High school pupils from Elm township high school at Lake Zurich, Arlington Heights, Palatine, Crystal Lake and McHenry will be here on special invitation. Mr. Smith reported.

College day was instituted at Barrington high school several years ago to give pupils planning to continue their education in college an opportunity to meet representatives from various institutions. It was felt they could receive helpful information for planning courses by direct contact with university leaders as well as an idea of what the various colleges have to offer. Entrance requirements vary considerably, as do courses and by contacting the educators parents have an opportunity to help their children select an institution suited to their intellectual and financial needs. ## Buffalo Grove Man's Home Straddles Lake- Cook County Boundary

R. P. Weidner, who resides in Buffalo Grove, carries coal from Lake county to feed the fire in his furnace in Cook county and still doesn't have to leave the house to do it. It so happens that his home is located directly on the boundary line of Cook and Lake counties.

The front part of the house is in Cook county and he greets the Cook county assessor at the front door. When the representative from Lake county calls, he is greeted at the back door. The coal bin is in Lake county and the furnace is in Cook. Considering the fact that Mr. Weidner and his family sleep in the part that is in Cook county, he is regarded as a resident of Cook county.
