Gordon Cameron returned Sunday from a fishing trip at Monaca, Wis.

Mrs. Robert Pobes and daughter have returned to their home in St. Paul after a short visit with her mother, Mrs. Robert Buckley.

Mr. and Mrs. William L. Hixon, Mr. and Mrs. M. R. McAdoo and Mr. and Mrs. William B. Renshaw have gone to Plum Lake for a vacation of ten days.

Mr. and Mrs. Lawrence Halberg are entertaining the Soup club on Friday night.

Building in the Chicago suburban region slumped in July and no manner of comparison will soften the fact. It went down in a month when it should have gone up, if the July of 1935 and 1936 may be taken as indicators. It dropped in comparison with June of this year and with July of last year, though in every other month of this year suburban building has been greatly in excess of the corresponding month of last year.

The figures to be compared are \$2,486,749 for July, 1937; \$3,380,962 for July, 1936; and \$3,355,462 for June, 1937. Thus a falling off of nearly \$900,000 in the amount of permits issued is indicated, whether in comparison with last year or last month.

The only mitigating fact may be found in a couple of unusual jobs for which permits were issued in July, 1937, giving that month an exceptional total. These were the Wieboldt store in River Forest, for which the permit was \$610,000, and the church of St. Athanasius in Evanston, which cost \$150,000. But even if these are deducted from the total of July a year ago, the indication is still that there has been a building lull in July this year.

The classes of building in which the losses occurred are apparent. Last year in the month of July 175 new homes were started for which permits were issued to the amount of \$1,572,743. This year more homes were started but much cheaper ones on an average, that

is 1931 homes to cost \$1,459,844. The average cost of homes has been receding for some time, and this survey previously has pointed out. Repairs, alterations and additions to homes in July amounted to \$286,598, which compares with July 1936 permits for these purposes amounting to \$399,505. In July a year ago a considerable number of industrial permits were taken out and these amounted to \$399,775, while this July the industrial construction reported was only \$25,623.

The bright side of the picture is that home building is still proceeding on a grand scale. Though the amount contracted for in dollars and cents fell off a little in July as compared with last year, one may find satisfaction in the fact that 1531 families have built suburban homes this year which in the corresponding months of last year only 647 families built.

The cost of the homes for the seven months of this year was \$11,808,467 and last year \$5,123,538.

Details of the survey are as follows:

Barrington	July 1937	July 1936
Barrington	350	7,000
Cicero	175,210	30,925
Crest Lake	10,650	16,850
Des Plaines	10,150	8,426
Elgin	116,815	60,378
Glencoe	71,250	222,700
Highland Park	86,940	262,257
LaGrange	22,300	109,250
Lake Forest	63,770	16,477
Libertyville	940	10,380
Melrose Park	6,530	15,865
Mt. Prospect	6,870	28,275
Niles Center	39,300	36,825
Oak Park	12,315	87,950
Partridge	39,655	48,750
St. Charles	30,800	None
Waukegan	144,710	39,610

**Canning Assured by Heavy Tomato Crops**

This year's tomato yield which gives promise of being the largest crop in a decade will provide Barrington homemakers with the opportunity to fill those cans in the basement that have been empty since berry and cherry prices soared to heights prohibitive to the average home canner.

The early tomatoes in Illinois, Michigan, Indiana and Ohio have been harvested and mid-season and late varieties are appearing in markets. These, home economists declare are more desirable and usually much cheaper than earlier sorts for canning purposes.

This year it is expected that millions of bushels will be utilized by housewives for tomato juice, chili sauce, catsup, and as plain canned tomatoes.

At the city-owned Boston Harbor cash-to-grower market in southwestern Michigan sales to truckers and shippers are expected to total more than three-fourths of a million packages within the next few weeks.

Varieties offered at that point as well as in the Barrington community which are highly desirable for the housewife are John Baer, Chalk's Jewel and Stone. A much prized tomato that has gained popularity for its attractive round, even shape and its ability to hold up well under canning is the Marglobe, a product

of the U. S. department of agriculture.

This year's tomato crop for the nation as a whole is expected to be greater than all the crops during the seven-year period from 1928 to 1932 and in the middle west in 19 years.

He died about eight o'clock of a fractured skull and other injuries received when the enraged animal kicked him up with his horns and buried him against the ceiling rafters, then allowing him to fall to the concrete floor below.

Johnson and his two sons, Keith and Lyle, had driven the cows into the barn preparatory to milking about 5:30 p. m., and the bull was being driven into his pen when he turned on Johnson.

His son Keith drove the bull into his pen with a farm tool. A physician was called but the injured man died two hours later without regaining consciousness.

Funeral services were held Wednesday afternoon.

Come in! see proof of greater ice-ability!

# FRIGIDAIRE

WITH THE METER-MISER

**See Proof of how it makes ice at low cost**

Don't miss our amazing Frigidaire Ice-Ability Demonstration! See the Proof that Frigidaire offers you complete Ice Service!

● Come in today and see the many exhibits of Frigidaire's Greater Ice-Ability. See how Frigidaire with the Meter-Miser makes ice cheaper at low cost! See its revolutionary new All-Metal Quickcube Tray! See the tremendous quantity of ice Frigidaire can freeze in a single day! And many other fascinating exhibits... Meter-Miser freezes ice fast and cheap, protects food as it slashes current cost because it's the simplest refrigerating mechanism ever built! Has only 3 moving parts, including the motor. Runs quiet, trouble-free, year after year! Protected for 5 years against service expense. And it's built and backed by General Motors.

**FRIGIDAIRE with the Meter-Miser is complete in ALL 5 BASIC SERVICES For Home Refrigeration!**

1. GREAT ICE-ABILITY
2. GREAT STORAGE-ABILITY
3. GREAT PROTECT-ABILITY
4. GREAT DEPEND-ABILITY
5. GREAT SAVE-ABILITY

**Only Frigidaire has it!**

Releases Ice-Cubes Instantly

The Amazing New **ALL-METAL QUICKCUBE TRAY** WITH THE INSTANT CUBE-RELEASE

Ice freezes faster in metal trays than in trays made of any other material. And every tray, in every Frigidaire, is an ALL-METAL QUICKCUBE TRAY. Instantly releases ice-cubes. Yields 20% more ice by ending waste, and nuisance, of melting cubes loose.

**Frigidaire with the Meter-Miser Gives You These Important Advantages**

Price As Low As **\$114.50\***

**EASY TERMS**

Motor-Miser  
Simplest Refrigerating Mechanism Ever Built  
New All-Metal Quickcube Tray with Instant Cube-Release  
Food-Safety Indicator on Outside of Door
