## Semi-Annual Report on Social Security Due From Employers

Before the end of this week, employers covered by the old-age benefits program of the social security act are required to make report on the wages paid to each of their employees for the first six months of this year to the Bureau of Internal Revenue.

H. L. McCarthy, regional director of the board, in making the announcement said that these reports are to be submitted on forms known as SS-2 and SS-2a.

"In order to fill out the reports properly each employer must have the social security account number of each of the workers whom he has employed since January 1," he said. "A record of the wages paid each employee is kept by the board for use when determining the benefits due him or his estate."

"It is therefore urgent that every worker in employments coming under the old-age benefits program who has not yet applied for a social security account number should apply for one as soon as possible to enable employers to send in their reports which are due before Saturday, July 31."

## BACK TO BUY...

with Confidence

Sally and Jim need no introduction here. They bought their first piece of furniture at Daniels & Clark "right after the war." Their home is one of those picture-book places... not gaudily furnished, but artistically arranged with the kind of furniture that grows more charming as the years roll by.

Here they are "back to buy"... and with full assurance that whatever they choose, dependability is theirs. The years have built this confidence... every claim of quality has been substantiated. Those little acts of service... beyond the usual transaction, have won their return again and again.

## Mid-Summer Furniture Clearance

... and too, Sally and Jim have learned that many dollars are saved by making their selections at Mid-Summer Sale reductions. Whether it's a single chair, a whole suite or a new rug, dollars spent now will pay big dividends... in happiness too.

Sally and Jim, like others, know also the convenience of our Budget Plan. If you aren't familiar with it, we'll tell you how others use it to save here.

## Tax Collections in Rural Areas Exceed Urban, Surveys Show

That rural collections of taxes are uniformly better than those in urban areas is shown in a survey made public this week by Bureau of Kindred & Co., specialists in Illinois municipal bonds, of Chicago, which discloses that 12 of the most rural of Illinois' 101 counties (excluding Cook county) collected 98 per cent or more of their current tax levies payable in 1936.

These counties, which include Bond, Coles, Crawford, Edgar, Lee, Monroe, Moultrie, Pope, Putnam, Richland, Washington and Woodford, have an average population density of 51.6 per square mile, as compared with 156.2 for the entire state. Nine of the 12 are southern counties, and the remaining three are in the northern part of the state. The 12 counties with the highest density of population (excluding Cook county), have an average density of 197.2 and average tax collections of 81.58 per cent, according to the survey.

Statewide collections, with Cook county eliminated because of tax complications, averaged 92 per cent from the current levy and 96 per cent from all levies. In 1935, average collections were 92 and 97 per cent, respectively.

"Illinois tax collections are among the best in the United States," said Keith Kindred, a partner in the firm making the survey. "Collection percentages in this state have varied little from year to year, even throughout the depression."

Tax collection percentages from the levies payable in 1936 and the year previous for Lake and nearby counties are as follows:

Taxes Collected			
	During 1936	Prev. Yr.	"A" "B" "A" "B"
DuPage	78	91	75 94
Kane	88	93	88 95
Lake	82	90	81 97
McHenry	93	96	90 96
**"A"—From current levy.			
**"B"—From all levies.

## Buildings Burned on E. Sunderlage Farm

A large barn and outbuildings on the E. Sunderlage farm in Palatine township were completely destroyed by fire of an unknown origin Thursday night. Two horses were also burned, as was a large quantity of hay, oats and farm equipment.

While members of the Ed and Erwin Sunderlage family were seated in the house, Betty Sunderlage, four years old, sounded the alarm, having seen flames coming from the horse barn doors.

The house and several outbuildings were saved by the Palatine and Roselle fire departments. The large barn, a chicken coop, tool shed and milk house were completely destroyed. One horse was burned in the blaze and another so severely that it was killed. Two other work horses were liberated from the barn.

Crop losses included 15 tons of hay and oats stored in the barn, and a wagon, drill, and other pieces of machinery were lost.

The Sunderlage dairy herd was in pasture at the time and was not threatened. Erwin Sunderlage operates the farm.

## Wisconsin Man Heads Lions International

Frank V. Birch of Milwaukee, Wis. was elected to the presidency of the International Association of Lions clubs, at the closing session of the four-day international convention held in Chicago, Friday. For the past year he served as first vice president. The association which he heads is represented in eight countries by nearly 3000 clubs with a 100,000 membership of business and professional men.

The retiring president, Edwin R. Kingsley of Parkburg, W. V., as immediate past president of the association, will head the convention commission which will handle the 1938 convention. Birch called a meeting of the new international board immediately following the close of the Chicago convention.

The new president is a partner and executive vice president of the national advertising agency of Klau-Van Pletersom-Dunlap associates, Inc., of Milwaukee. He has been active in Lions club work over a long period. In the Milwaukee club he held the offices of vice president, director and president, in addition to heading many of its major committees. In 1939-40 he was elected to the governorship of the district of Wisconsin, the following year was a member of the executive council of the board of governors for the International association, and in July, 1931, at the convention held in Toronto, Ontario, he was elected a director of the International association.

## Grant Price Raise for Farmers' Milk

Dairy farmers in the Chicago milkshed were granted a raise in price this week by the Associated Milk Dealers, representing 115 dealers in Chicago. The raise in price paid for milk by dealers came after a demand from Pure Milk association leaders.

Under this agreement, the premium paid to PMA farmers will be increased from 50 cents to 75 cents per hundred pounds (46 1/4 quarts) above the base price paid by cheese makers and other processors. This month the base price is \$1.43 a hundred, or 4.15 cents a quart. Under the 25 cent premium, the farmer would get \$2.18 a hundred, or 4.68 cents a quart. This increase is effective August 1.

The contemplated raise in the face of the usual seasonal trough, with good pastures following plenty of spring and early summer rains, was attributed to several factors by both farmers and dealers.

They agreed that the early pasturing season was excellent, but that it is now becoming short. Moreover, they said, the farmers have had to pay higher feed prices because of last year's drought, which impaired reserve corn supplies. Also the alfalfa and clover crops have been short and farmers are compelled to pay higher wages because of WPA competition.

Another consideration, it was learned, was the increasing demand of ice cream manufacturers for grade A milk during the hot spells. Under the ordinance passed two years ago ice cream manufacturers, starting this year, must use only grade A milk at all times. This has increased the demand, at times, up to 20 per cent of the total city supply.

## Secures Poison for Grasshopper Control

H. C. Glickerson, Lake county farm adviser, has secured an allotment of government white arsenic for use in grasshopper control. This poison can be secured at the farm bureau office at a nominal charge. This charge is to cover the handling only.

The directions for mixing the poison with bran and applying it will be given at the time of securing the white arsenic.

The same kind of bait is used for army worms as well as grasshoppers except that it is applied at different times of day.

## C. & N. W. Railroad Refunds Payroll Tax

Announcement is made by the Chicago and North Western railway that it has completed the refunding of payroll taxes to its employees, which began soon after the new federal pension act went into effect. About \$1,750,000 was refunded.

A total of 80,000 checks, covering refunds for both 1936 and 1937 have been sent out. The checks varied in amounts from \$117.37 to one or two cents. It is believed that "North Western" is the first of the large railways to complete its payroll tax refunding.

## FREE CIRCULATION UNSOUND

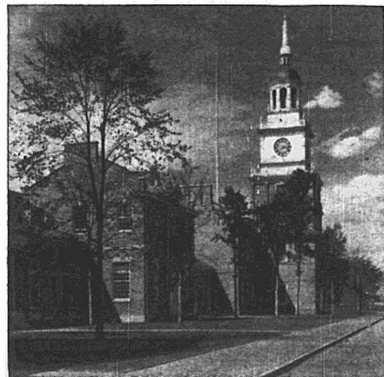

During the low ebb years of 1933 and 1934, newspapers  
of several neighboring communities went off paid circulation  
and started house to house free distribution.Among these was the Des Plaines Suburban Times, an  
outstanding newspaper which took that step "to meet com-  
petition." After a trial of a few years, the Times is con-  
vinced that there is only one way to conduct a good news-  
paper and that is on a paid subscription list basis.The following from the Times of July 15 is a sound  
answer to persons who wonder why the majority of good  
newspapers continue to charge a fair price for their sub-  
scriptions while others are distributing from door to door  
for nothing:

"In order to make our paper of greater benefit to the  
people of this community and also to meet with accepted  
standards of good newspaper advertising mediums we are  
discontinuing free circulation. The free circulation news-  
paper is frowned upon by most newspaper authorities, due to  
its uncertain advertising value. They maintain that a  
newspaper not definitely subscribed for by the reader, but  
distributed more or less as a hand bill, cannot produce best  
results for its advertisers. Furthermore, as a result of the  
rising cost of paper stock used in making a newspaper and  
a general increase in production costs it is necessary to elim-  
inate waste that creeps into a free circulation paper. We  
are, therefore, resuming our former policy of paid in advance  
subscriptions. The Suburban Times was a paid subscription  
paper until approximately two years ago when certain econ-  
omic trends led to free circulation which has now been  
proven unsound in business practice."

## FREE COMMERCE

Section eight of article one of the constitution says:  
"The congress shall have power . . . to regulate commerce  
with foreign nations, and among the several states, and with  
the Indian tribes."The reason for that was clear: It was necessary to give  
the federal government some control over the shipment of  
goods from one state to another so there would be no state  
tariffs and no artificial trade barriers. No state then or now  
produced enough for its own needs. The idea was to stimu-  
late rather than restrict interstate commerce.As the years marched along, the interpretation of that  
clause in the constitution was gradually widened—always in  
the direction of removing restrictions from interstate com-  
merce. The Wagner act was based upon the theory that  
labor disputes may halt or slow down commerce, and there-  
fore disputes should be avoided.For nearly 150 years, congress has reserved that power  
to itself. No state, no city, no single group was allowed to  
assume the power vested in congress. But now we find a new  
and startling situation arising.On every hand, strikes—which the Wagner act was sup-  
posed to stop—are halting interstate commerce. Pickets keep  
trains from running and hauling goods; they stop trucks on  
the highways and overturn them; they even intercept and  
seize mail. Goods cannot be shipped unless they are pro-  
duced, yet time and again pickets refuse to let men who want  
to work get to their jobs. They try to stop production of  
automobiles and coal because they are engaged in a fight with  
steel mills. Their aim is to use their every ability to stop  
commerce.The question is a pertinent one: Shall congress, vested  
by the constitution with the sole power to regulate commerce  
among the states, complacently yield that power to an or-  
ganized minority? For out of the 128,000,000 people in the  
United States, fewer than 5,000,000 belong to all the labor  
unions. The other 123,000,000 suffer most when commerce  
is stopped.Engineers Design  
Novel Equipment  
to Plan KitchensMuch has been written and said  
concerning the arrangement and  
equipment of modern kitchens.  
Charts have been developed show-  
ing how many steps can be saved  
if the sink and refrigerator are lo-  
cated close to each other, and how  
many additional steps can be saved  
if the stove is brought into this  
compact group. Other charts show  
how much storage space is needed  
by various sized families. All of  
these prepared charts are fine but  
they fail to take into consideration  
the all important factor of per-  
sonal desires. In other words, the  
only kitchen which is correct for  
you is the one you design your-  
self.There were some of the thoughts  
recently expressed by Q. R. Paul-  
son, manager of Shurtliff Co., on  
kitchen planning. We all have  
our own ideas on what constitutes  
a modern kitchen. If your ideas  
and those of your neighbor differ,  
it is no sign that one is wrong  
and the other is right. In all prob-  
ability you are both correct.The Curtis Companies Inc., Clon-  
ton, Ia., for whom the Shurtliff  
Co. are local distributors, pro-  
duce a complete line of sectional  
kitchen cabinet units.In providing equipment for the  
housewife to use in the planning  
of her own kitchen, Curtis en-  
gineers have reproduced in miniature  
all of the Curtis Sectional Kitchen  
Cabinet Units. An exact reproduc-  
tion, to a one inch scale, has been  
secured. Not only have the cabi-  
nets been reproduced, but the  
complete set of equipment contains  
stoves, sinks, refrigerators and  
door and window illustrations.The logical way to obtain just  
the kitchen you want is to plan it  
yourself. Thousands of American  
housewives now enjoying Curtis  
equipped kitchens, believe it is.  
Leading architects and builders  
agree too. Mr. Paulson states that  
many of the most modern kitchens  
in Barrington have been planned  
this way. They have a set of these  
Kitchen Demonstration Blocks and  
will make them available, with no  
obligation, to interested house-  
wives. For those who are consid-  
ering the planning of a kitchen,  
this novel equipment will prove  
most fascinating equipment, Mr.  
Paulson stated.

## "Mountain Music" Coming to Catlow Sunday, Monday

"The Prince and the Pauper"  
Showing; "Kid Galahad"  
Billed Wednesday

"The Prince and the Pauper," playing at the Catlow tonight, Thursday, and closing Friday, is based on Mark Twain's immortal story of the same name. The March twins, Billy and Bobby, are cast in the title roles.

Theatre goers will not only see a new Robert Montgomery in "Night Must Fall," but they will observe unique lighting technique employed to photograph the star in his villainous characterization. The picture comes to the Catlow Saturday.

Highlights and deep shadows give the picture an eerie effect. Minor key lighting has been used in many screen plays, but it is declared that no other lighting has gone to the extreme that is evident in "Night Must Fall," co-starring Montgomery and Rosalind Russell.

Just about a year ago two people were placed on the Paramount payroll for the first time. They were Bob Burns and Martha Raye.

Today, the hilarious fun-makers have reached stardom in a picture of their own. It's "Mountain Music," the hillbilly comedy which opens Sunday.

The picture itself is a satire in which mountain feuds are kidded. In the picture Bob is a girl-shy chap who can't resist a desire to work. His father involves him in a position whereby Bob is scheduled to marry the daughter of another clan, thus settling a feud. The idea was great—but Bob leaves her standing at the figurative altar.

The brave days of old, when Uncle Sam was throwing open free homesteads lands to pioneers willing to race for them and develop them, live again in "The Cherokee Strip," starring Dick Foran, which comes to the Catlow Tuesday.

Double featured with "The Cherokee Strip," on Tuesday, is "The Great Hospital Mystery," with Jane Darwell, Sig Ruman, Sally Blane, Thomas Beck and Joan Davis.

Bette Davis was winner of the 1935 academy gold status for the best feminine film performance of the year. Edward G. Robinson's every picture has been great since "Little Caesar," back in 1930. Humphrey Bogart was the main figure in the recent "Black Legion" thriller, and the menacing bandit in "Petrified Forest."

Each an individual star—but now all working together in "Kid Galahad," an exciting story of the prize ring and those who surround it! The picture has been booked into the Catlow theatre and is scheduled to show Wednesday, Thursday and Friday.

"Kid Galahad" written by Francis Wallace, was a great literary success when it first appeared as a serial in a national weekly magazine. Then it became a best-seller as a novel.

## McMillen Meets Chief O. Sanooke at Round Lake Arena Friday

One of the greatest wrestling cards ever presented in Peg's Round Lake Arena will be staged Friday night and will feature a match to the finish between "Big" Jim McMillen, leading contender for the world's mat championship, in his first local appearance this summer and Chief Oley Sanooke, giant 350 pound Indian strongman. Lake county mat fans have been promised an outstanding card by local promoters out of sympathy to those patrons who missed a part of last Friday's program when they left early because of rain.

The Sanooke-McMillen encounter is a rematch of a meeting several weeks ago between the pair in White City arena, Chicago. In this match Sanooke pinned McMillen for the count while the referee lay helpless outside of the ring, and by the time he had returned to officiate McMillen had broken away and put down the Indian star. Sanooke agreed to drop a formal protest up with the state athletic commission if McMillen would meet him again to settle the score and the match was closed.

## Two Men Drown in Lakes at Wauconda

body. The high waves Sunday were believed to have released the body from the lake, sending it to the surface where it was found floating.

Frantz was drowned at Slocum lake Sunday when he fell out of his rented motorboat and struck his head against the outboard motor attached to it. He was the season's sixteenth drowning in Lake county. During the 1936 season, only 15 were drowned.

A short while after the accident his body was found floating on the water about 100 yards from shore. At the inquest conducted by Coroner John L. Taylor, it was determined death occurred by drowning.

Frantz and his wife had been frequent visitors at the Wickee beach. They had come out Sunday from their Chicago home for a day's outing. While his wife remained on shore, he had rented a boat with an outboard motor attached.

Bodies of both drowning victims were removed to Chicago for burial services.
