**Child Slips While Wading in  
Pool Sunday; Chicago Man  
Seized With Cramp**

Two drownings were reported Sunday in waters in the vicinity of Barrington. One occurred at the Mount St. Joseph school for handicapped children on U. S. route 12 between Lake Zurich and Wauconda and the other happened in Bangs lake in Wauconda, and both raised the Lake county total to 15 for the year.

Mary Ann McDarby, 10-year-old pupil of the Mt. St. Joseph school, was drowned Sunday afternoon while wading in an ornamental pool on the school grounds, which is conducted for handicapped children. Her parents reside at Ann Arbor, Mich.

The little girl wandered away from her group and sought relief from the heat in the artificial pool. She was discovered missing shortly after dinner. Searching parties found her body in the pool. Efforts to revive her proved futile.

Funeral services were held at Wauconda Tuesday.

The second drowning occurred Sunday at Bangs Lake when John Kieta, 23 years old, of 2321 Green avenue, Chicago, dove from a row boat and was suddenly seized with a cramp.

Kieta had come to the lake with Lloyd Schaffhausen, 23 years old, of 4721 N. Washington, Chicago. The two rented a boat and rowed out about 100 feet from the east shore of the lake and Kieta jumped into the water to swim. His head bobbed up 10 feet away and he called for help. Schaffhausen dove in and struggled for several minutes to save Kieta.

In his efforts to save his companion, Schaffhausen was overcome. He was pulled to shore by other nearby persons and artificial respiration was applied for an hour before he revived.

## Sewer Project Is Proposed for Area Without Service

**Aiding Section East of North-  
West Hwy. Along Main  
St. Before Board**

A sewer project partly financed by the federal government to advance homes east of Northwest highway and both south and north of Main street was suggested by Village Trustee Rudolph Berg at the village board meeting Monday night.

At present there are more than 24 homes in that area that do not have sanitary sewage service. Mr. Berg's proposal favored the installation of tile to connect that parcel with the village system.

Financing under the works progress administration was suggested, the requirements being favorable for sewer work. The WPA, D. B. Maloney, village attorney, reported, will grant a large proportionate fund for that type of a project. It was estimated that the cost to individual home owners in this section would approximate \$150. A sum of approximately \$2500 would then be collected by the village to pay for its estimated share of the project.

The WPA would be in a position to furnish labor while the village would furnish materials. Since most of the project would entail labor, cost to the village was placed at a low figure.

Following a motion made by Trustee John J. Carroll and seconded by Trustee R. P. Kocher Sr., it was decided that Village Clerk A. C. Burand be instructed to write property owners, requesting they appear at the next meeting to discuss the proposal.

Another village project discussed concerned planting of additional trees in parkways. Trustee Berg reported that several hundred American elm trees had been offered the village by an unidentified person in the estate area, providing the village would do the digging and planting. The matter was turned over for discussion later, but it was suggested that the Village Garden Club of Barrington be contacted to determine if it would assist in the work. The club this spring instituted a similar project.

A large crowd turned out to see the Barrington leisure time jamboree out at Northside park as a finale to the summer activities Wednesday evening. Foot races, pool drinking and ice cream eating contests, tug of war, a band concert, ball games, short speeches, award presentations, and movies comprised the evening's program. E. S. Smith, Earl Hatje, T. E. Davis and J. W. Langdale each gave short talks concerning the success of the leisure time program and the possibilities of having another program next year.

The result of the boys' and girls' foot races are as follows: Boys, grades 1 to 3, Kenneth Kamp; girls, grades 1 to 3, Pat Harris; boys, grades 4 to 6, Russell Martin; girls, grades 4 to 6, Shirley Foreman; boys, grades 7 to 8, Gus Lustgarten; girls, grades 7 to 8, Yvonne Herren.

## Open Bids on New State Road Around Lake Zurich Friday

**Highway Department Lists  
Apparent Low Bidders  
on Projects**

In one of the largest lettings of the year, the Illinois division of highways Friday announced apparent low bidders on \$2,372,793 of highway and bridge construction. Among the listing was the improvement of 5.47 miles of paving on U. S. route 12 (formerly 60) southeast and west of Lake Zurich.

Following is the list of apparent low bidders and the projects on the new route and widening in Lake county:

3.10 miles paving Lake Zurich southeast on route 60, I. D. Linn Co., Springfield, \$355,141; 1.53 miles from West of Lake Zurich, Erick Bolander Construction Co., Libertyville, \$143,695; 1.75 miles paving Cook county north of Palatine to Lake Zurich, Bolander Co., \$164,553.59.

The 5.47 miles of paving included widening from the Cook-Lake county line where U. S. route 12 is an existing 40 foot slab to a point southeast of Lake Zurich where a new right-of-way will swing around the west side of the lake. The work will include the new strip up to the northwest corner of the lake where the present road swings due north.

The listing announced Friday does not include the grade separation crossing over the E. J. & E. railway tracks southwest of Lake Zurich. Only the approaches are included in the group while the structure itself will be taken care of in a separate contract, according to highway officials.

The office of C. H. Apple, district highway engineer, at Elgin, reported that work is expected to be started on the widening and new paving about the middle of September.

## Cooking School, Romance, Drama in Movie Sponsored by Review

The Review has scored again! This newspaper has just been successful in securing the new motion picture cooking school, "Star in My Kitchen," which will be presented at the Catlow theatre on September 22, 23 and 24.

Make plans to attend now—for every woman—and man—in the community is hereby extended a cordial invitation to see, absolutely free, this fascinating picture which weaves helpful, intelligent lessons on cooking and home-making into a humorous and romantic plot.

The motion picture cooking school is a new idea. First conceived last year, it has met with acclaim from women throughout the country, who like the happy combination of sparkling entertainment and close-up cooking instruction. Seated in the back row are as good as those in the front row—the motion picture permits everyone to hear and see every trick in frosting a cake, making a pie or cooking bananas.

"Star in My Kitchen" was produced in Hollywood and the audience will recognize many of the rising young actors and actresses who take part in it. Women young and old, will appreciate the humanness of the romantic story, in which home problems are approached from an entirely new angle.

The motion picture cooking school has graduated beyond the demonstration course in the wide variety of household equipment assembled in clear view of the audience. All of the practical experience is seen in active use, and because "seeing is believing."

The audience will soon learn that pie and cakes and salads can make them "stars in their kitchens."

Experienced housekeepers will thrill to the adventures of the young Dedee Abot, who suddenly finds herself with a large home to manage and several mouths to feed—as well as a handsome young movie actor to impress.

What happens when she tries to make a fluffy lemon meringue pie to a marshmallow chocolate cake? What happens when the "man of the hour" drops in for dinner? To unravel the mystery in advance would be to rob this clever tale of its novel approach. However, the audience is due to share in a rollicking good story and to learn much about home-making at the same time.

Every listener will find a harvest of practical ideas among the suggestions for more efficient home making, covering such daily problems as laundry, refrigeration, up-to-date entertaining, beauty secrets, news of modernized home equipment and tips on making these mechanical servants yield the highest degree of usefulness.

It will be a real cooking class, just as though the model kitchens were right on the stage, and all of the popular features of the old-type cooking school are retained: free recipe sheets, the atmosphere of congenial informality, the wise counsel, the hints on clever shortcuts, and the distribution of daily gifts and real surprises.

Accept the invitation of The Review and plan to join your neighbors in the Catlow theatre on September 22, 23 and 24.

## Ela Township High School Gets \$4090 Federal Aid Grant

**Humphrey School Also Given  
\$4090 By PWA for New  
Building**

Final approval of a \$4090 PWA grant for alterations to the Ela township high school at Lake Zurich was announced Tuesday by the public works administration in Washington, D. C. J. A. Clements, principal of the high school, announced the work would start soon as possible.

The cost of the total project will exceed \$9000, Mr. Clements said, and will be used chiefly for alterations to the gymnasium and auditorium. It is proposed that a new ceiling and ceiling insulation will be installed to remedy poor acoustics in the gymnasium. A new concrete and wood floor will be laid and drainage under the floor and around the gymnasium will also be placed. A drinking fountain is also contemplated as are wall rails in the stair wells.

The project will get underway as soon as possible in order to be completed before the basketball season starts this fall, Mr. Clements pointed out.

Ela township high school will begin its fall term September 5 with no changes in the faculty of last year. Attendance this year is expected to show a slight gain over last year, which was the highest in the school's 10-year record.

The PWA also approved the application of a grant for \$4090 for Humphrey school, district No. 9.

## Settlement Offer in Bond Suit Disclosed

Final settlement of the Volting versus the village of Barrington bond case can be made for \$256, it was revealed at the board meeting Monday night. D. B. Maloney, village attorney, reported all testimony had been presented and a master's decision would be forthcoming.

The amount set forth by Mr. Maloney would represent a settlement to preclude an appeal to a higher court in the event that a decision was returned against the receiver of the closed First State Bank of Barrington. It was learned that the receiver holds certain bonds, aggregating \$5000, which would be turned over and all future litigation dropped in the matter for \$256,000.

The total amount in bonds now in litigation is \$13,000. The case was instituted by the village to determine whether the bonds were over-issued or forged on the combined storm and sanitary sewers constructed ten years ago. Following a motion made by Trustee Rudolph Berg and seconded by Trustee R. P. Kocher Sr., it was decided by the board of trustees to instruct the attorney to complete negotiations.

## FBI Agents of Opinion Chicago Man Was Dumped Here by Gunmen

Federal agents were reported in close pursuit of two southwestern desperadoes believed to have kidnapped John Keating, 45 years old, of 6102 Dorchester avenue, Chicago, and dumped him in a cornfield near Barrington July 30. They are Hiram Walters and Edward H. Keating, who were reported to have escaped from jail some time ago in the southwest, and since then have left a trail of robbery and theft across many states.

Keating was spotted while in front of his Chicago home July 30 and ordered back into his car by two men, one of them flourishing a gun. They drove around the house for a while and then came into the country, keeping hands and feet trussed, was thrown from the car near Barrington.

After freeing himself he walk-

ed into Barrington to the Brandt Dairy. The police were called and radio bulletins sent out. The two men fled in a currency and Keating was spotted in a car. They were taken in by the machine.

Federal agents reported they were of the opinion the kidnapping was done by Walters and Hamilton who were wanted as Public Enemies No. 1 and 2. On August 3, according to FBI agents, they held up a bank messenger in front of the Woodruff postoffice and took \$14,000 in cash.

The blundering use of a gun may lead to the eventual downfall of Walters and Hamilton. Walters accidentally shot himself in a leg while trying to shoot a man in the back when federal agents captured two good friends of the desperadoes at Summit Hill, after a gun battle in which Walters escaped.

## Wisconsin Man Is Struck by Hit and Run Driver Sunday

**O. T. Haver, 43, Severely  
Injured in Front of J.  
Langdale Home**

O. T. Haver, 43 years old, electrical contractor from Madison, Wis., was severely injured early Sunday morning when he was struck by a hit and run driver in front of the J. W. Langdale residence, 312 W. Main street. The time of the accident was placed at 2:15 a. m.

Mr. Haver received a deep cut on the right side of his back. The wound extended for approximately seven inches and was several inches deep. He also suffered a broken left shoulder when he was tossed into the air and landed on the concrete pavement on that part of his body. The impact hurled him 15 feet. The handle of the car door was thought to have struck him in the back.

One shoe was ripped off by the impact as was part of his trousers. His automobile keys, which were in his hand at the time, were found lying in the Kueckel driveway.

Mr. and Mrs. Haver had stopped at the Langdale residence earlier Saturday evening, intending to remain only a few hours. When the news grew later they were prevailed upon by Mr. and Mrs. Langdale to spend the remainder of the night.

Mr. Haver had left his car parked on the north side of Main street, and he and Mrs. Langdale went outside to run the machine into the drive when it was decided they were to remain.

Just as he stepped around to the driver's side of the car and prepared to open the door, he was struck by the vampire car traveling west. Mr. Langdale was standing in the driveway, where he was at the time and was not endangered. The Wisconsin car was not damaged.

At the time of the accident, three cars were traveling east on Main street and passed in front of the Langdale home about the time that Mr. Haver was struck. It was believed that the hit and run driver swung his machine over to the outer side of his lane and in so doing, hit the Madison man.

The injured man was given first aid by a local physician and then taken to a hospital at the Sherman hospital in Elgin, where he is reported to be resting comfortably.

## Stick-Up Foiled by H. W. Grimm Here Saturday Evening

**Disregards Gunman's Order;  
Duo Flees Without Cash  
Plunder**

Quick action by H. W. Grimm, proprietor of Grimm service station on South Northwest highway, Sunday night averted a possible greater financial loss when two men attempted a stick-up at his place of business between 9:30 and 10 o'clock.

As soon as one of the men flourished a gun and threatened Mr. Grimm, he fled from the service station to his home adjoining where he picked up a gun. When he came out of his residence, the two men were driving southbound on the highway. His loss was five gallons of gas which had been obtained before the stick-up.

Mr. Grimm told Chief of Police E. W. Baade that the car driven by an elderly man, who was accompanied by a young man, pulled into his station from the north. After ordering the gasoline, the young man asked permission to use the washroom in the station.

Completing his task, Mr. Grimm entered the station where he was met by the young man who requested a Chicago road map. When the local man turned to reach for the article, he felt a gun being pushed into his back.

"Keep quiet. I've got you covered," were the instructions of the young gunman to Mr. Grimm, who, disregarding the warning, ran from the building to obtain his own weapon.

When he came out armed, the two men were fleeing the scene. He was unable to give a definite description of either man.

## "White Banners" Coming to Catlow Sunday, Monday

"Tropic Holiday" Will Begin Three Day Run Here Wednesday

Sometimes amusing, sometimes tragic, and always exciting, "Crime School," coming to the Catlow Friday and Saturday, contains a powerful indictment of unthinking, brutal, out-moded methods of dealing with juvenile crime.

Effectively utilizing the talents of the six New York boys who became famous in both stage and screen versions of "Dead End," as well as such adult players as Humphrey Bogart and Gale Page, the latter a beautiful newcomer to the screen from radio, the picture makes a strong case for its basic theme—that the old type of boys' reformatory is in fact a "Crime School."

The Catlow theatre will have as its feature attraction starting Sunday, "White Banners," based on the best-selling novel by Lloyd C. Douglas, who also authored those popular successes, "Magnificent Obsession" and "Green Light." "Laid in the 1930's," "White Banners" tells the story of a typical small-town family, discouraged by the depression. How they weather this and get a new start in life is a thrilling story that will go straight to the hearts of America.

Fay Bainter, noted stage actress, whose recent work, "Jessebel," was so highly acclaimed, leads the central feminine role. Claude Rains has the principal male lead, and Kay Johnson, Bonita Granville, Jackie Cooper round out the cast of principals.

The recently passed neutrality law, forbidding the export of arms and ammunition to a warring nation without government sanction, provides a basis for a plot in "Border Men," George O'Brien's current outdoor film. It appears here Tuesday.

The husky star is cast as a government agent assigned to track down a group of smugglers operating from a ranch on the gulf coast of Texas, who are violating the United States neutrality laws.

Double featured with "Border Men" is "Prison Farm," with Shirley Ross, Lloyd Nolan, Porter Hall and Anna Q. Nilson. An all-star cast headed by Ray Milland, Dorothy Lamour, Bob Burns and Martha Raye, a setting in romantic Southern Mexico, six new songs from Mexico's most popular composer and a gay story about mad Hollywood people are the main attraction of Paramount's musical fiesta, "Tropic Holiday," which comes next Wednesday for three days to the Catlow.

In this comedy, a bored screen writer, Milland, runs away to Mexico to forget his work and finds Dorothy Lamour who makes him forget everything. Martha Raye also goes native in her own quaint way until the Oklahoma politician, Bob Burns, to whom she is engaged, rescues her.

evident that the boys liked to emulate Tarzan. Police reported that the young age-men had pulled the limbs off of a whole apple orchard in Waukegan.

## Carpenterville Man Dies in Auto Crash

Erar Oakes, 36 years old, 211 E. Main street, Carpenterville, was killed and a companion, Elroy Lange, 21 years old, 415 Highland avenue, Dundee, was severely injured early last Thursday morning when the car Oakes was driving left the road at the intersection of Barrington and Higgins road and crashed into a field. The machine traveled nearly 400 feet after leaving the highway. ## DOES THE COMMITTEE WANT FACTS

Anyone who has glanced over the reams of testimony so far taken by the joint congressional committee investigating the Tennessee Valley authority will find himself in full agreement with Dr. A. E. Morgan's suggestion that the committee appoint a panel of distinguished, unprejudiced engineers to examine the record and pass upon it. Dr. Morgan added that he was willing to stand or fall, for his own part, upon the verdict rendered.

The testimony includes much name-calling, and charges of incompetence, irresponsibility, and even chicanery. This makes good headline news, but is essentially unimportant. The real meat of the testimony is of two kinds—one, a mass of involved engineering, bookkeeping and other technical data which is largely incomprehensible to the layman; two, the basic question at stake of just what kinds of methods the government has employed in dealing with communities which might become TVA customers, and with the private utilities in the region.

No matter how competent the members of the congressional committee may be, they are obviously incapable of accurately and dispassionately surveying the TVA. They are not engineers. And the fact that most of them were members of congress when the TVA act was passed, makes it difficult for them to act as cool, third-party observers and judges.

The Americans people want the truth about the TVA, no matter whose toes may be stepped on in unearthing it. They want the testimony, which will run into thousands of pages of documents, statements, tables, etc., to be passed upon by just the kind of unprejudiced group of real experts Dr. Morgan suggests.

## COULD THEY ASK FOR LESS?

"For many years the railroads have been a source of a steady flow of jobs at good wages; huge purchases of the products of other industries; and enormous tax payments to government," said J. M. Fitzgerald, a railroad expert, recently. "But this flow cannot continue if we dry up the source—and we are drying up the source. As this source disappears, the investor and his savings will disappear. So will jobs and wages. And what is more important, service will be impaired—the best and the cheapest railroad service on the face of the globe."

There are defeatists who claim that the railroad problem is insoluble unless some dangerous step such as government ownership of the lines is taken. But there is utterly no evidence to prove this. J. J. Pelly, president of the Association of American Railroads, has stated that if the lines are given equality of treatment with their competitors, they will solve their own problems. He added that if the railroads' specific suggestions for legislative and regulatory policies are accepted, "once more we shall see that national prosperity is geared to railroad prosperity."

The first essential step is to give the railroads greater freedom to adjust rates to meet competitive situations; to adjust service to the demands of traffic, and to adjust their expenses to the conditions of their business. And, finally, a regulatory policy applied to all carriers alike.

This is the gist of the suggestions the railroads have made. They ask no favors—no subsidies—no preferential treatment over their competitors. They ask only a fair deal, and the right to run their business as all other businesses are run—which means the right to charge rates that will pay expenses and earn a moderate return, and the right to fit out to income.

## THAT "GENERAL FEELING" AGAIN

The recent improvement in security values, after many months of disheartening declines, has been received with mixed sentiment. Under normal conditions, the gains would be regarded as the start of an upward cycle. But under the abnormal conditions prevailing today, there is a strong and well-grounded fear that the gains will be merely temporary, and that they constitute only a flurry of no real significance.

In other words, what the country lacks today is confidence. That "general feeling" of uncertainty and worry is as strong as it ever was, and perhaps stronger. Millions of people feel much as if they were living above a volcano that might erupt at any moment. There is no stability. And to say that this sentiment is unjustified, as some of the politicians do, is claptrap.

The tax problem has barely been touched. The national debt, in spite of past promises to reduce it, soars to new record after new record. More labor troubles are imminent. The government, instead of encouraging productive private business, has continued with its inimical policies, and it threatens to go further into business on its own hook, at the expense of existing private investments. The chaotic political situation is a thorn in the side of industry and investment.

No one expects such problems as these to be solved at once. But if an honest start were made to deal with them, there would be an amazing restoration of confidence. If government actually cooperated with business—if government put into effect a plan for gradually reducing the debt—if government gave the investor assurance his savings would not be destroyed by government itself—we would be on the way to stability. And then improvement in security values or in industrial production or in other economic matters, would be greeted with faith and optimism, investment of capital and "real" jobs.

Another One  
The locals suffered another beating when they dropped a 10 to 5 decision to Crystal Lake at Crystal Lake Sunday. This evens up the series with Crystal Lake, Barrington getting a 1 to 0 victory over them earlier in the season.

Both teams went hitless until the third inning when Al Heltman led off with a single for the locals. However, Bjornberg, next man up, hit into a double play and Eiters was also out. Harkins to Floton.

In their half of the third, two hits and two errors allowed Crystal Lake to score twice and they held a 2 to 0 lead going into the fourth.

The locals had their big inning in the fourth, accounting for five hits and three runs. To begin the inning Paulson popped out to Harkins. Klopfenstein singled and went to second on an error by Harkins and J. Condill sacrificed, sending Klopfenstein to third. Buck Condill singled, scoring "Kloppy." McCarthy singled, sending Condill to second and immediately afterward Baade also singled, scoring Condill and moving McCarthy to second. McCarthy scored on Heltman's single and Baade went to third. The side was retired when Bjornberg hit a short fly ball to the first baseman.

Crystal Lake scored three more runs in their half of the fourth, one in the fifth, three in the sixth, and one in the eighth. Barrington got their other two runs in the eighth and ninth innings, respectively.

Eiters and Heltman worked on

the mound for Barrington, striking out one batter and walking four. Ehlert and Hawley shared pitching honors for the host team, striking out three of Behring's men and walking two.

No game has been scheduled for next Sunday as yet, but Manager Bill Behring stated that efforts are being made to get a game.

### Von Schacht and Jim McMillen to Meet at Grayslake Friday

Friedrick Von Schacht, 6 foot 6 inch giant heavyweight wrestling champion of Germany, will get the chance he has been waiting for more than six months Friday night when he steps into the ring to wrestle Jim McMillen, local star and one of the greatest in the sport. In the main event of the all-star card at Peg's Grayslake arena, the Lake county center of sporting activities.

Some six months ago Von Schacht met McMillen before a capacity crowd in the White City arena in Chicago and after forty minutes of rough and tumble grappling the referee disqualified the giant German for becoming too vicious even for professional wrestling and awarded the match to McMillen.

Three weeks later the pair met in a return encounter and Von Schacht won the match and the right to face Bronko Nagurski for the world's championship in the Chicago Coliseum. Schacht pinned the champion but the referee preferred to look the other way and awarded Bronko the match when Schacht tumbled out of the ring.

Since that time the German strongman has been gunning for another McMillen bout to get in line for the champion whom he is certain he can beat.

Supporting this great main go Ruffy Silverstein meets Hans Schnable in what should be a sensational return match. Schnable held the mighty Ruffy on even terms until he became entwined in the ropes and counted out by the referee so he will be given another chance this week.

In the semi-windup the famous Lord Patrick Landadowne, Suffolk, England's bid to title honors, will enter the ring accompanied by his two valets, Jeeves and Twiddlees.

to wrestle Al Williams, Fox Lake tattooed tough boy. The preliminary pits the Hawaiian, Jerry Meeker, against the clever Texan Bucky O'Neill.

## Tax Rebatement Has Little Benefit Here

Information on rebatement of 1934 real estate taxes in Barrington township and Cook county was forthcoming this week from R. G. Piagge, assessor for the town of Barrington, who pointed out the background of the movement and the actual cash benefit coming to local property owners.

Mr. Piagge had received many calls in reference to the matter during the past week.

Those property owners in Barrington township who paid their 1934 real estate taxes under protest will not receive any large amount of money if they make application. The amount of rebatement is 3c on each \$100 assessed valuation, or an equivalent of 30c on each \$1000 of assessed real estate valuation.

The only rebatement coming to Barrington township is on the county levy of 12 1/4 cents on \$100 to 1c and on the forest preserve levy which is 2c. However, if it were in Chicago, the saving would be material, for there the total rebate is 34c on each \$100 valuation.

The size of the rebatement to Barrington township property owners hardly warrants the expenditure of their time, efforts and money in going to Chicago to make application at the state's attorney's office and then to file the claim in the treasurer's office, it was pointed out.

cooperation of both railroads. Village Trustees Rudolph Berg and John J. Carroll are making arrangements to secure the clinders.

## Water Bouts Feature Palatine Firemen's Festival Aug. 25-28

Water fights, featuring the appearance of girls' teams from Wauconda, Long Grove, Arlington Heights and Palatine, will be a high point of entertainment at the Fall Festival at Palatine, which starts August 25 and continues through the 28th, according to W. R. Comfort, chief of the Palatine fire department, for which the event is sponsored.

Competition between men water fighting outfits, music by a German band, a farm show by 4-H club members, display booths, amusements and concessions are also numbered among the attractions. Mr. Comfort stated. An estimated attendance of more than 25,000 persons was at the festival last year and officials expect that figure to be exceeded this year.

## Druggans Lose Fight in Higher Court on Forced Sale of Farm

Mrs. Elizabeth Druggan and son Terry will lose their 240-acre farm near Prairie View by way of the auction block unless they take an appeal from the appellate court decision Wednesday which affirmed a ruling of the circuit court.

The sale of the farm on a foreclosure proceeding was halted last spring when the Druggans appealed from the circuit court to the appellate court. The higher court Wednesday upheld the circuit court which ordered the sale of the property.

Mrs. Druggan must now file a petition for appeal in the supreme court or the farm may be sold by a special master to satisfy a \$24,000 mortgage.

William Bretsnyder of Palatine suffered severe lacerations about the face and throat when the car in which he was riding collided with another auto at the fork of the Northwest highway at the Harry Kelly tavern north of Palatine Saturday evening.

The car in which the Palatine youth was riding collided with the rear end of another machine that was without a tail light.

With Bretsnyder at the time were Clarence Schroeder and George Schinkowski, both of Palatine. They escaped with minor injuries and bruises.

Mrs. R. C. Reid, residing at Quinlan road and the Lake-Cook county line road, escaped serious injury early Sunday morning when the car she was driving left the pavement on Northwest highway near the old fair grounds in Palatine and crashed into a tree. She was taken to Palatine for treatment where it was learned she suffered only sprains and bruises.
