Public Service Co. Sponsoring "Home **Building Contest**"

Electric rate reductions for approximately 95 per cent of 250,000 domestic or residential customers of the Public Service company of Northern Illinois, totaling more than \$750,000 an-nually, were announced yester-day by James M. Slattery, chair-man of the Illinois commerce commission.

A "Home Bullding and Modernisation content" sponsored by the
Publice Service company of Northreal Illinois and offering \$4800 in
prizes was announced last week by
M. H. Schreiber, district superintendent of the company.
The total prize money will be
divided into 24 prizes of \$200 each
with eight awards in each of the
three major divisions of the territory served by the Public Service
company. Any new or modernritory served by the Public Service
company. Any new or modernisation was started after Pebruary
1, 1937 and which will be completed between the period from Augtural loss of the company
was learned. Homes will be judged according to ten specifications
which are: good location and
architecture, sound construction
and skilled labor, quality materials and equipment, landscaping
and sanitation, heating and
ing and sanitation, heating and
utilization.
"This home building activity is
being conducted for two reasons",
"
being conducted for two reasons", on which construction or modernication was started after Fabruary 1, 1937 and which will be completed between the period from August 15, 1937 to October 1, 1933 may be entered in the contest, it was learned. Homes will be judging to a coording to ten specifications which are: good location and architecture, sound construction and skilled labor, quality materials, planbing and sanitation, heating and affected and gas utilization.

"This home building activity is being conducted for two reasons," with the conset to increase interest in home building is important to the websilese that anything that can be building is important to the websilese that anything that can be a building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is important to the websilese that anything that can be building is figured. more than any other persons to support the government in the state and nation. Last year his bill in illinois was about \$50,000,000, which according to figures present-ed by the secretary of state, show that it is more than one-third of

ed by the secretary of state, show that it is more than one-third of the entire revenue received by the state, Kelesy said, Olie tax, Kelesy declared, ranges close to \$30.4. The registration fees plus the motor fuel tax fund added to the federal sid will give the state nearly \$50.000, 900. Fines and other miscellaneous items will add another \$250.000. This, in the opinion of Kelsey, is unreasonable, excessive and far out of proportion. The automobile owner, in his opinion, too long has been the target when revenues are needed and can almost claim discrimination in comparison with other items of taxation.
