## Democracy Faces a Crisis, Speaker at Dinner Here Warns

Schnackenberg Addresses 175 at Community Dinner Thursday Evening

Democracy is on trial and is threatened with extinction from this world, Representative Elmer J. Schnackenberg declared in an address delivered to 175 persons attending the Legion Community dinner last Thursday evening.

For the last two generations prior to the World War, America was the great example of a successful democracy. During that time, one after another government adopted our form of government or a form modeled after ours. Since the war, however, there have not been many conversions to democracy and most of the countries which have attempted our kind of government have given it up and gone under the rule of dictators.

Today only three great democracies remain on earth, France, Great Britain and America. Mr. Schnackenberg said. France is in trouble and at any time a dictator may succeed representative government, he added. Great Britain's position is stronger, but that is a limited monarchy, leaving the United States as the only large stable democracy, republic.

The speaker listed three threats to our representative system. The first is danger from without the country where many nations envy us. A more sinister threat is internal revolution. A third one listed is gradual loss of local government with ever increasing central control and loss of individualism. The local affairs which are more controlled by the state. State functions are steadily being taken over by the federal government which is farther away from the individual.

Fading out of individual initiative eventually means loss of individual liberty.

"The right to life, liberty and the pursuit of happiness are guaranteed us in the Constitution. That document does not guarantee us with right to life, liberty and happiness, but rather the 'pursuit' of happiness," Representative Schnackenberg said.

"This pursuit of happiness for a man means his right to work and support his family—not 'happiness' brought by the postman twice a month in the form of a check from Uncle Sam. The WPA was conceived to give men jobs, but it has not been very successful. There are too many men and too few jobs in WPA. A man's self confidence can not be restored with a phony job."

The following persons were introduced to the guests: Senator Ray Paddock, Supervisor Harold D. Kelsey, Lions District Governor John Rites, Trustee John Carroll, Ninth district Legion Commander George Rohde, Senator John P. H. Dwyer, Senator John P. H. Dwyer, Commander Joseph O'Brien, and Area Commander Peckha. C. E. Paxton was toastmaster.

Little Dolores Fox entertained with two dancing numbers and Chick Schuetz's Flashes provided instrumental and vocal music.

**Suburban Council Sponsors Concert for Camping Fund**

Boy Scouts to Benefit From Project to Be Held at Des Plaines

Adequate seating and parking facilities have been assured for a large crowd of Northwest suburbanites who are anticipated at the concert which the Illinois Symphony orchestra will play at the Des Plaines Methodist camp grounds Thursday evening, June 23, at 8:15 o'clock.

The Northwest Suburban council of boy scouts is sparing no efforts to make the affair an outstanding artistic and financial success, assuring a number of scouts a summer vacation at Camp Oh-Da-Ko-Ta in Wisconsin.

John L. Bell of Barrington, council president, reports considerable enthusiasm on the part of his committee of nine men who have received splendid cooperation from civic and church groups. Commenting on the work of the committee Mr. Bell said:

"The sale of tickets is progressing splendidly and we are delighted that music lovers in this territory are to have the opportunity of hearing the 60-piece Illinois Symphony orchestra under our auspices. The numbers which conductor Isler Solomon is arranging to play are sure to appeal to adults and young alike."

The purpose of the concert is that it gives the boys an opportunity to earn a camping fund. Each ticket will be entitled to use the money from sale of tickets toward a period at camp Oh-Da-Ko-Ta or may use the money for a camping trip next year. Mr. Bell pointed out. If a scout is already going to camp, he will have the privilege of naming some boy who will benefit from his ticket sales or may turn the money over to the troop committee or scoutmaster, with members of the troop, may decide which scout is to be aided by the fund.

## Local School Heads Attend Discussion on New Legislation

Meeting Called by N. Puffer Wednesday; Opposed to State Board

E. S. Smith, local superintendent of schools, P. R. Drover, Arnett C. Lines, A. D. Church, Arvid Anderson, Clarence Plagge and Carl Dorwald, members of the board of education and trustees and directors of school districts, were present at a dinner held last Wednesday evening at the Sherman hotel in Chicago called by county superintendent of schools, Noble J. Puffer, where over 200 school board and P.T.A. members voiced their opposition to senate bill No. 6, creating a state board of education. The vote taken at the close of the meeting was practically unanimous.

The motion to oppose this bill was presented by Martin Perentshak, president of school district No. 104 of Argo-Summit.

Senate bill No. 6 was opposed primarily because of the fact that it would establish a dual control of school administration in Illinois. Under this bill the state superintendent of public instruction would become secretary of the state board making him merely a member of the board. It would give to the board the right to minimum standards and enforce them by withholding state aid funds from any district failing to comply within a year.

As a substitute for senate bill No. 6 the assembly went on record to support a state school board, which would be a fact-finding advisory board. This measure is known as house bill No. 41 and would make the superintendent of public instruction, executive secretary of the board. It was the feeling of the group that the board of education should coordinate its efforts with those of state superintendent of public instruction in order that schools might program. This bill is sponsored jointly by the Illinois State School Board association and the Illinois Education association.

Officers of the association who are directing the plans for the event are as follows: Mr. Reese, president; Harry Wiedenbeck, vice president; Myron Kuhlman, treasurer; Delbert Nagatz, assistant treasurer; Miss Janice Grabenhorst, secretary; Miss Ruth Bjornberg, assistant secretary.

## Individual Habits and Native Life Recounted by Lt. K. Smith

The third installment of the personal recollections of Lieutenant Kirk Smith, U.S.N., is published this week. Lt. Smith is now traveling in the Pacific ocean in connection with the medical service of the navy. At the outbreak of the Sino-Japanese war he was stationed at Shanghai and other harbor points of China. Following is the third installment of the bulletin received by his family recently:

**Catalogs—April 29**

"The remarkable thing about this place is that in spite of its primitive appearance it has a fine set of school buildings; there is a large machine shop, etc. School is not in session now so we didn't have a chance to see what type of equipment or instruction the pupils were getting, but again judging from the ability of the natives to speak English I assume that the instruction must be quite good. The tuition is practically nothing and the books are furnished in the lower grades. The only difficulty is that there is not enough room to accommodate all youngsters of school age, so that those

who are registered first receive the education while the others must wait their turn.

"The main industry of this island until a couple of years ago was cattle raising, using the East Indian type of cattle and raising them solely for beef, as the proper feeding for milch cows is too expensive a proposition. However, about two years ago a herd of rinderpest cut down the plague from 20,000 to about 2,000.

"An amazing thing is the way the Chinese merchants have found their way into even the smallest and most isolated settlements, and they naturally have the largest and best equipped stores or shops. Another interesting sight was to see the sign 'Babu Beauty Shoppe' hanging in front of a native shack; another evidence of occidental influence were the remnants of a local fiesta which had occurred two days before. The native merchants had conducted a beauty contest and the coronation platform of 'Queen Lily I' was still in evidence.

(To be continued next week)

### Tour Arboretum

Seventeen members of the Garden Club of Barrington enjoyed a trip to the Morton Arboretum at Lisle, Ill., Monday and lunched afterwards at the Old Spinning Wheel near Hinsdale. The trip through the 734 acres of the arboretum was both delightful and instructive. The exhibit of hedges and especially of old fashioned roses proved interesting, for the roses have been given by friends and neighbors in that locality whose specimens had been brought into the middle west in covered wagon days. In the administration building some very rare and priceless collections of flower prints had been laid out on the tables in the library at the request of Mrs. Cudaby, daughter of Mr. Morton, and as an especial favor to the Barrington club. The prints are by French artists of the Napoleonic period, and the rose prints by Rodoute were unusually beautiful.

Does your family like a variety of "shortcakes" now that the strawberry season is here? Here's a favorite "gold cake" base we find delicious, topped with sugared berries and whipped cream. It is an excellent base for ice box cakes also. Custard and sliced bananas provide a pleasing change when one wearies of berries.

**GOLD CAKE**  
1 cup butter.

2 cups sugar.  
6 eggs yolks beaten until thick and lemon-colored.  
1 1/4 cups milk.  
4 cups cake flour.  
4 teaspoons baking powder.  
Vanilla or orange extract.  
Cream butter and sugar, add eggs, sifted dry ingredients and milk, beating well. Bake in greased pans in moderate oven (375°) 25 to 30 minutes.

If you are wondering what to do with the six left-over whites, we suggest baking the following silver cake which is perfect frosted either with chocolate fudge or divinity frosting. Here's the recipe:

**SILVER CAKE**  
1 cup butter.  
2 cups sugar.  
1 1/4 cups milk.  
4 cups sifted cake flour.  
4 teaspoons baking powder.  
1/4 teaspoon salt.  
Vanilla.  
6 egg whites, stiffly beaten.  
Cream butter and sugar. Add milk and dry ingredients alternately, beating well. Fold in beaten whites. Bake in greased layer

pans in moderate oven (375°) 25 to 30 minutes. Frost when cool.

## Five Chicago Men Injured When Auto Crashes Into Ditch

Five Chicago men were injured when the car in which they were riding left the highway and crashed end over end into the ditch on Rand road, 3 miles southeast of Lake Zurich, early this morning, Thursday.

The injured are: F. Schlemmer, of 4137 W. North avenue, whose left ear was nearly torn from his head; James Ryckelsky, of 1407 N. Kolin avenue, who received fractured ribs and lacerations; August Ryckelsky, brother of James, who received a fractured left leg; Wesley A. R. Benson, 1507 N. Avers avenue, a deep head laceration, and Frank Lepski, 1704 Springfield avenue, a fractured left arm and lacerations of the hands and face.

Schlemmer was driving the car and the men were enroute to Chicago after having spent several hours at a tavern in Diamond Lake, according to information received by State Highway Patrolman William Gallagher, who investigated the accident. The car went into a skid as it approached a sharp turn in the road and left the concrete. The men were thrown from the machine, which was an open roadster, when it went over the first time, thus saving them from greater possible injuries.

Benson who became abusive at the Palestine Community hospital where the injured men were given medical aid, was charged with being intoxicated and disorderly conduct and was arraigned before Police Magistrate Peter Jensen of Lake Zurich. He was released under \$25 bond and hearing was set for June 23.

## First 12 Days of June Are Rainy; Total of 2.34 Inches

The first 12 days in the month of June had rain or slight traces of precipitation, according to records kept by plant operators at the village treatment plant. The rainfall for the first 15 days was 2.34 inches, or a daily average of .156 inches.

The extent of damage done to crops locally is not very great, a number of farmers reported. With prospects of a period of warm weather in view, the outlook for crop production has been raised. Small grains will suffer if another wet season comes soon as will the corn. It was reported, but a heavy hay crop is foreseen. There was some danger of small grains being rusted and corn rotting in the ground had the rains continued longer.

The daily rainfall up to Wednesday was as follows:

## Home Construction Sustains Suburban Building in May

Due almost exclusively to home building, construction in May in the Chicago suburban region remained at the general level established in March and April, the permits issued in May amounting to \$2,087,876; April, \$2,235,828 and March, \$2,028,093.

A falling off in May is typical of the month. This is merely seasonal—it is the falling off from last year that matters, when May had a volume of permits amounting to \$2,892,954. The decline is 43 per cent. Some satisfaction may be found in the fact that this is not so great as the decline in April, which as compared with last year was 50 per cent, April having failed to show even the seasonal percentage of increase over March.

In May of 1937 a large volume of industrial construction was reported, the chief item being a \$400,000 addition to the plant of the plant Electro-Motive Corporation at McCook.

The number of new homes reported in May was 193 to cost an estimated \$1,460,923. This compares favorably with the 203 homes on which construction was begun in April, to cost \$1,349,926.

## FOODS, FACTS, & FOIBLES

ACCORDING TO AN OLD SPANISH TRADITION, IT TAKES FOUR PEOPLE TO MAKE A GOOD SALAD DRESSING: A SALTSHRIFT FOR OIL; A MISER FOR VINEGAR; A COUNSELOR FOR A SALT AND A MADMAN TO STIR. THE EXCELLENT FLAVOR AND FINE TEXTURE OF MODERN SALAD DRESSINGS WHICH ARE AVAILABLE AT EVERY GROCER'S ARE THE RESULT OF A COMBINATION OF ANCIENT SALAD MAKING RECIPES AND MODERN SCIENTIFIC METHODS.

IN THE MIDDLE AGES, GLASSES WERE COMMONLY PLACED ON A SIDE BOARD RATHER THAN ON THE DINNERS TABLE. A SERVANT HANDED EACH GUEST HIS GLASS WHEN HE WANTED TO DRINK.

THE ANCIENT NORMANS INTRODUCED THE USE OF ICE (SHERBETS) INTO FRENCH COOKING.

## Accepts Challenge to Throw Bull at County Stock Show

Word has just been received from Jack Nesbitt, one of the editors of Hoards Dairyman of Ft. Atkinson, Wis., that he will accept Charles Wray's challenge and throw the bull at the Lake County Black and White show which will be held at Ray Bros., Diamond Lake on Wednesday, June 22. Jack Nesbitt is around 6 ft. 3 in. tall and not only agrees to throw the bulls, but will manure the toe nails and it is asked that officials have a vicious bull. Henry Wegen-

er of Ingleside has a bull of this nature and has agreed to have him at the Black and White show.

A. J. Stahl, chairman of the cattle committee, reports that there will be a large number of cattle at the show.

N. J. Coltrin, in charge of the prizes, reports that he will have premium prizes for eight classes of cows and heifers and six classes of bulls together with two classes produce of dams and get-of-fores. There will be classes for all and also a junior contest.

Our Apparent Virtue Sometimes we don't know whether our apparent virtue is patience or apathy.

## "In Old Chicago" Coming to Catlow for Three-Day Run

"Adventures of Tom Sawyer"  
Booked to Start  
Wednesday

"Judge Hardy's Children," with Lewis Stone, Mickey Rooney, Cecilia Parker and Fay Holden, comes to the Catlow theatre Friday and Saturday. It is a sequel to "You're Only Young Once," and is the same type of intimate, down-to-earth family comedy, this time taking the judge and his family to Washington where the youngsters have flirtations and the father outwits lobbyists.

Prometheus, Nero and O'Leary: these are the names of the great fire-bringers. Prometheus has always been a hero. Nero is still one of the great villains of history. But there's always been some doubt about where the O'Learys stood. Those double producers of "In Old Chicago" set themselves to resolve with a result which will be apparent at the Catlow Sunday, Monday and Tuesday.

One school of thought maintains that it was indeed Daisy who kicked over the lamp and started the blaze, but that it wasn't Daisy's fault. The second approach to the cause of the fire blames Daisy. She was a cow with a mis-directed mind of her own according to this theory.

Mom and the kids have all the thrills, while Dad has the fun of paying the bills in the Jones Family's latest hit, "A Trip to Paris," coming to the Catlow Wednesday. It's the trip the Joneses, and every other family, has always dreamed about.

Double featured on Wednesday is "Tip-Off Girls," with Lloyd Nolan, Mary Carlisle, Roscoe Karns and Larry Crabbe.

Most of California's "ghost towns," communities which numbered thousands of souls, now abandoned to pack rats and an occasional squatter, were founded in the hope of increasing greatness. Today, however, a town has been built in the positive knowledge that it will not amount to anything. On the screen, the sleepy village, with no past, no future, is called St. Petersburg, Mo. Up and down its dusty main street, shimmering in the heat waves, strides Tom Sawyer, Huckleberry Finn, Aunt Polly, Muff Potter, the town drunkard, Injun Joe, the river renegade, Becky Thatcher, and all the other characters of Mark Twain's imagination.

When Mark Twain wrote "The Adventures of Tom Sawyer," he wrote of Hannibal, Mo., on the Mississippi, but in common with most authors he gave his locale a fictitious nomenclature. The Hannibal that Mark Twain knew as a boy is reproduced for the screen as the St. Petersburg of which he wrote. "The Adventures of Tom Sawyer" is showing at the Catlow Thursday, Friday and Saturday.

Minor letter winners were: Wilbur Yeath, Bill Lowe, Harold Lipsky, Jack Grueling, and Ed Folkerts. George Whitcomb and Melvin Schroeder were awarded managers' minor letters.

### Junior Class Wins Softball Tourney

The junior class of the Barrington public high school won the first annual interclass softball contest by defeating the freshmen, 13 to 16, at the Russell street playground last Thursday. The juniors advanced to the final round after they had defeated the sophomores in the preliminaries by a score of 15 to 8.

The freshmen swamped the seniors in the first round, 24 to 13, and thus earned the right to play the juniors in the finals. In the consolation game the seniors overcame the sophomores 20 to 2.

## News Briefs

Two young McHenry county farmers were killed early Sunday when their automobile crashed into the side of an Illinois Central freight train on state route 25, five miles south of Elgin. They were: Albert Thompson, 36 years old, and Edward Roe, 25, tenants on a farm east of Crystal Lake.

One man was drowned and three others suffered from submersion at Long Lake, west of Waukegan, Sunday when the motor boat in which they were cruising capsized as it made a sharp turn.

Thomas Moore, 30 years old, of Aurora, was drowned as he attempted to swim to the aid of his companions who fell into the water with him. Moore, who was apparently a better swimmer than the others, made an effort to save his friends, but became exhausted and sank in the water. His body was recovered several hours later.

L. R. Lippold, who is retiring after 18 years of continuous service on the Crystal Lake Community high school board of education, was presented with a loving cup at the commencement exercises held for the graduating class of that high school recently. The presentation, which came as surprise feature of the exercise, was made by Edith Rauschnecker, third ranking scholastic senior.

Wedding ceremonies have been performed in many unusual places and members of the Des Plaines city council, fire department and

police department were equal to the occasion when requested to act as witnesses to a wedding recently. The service was performed by Police Magistrate A. L. Sengstock in the fire department club rooms in the Des Plaines city hall. Principals of the event were George E. Elliot and Miss Edna Nystrom of Chicago.

To make the license the more important, firemen, police officers and aldermen affixed their respective "John Henrys." The young couple then entertained all present with a social evening.

As further proof that wedding sites are not important, a nuptial party called up William Darrell of Wauconda a week ago Saturday evening and told him they were coming to his house for their ceremony. Both he and Mrs. Darrell welcomed Miss Ruth Bodin and the groom, Nels Palmstrom, both of Lake Forest, and their party.

The wedding was originally planned at Crystal Lake but the license had been procured in Lake county so it was necessary to hold the ceremony in that county.

Canine devotion to mankind can best be explained by the act of the German shepherd dog belonging to Mrs. Ruth J. Ross of Deer Grove, southeast of Barrington, who put up a courageous battle a week ago Wednesday to protect a small child from a rattlesnake.

The dog, who is reported to have a natural aversion to snakes and has killed many of them, found his equal in the match and the timely arrival of Mrs. Ross with a garden hose to be the deciding factor.

The child, the three-year-old daughter of Mrs. C. Svenson, was about three feet from the scene

and seemed fascinated by the struggle between the dog and snake, which measured 34 inches and had evidently come from the forest preserve.

## Corrects Air Conditions Throughout the Entire House

• Give yourself and your family cooler bedtime comfort this summer with an Attic Fan Nighttime Cooling System. Here's how simply it works: Open your windows in the cool of the evening. With the Attic Cooling System at work, out goes the hot daytime air and the blanket of stuffy air that collects in the attic—and in comes cool, fresh night air, usually 15 to 20 degrees cooler in this part of the country—cool air circulates through the house till you get up. In the morning shut the windows to store up the cool air from the night before. Your house will be cooler 24 hours of the day!

What could be easier to operate? And it's easy to own, too! . . . Ask about the special payment terms on an Attic Cooling System for your home. Visit your Public Service Company office today for complete details.

*It's over interest and other costs, a somewhat higher price is charged for appliances sold on deferred payments*
