

\$70,000,000 were saved to the motorists by the paved roads that year.

The report further states that the number of motor vehicles registered in 1931 was 16,412,770. Thus the saving of \$70,000,000 amounted to an average of practically \$43.70 for each vehicle registered. At the same time the average amount of license fee and gas tax was, in round numbers, 130 more than the average sum paid by each vehicle to provide the paved roads.

The reason that the individual motorists does not realize that he paved roads is because he very rarely keeps complete records it any record at all is kept it merety includes the first part of the paved road out under other conditions. With more than 1,000 miles of paved road now available and with traffic on the increase the present saving probably exceeds \$100,000,000 a year. This is more than the total annual expenditure for all roads in the state. With \$100.000.000 a year. This is more than the total annual expenditure for all roads in the state. With the individual gas tax and license fees showing but little average saving to each vehicle is considerably greater than that indicated in the report. Thus the paved roads of illimited the saving of the saving o

The local Bear nine was defeated by the Eigin Parkeides at the distance of the Parkeides at the Lake Co. Recorder's Office dedication of the Parkeides a two diamond at Trout Park by a score of 5.0 4 Monday afternoon.

Eigin chalked up their first run in the second inning holding the Bears scoreless for the first two lines are soreless for the first two man. The Bears brought in two runa. The Bears brought in two runa. The Bears brought in two runas in the fourth and seventh periods. W. Altenburg as the local team, crossing the plate twice.

Charlie Altenburg, who was on the mound for the first time this season, made a fine showing artik, ing out four men and giving malks. Funk was the winning pitcher giving six strikeouts and cannot base on balls.

#### Cautions Against Playing in Streets

The joyful cry of "school's out" heralding the summer vacation period, may bring happiness to the hearts of Hinnois "million and a half school children, but to the motorists and parents it means added responsibility. Secretary of State Edward J. Hughes declared in a safety bulletin issued here today.

be reduced," Secretary Hughes declared.
"When it come to protecting the lives of our little ones," continued Secretary Hughes. "there can be no compromise or evasion of this duty on the part of either parents

duty on the part of either parents or motorists.

"Parents, older brothers and sisters are morally obligated to cooperate with the motorist by forbidding children to play in streets and be urging them to use the utmost caution while crossing roadways. Smaller children should be instructed as to the proper method in crossing streets."

A Polite Hint
