NATIONAL PRIZE WINNING WEEKLY NEWSPAPER—1937

Awarded Third in U.S.  
by N.E.A. for Better  
Newspaper Production

VOLUME 50, NUMBER 18

BARRINGTON, ILLINOIS, THURSDAY, MARCH 21, 1938

\$2.50 A YEAR IN ADVANCE, SINGLE COPIES, FIVE CENTS

## Mrs. J. M. Boddie to Discuss Radio for Woman's Club

Girl Scouts Special Guests  
at Meeting April 6 in  
Methodist Church

"Radio, the Fifth Estate," will be the topic of Mrs. John M. Boddie's address before the Barrington Woman's club on Wednesday, April 6. The meeting will be held in the Methodist church and will begin at 8 o'clock.

Mrs. Boddie, it was learned, first became interested in radio 15 years ago when her son became an amateur operator. Her lecture will seek to evaluate the social force of radio by discussing its history, development, and social significance. It was reported.

She has been active in radio broadcasting, having been on a commercial series for 26 weeks. The speaker has attended many conferences on educational broadcasting and is in contact with the industry in numerous ways.

In addition to Mrs. Boddie, the Woman's club program will present musical numbers by the Girls' chorus of Jewel Tea company.

In observance of girl scout week, the hostess committee has invited a number of girl scouts to assist it. The scouts will pour and serve tea at the close of the meeting. Mrs. Willard Watson is chairman, and assisting her will be: Mrs. Clifford Stout, Mrs. R. D. Sturtevant, Mrs. Donald Titterton, Mrs. Achil Van Oostende, Mrs. H. H. Walbaum, Mrs. Ernest Walbaum, Mrs. Harold C. Wandas, Mrs. John Welch, Mrs. R. D. Wells, Mrs. Harry W. Wewetzer, Mrs. E. F. Wichman, Mrs. Emory Wilder, Mrs. A. M. Wilkins, Mrs. Erin Fold, Mrs. Walter Wolf, Mrs. Emil Wolf, Miss Fern Work, Mrs. H. O. Zander and Mrs. Frank Zenger.

The final meeting of the club year will be held at Barrington Hills Country club on April 20. Lucille Calvert, dramatic artist, will present "Sketches."

## Building Activity Makes Start; Total of \$2300 in Permits

Building activity after being dormant for two months in the village got off to a slow start during the month of March when two building permits totalling \$2300 were issued by Herman Gutlich, building commissioner. During January and February no permits were issued.

A permit was issued to Charles Thies to remodel a store front at 114 E. Main street at an estimated cost of \$800 while the second was issued to Mrs. Alice Lageschulte to remodel a residence at 208 Dundee avenue at an estimated cost of \$1500. The amount for March of this year exceeds that of the previous year when only one permit was issued. That was given to Floyd Plagge for a greenhouse addition, totalling \$2000.

## Open Beauty Shop at Lake Zurich Monday

Formal opening of the Vanity Beauty Shoppe at Farmans' hotel in Lake Zurich will hold Monday. Miss La Fern Biechle of Barrington is managing the shop, which is owned by Mrs. Florence Lamprecht and Mrs. Melva Rehberg, operators of the Barrington shop of the same name.

A complete line of beauty equipment has been installed and the shop in Lake Zurich is able to give the same service as the one in Barrington, the owners announced. The reception room is finished in the predominant color in the shop.

The Barrington shop has been newly decorated in grey woodwork, new chairs and a new sign being attractive innovations this week. The new spring uniforms of the attendants are grey also.

## Market Exists Here for Chicken Houses

A market exists in the Barrington community for chicken houses. Several answers to the following "for sale" ad published in "The Review" last week were received: "Chicken House, size 12-12, (description) Mrs. H. P. Castle, Barrington." The chicken house was sold to one of the persons wanting.

## Take Lead in Spring Clean-Up

Above are, (left to right), Rex Henderson, Paul Purcell, village superintendent of streets, and Ed Nicolai, whose picture was taken last week while the village was engaged in the annual street clean-up work. A large amount of debris has been collected during the past two weeks by the crews working under Mr. Purcell, he stated.

Village President Earl Hatje in a letter to residents of Barrington this week has asked for a community-wide drive during cleanup week starting May 8. He has proposed that all groups, clubs, churches and organizations join in the movement.

Press reports from many other localities show that concerted efforts are being made in those places to have the annual spring program successful from a civic point of view.

A number of suggestions on how to assist in making the drive are in Mr. Hatje's possession, and are being given his consideration for local use, it was learned.

## Village Ordinance Amended to Cover All-Night Parking

Cars Parked in Residential  
Area Must Have Lights  
on at Night

All-night parking in the residential areas of the village was given attention at the village board meeting Monday night with trustees offering a number of solutions to the problem. The subject was introduced a week ago by Earl Hatje, village president.

An amendment to the local ordinance, requiring that cars parked in the residential districts have their parking lights turned on from dusk to dawn, was suggested by Trustee John Daeschler, chairman of the police committee, and seconded by Trustee R. F. Kocher Sr. It was adopted.

The amendment is patterned after others adopted by nearby communities in their efforts to curtail all-night parking and remove the danger of auto accidents. A proposal was broached at the last meeting previous to Monday night that parking on the residential streets all-night be eliminated. Entirely complete complaints were received by the board after that proposal became known, it was stated.

The amendment to the parking ordinance adopted Monday night is designed to discourage all-night parking by creating unfavorable restrictions. The trustees agreed that village parking conditions needed attention, and were particularly opposed to leaving cars on the street all night, both for police regulation and safety first. Mr. Daeschler stated that parking lots are needed in the village, and Mr. Hatje pointed out several places that might be suitable.

## Brandt Dairy Moves into New Building on Northwest Hwy.

Brandt's Dairy, formerly located at 283 James street, has been moving its plant this week to the new modern building on West Northwest highway, and now has office, pasteurization and bottling equipment and garage in the new home. The dairy was established late in 1934 by Ray E. Brandt. He installed a pasteurization plant in the James street building in 1935. The company has built up a wide business including both retail and wholesale of pasteurized milk and other dairy products.

A formal opening in the new building will be held in April.

Passes State Bar Exams  
Edwin P. Vanderwerker Jr., 610 Summit street, Barrington, received the good news this week that he has just passed the state bar exam at Springfield, thus putting him over the final "big hurdle" to becoming an attorney. He is a graduate of John Marshall law school, Chicago. He received his B.S. from Northwestern university, and was graduated from Harvard graduate school of business administration. He is now an official of the American Institute of Banking.

## Deputize H. Coffman at Meeting Monday

Harry Coffman was made a special watchman and deputized by the village of Barrington at a meeting held Monday night. His name was placed on the village payroll as a nominal employee and he will be covered by compensation insurance, although he is not to receive a salary from the village. He was deputized by A. C. Burandt, village clerk.

In order to maintain jurisdiction over Mr. Coffman, who is engaged privately by the village to maintain a nightly patrol, and be released from liability in deputizing him, it was decided by the board that he be placed on the payroll and thus automatically be covered by compensation insurance. It was estimated that an additional premium of \$30 a year will be paid by the village due to this action, but the majority of trustees feel the added protection the village is receiving balances that expenditure. During the summer months only one night patrolman is on duty from the village police force. It was pointed out, and having an additional watchman, although not paid by the village, subject to call in emergency is desirable.

The motion to take the action was made by Trustee John Daeschler, chairman of the police committee, and seconded by Trustee John Carroll. With the exception of Trustee John Blanke, who voted no, members of the board voted in favor of the motion.

## H. Kelsey Endorsed By Officials Assn.

Harold D. Kelsey, of Cuba township, candidate for republican nomination for state representative from the eighth senatorial district, received the endorsement of the Lake County Township and County Officials association. Mr. Kelsey was qualified to vote for nomination at the April 12 primaries.

A resolution adopted by the association said that in consideration of Mr. Kelsey's "valuable services rendered in the capacity of supervisor from the town of Cuba, and as a member of the legislative committee of the board of supervisors," Mr. Kelsey was qualified to perform the duties of a state representative.

## Two Town Meetings Scheduled Tuesday

Appropriations and other items of business will be brought up for attention of residents of the town of Cuba and Barrington at their respective meetings to be held Tuesday, April 5. Both meetings will begin at 8 o'clock.

Residents of the town of Barrington will meet in the council rooms of the village hall on South Hough street. Voters of the town of Cuba will meet at the Standard Motor salesroom, 223 Railroad street. V. D. Hawley, supervisor of the town of Barrington, and H. D. Kelsey, supervisor of the town of Cuba, will preside over the meetings.

Called to Iowa  
Mr. and Mrs. John Arnold, who have been visiting at the home of Mrs. Green Cannon, 608 E. Cook street, for several days, were called to St. Charles, Ia., Friday because of the death of a brother-in-law of Mr. Arnold.

## Clean Up

Citizens of Barrington: In accordance with the custom of many years, Barrington will conduct a "Clean-Up" campaign during the week of May 2nd.

The success of this campaign against rubbish, dirt and unsightliness depends upon you, and I urge all citizens to cooperate to make this important civic affair a success.

The churches, schools and the various civic clubs will be called upon for assistance. Individuals can help by cleaning up rubbish, ashes, tin cans, weeds, etc. If you own a vacant lot or a premise that is rented out, a visit to it will show what kind of aspect it presents to its neighbors. If you know the owner of a vacant lot or premise that needs cleaning up a hint might be helpful.

If there is a location in your neighborhood that is habitually used as a dumping ground or has the appearance of a dumping ground, please communicate with the chief of police and the village will try and get it cleaned up for you.

Your cooperation in making this clean-up campaign a success will be sincerely appreciated.

Yours truly,  
EARL HATJE,  
Village President

## Local Garden Club Will Have Exhibit at Chicago Show

To Have Display of Potted  
Plants at Navy Pier  
April 2 to 10

The Garden Club of Barrington will have an exhibit at the annual Chicago Flower show at Navy Pier in Chicago, which opens April 2, and continues until April 10, according to plans made at a board of directors meeting at the home of Mrs. Robert Work, club president, Wednesday. Luncheon was served by the hostess.

The local garden club will have an exhibit of potted plants, it was decided. Mrs. Frank Hecht will also have an exhibit of two very fine specimens of Chinese acacia (Crataegus Arborescens).

The Chicago show will be the twelfth annual event in its history. All garden clubs in Illinois are eligible to enter, and, according to announcements, close to 90 out of the 120 clubs have taken exhibit space.

At the directors' meeting held at Mr. Work's home Wednesday a discussion on a revision of by-laws also took place.

The annual meeting and election of officers of the Garden Club of Illinois will be held April 18 at the Palmer House in Chicago.

## Finances Important to College Career, Questionnaire Reveals

The matter of finances prevents many students from seeking a higher education at a college or university. This conclusion was based on a survey made of questionnaires sent out to graduates of Barrington high school from 1927 to 1935 by E. E. Smith, superintendent of schools, several months ago. Miss Althea Christensen, member of the high school faculty, correlated the data, the first installment of which was published in last week's issue of "The Review."

In the preface of her reports, Miss Christensen pointed out that local high school graduates are using scholarships, working before going to college and during summers and working while attending school in order to complete their education.

Following is the report prepared by Miss Christensen: Scholarships for girls varied from \$40 to \$250 and were for one to two years. Only eight girls indicated they had a scholarship. Seventeen boys earned scholarships, which varied from one-half full tuition at the school that they attended, and in amounts of \$75 to \$1,000.

Most of the scholarships were granted students because of good grades earned in subjects; a few were granted on the basis of athletic ability. One boy's scholarship of \$250 was for a year; the other was for a year.

## Robert Langdale and Leona Lavine Win Posture Contest

Winners of the posture contest conducted in the Barrington public high school were determined Friday afternoon. Robert Langdale was declared winner in the boys' section and Leona Lavine was winner of the girls' division.

The contests were conducted for one school week, starting on Monday and closing Friday afternoon. Cards were given to each pupil on Monday and they were retained only by those who maintained good posture during the day.

The contest was conducted by P. E. Clark, boys' athletic director, and Edith Grace Wandke, girls' athletic director.

Runners-up in the boys' division were Arthur Castle and Raymond Myers. In the girls' section they were Shirley Biechle and Esther Holtz.

## C. Stivers Talks to Commercial Classes at School Wednesday

C. L. Stivers, of the personnel division, Jewel Tea Co., Inc., gave a talk Wednesday to commercial students of the Barrington high school. He spoke of the qualities needed by a secretary: (1) mechanical qualities—accuracy, neatness, speed, large vocabulary, (2) mechanical and inherent qualities—those which can be improved through self-analysis and self-study as—dependability, thoroughness, judgment, initiative, alertness, attention to details, and ability to organize; (3) impersonability—personality, poise and manner.

One part of his talk was devoted to how he interviewed an applicant and what he looked for.

## P.-T.A. Sponsoring Talk Friday Night

Robert K. Burns is to be the guest speaker at the meeting sponsored by the Parent-Teacher association at the public school auditorium Friday night, April 1. Mr. Burns, who is research assistant in economics at the University of Chicago, will center his lecture around opportunities for youth in the business world today. He was here last January and spoke before the Barrington Women's club. At that time the topic was "New Careers for Youth."

"King of Kings," a movie portrayal of the Passion play, will be presented at St. Anne church school auditorium Wednesday, April 6, at 7:45 p. m. under the sponsorship of the Catholic Women's club of Barrington.

## Voters Urged Not to Change Parties at the Primaries

Speaker at Republican Meeting  
Interprets Illinois  
Statute

"Vote your own party ticket at the primary this year or you will not be able to vote with your party two years from now when the primary on a presidential year rolls around," Max Volk of Arlington Heights told 75 men and women who attended a Barrington town republican organization meeting at the home of Dr. A. G. Gleake, town committeeman, Wednesday evening.

A statute regulating primary elections in Illinois states that a voter electing himself for the party by calling for its ballot, can not obtain a primary election ballot for any other party within two years, he affirmed.

Persons voting republican at this primary cannot switch to the democratic ballot in April, 1940, and persons voting democratic can not vote republican in April, 1940 he explained. Many voters, faithful to understand the law, might switch from one party to the other now to help a local candidate and as a result lose their prerogative to vote with their party at the 1940 primaries. Mr. Volk concluded. The primary law does not affect the voting at fall elections.

Other speakers at the meeting were William Hardwell and James Hafner of Barrington, Arthur W. Sprague of LaGrange, candidate for representative from the seventh congressional district, and former county committeeman Frank Kris of Willow Springs.

Among the men and women present at the meeting Wednesday night were local party workers and primary election officials.

The speakers endorsed the country town commissioners who are candidates for nomination and re-election to the Cook county board.

## J. Hilgenberg Jr. Withdraws in Demo. Committeeman Race

Only two candidates were left in the contest for democratic committeeman of Barrington following the withdrawal of John Hilgenberg Jr., who announced this week he had decided not to continue as a candidate. In making his withdrawal, Mr. Hilgenberg stated he would support R. F. Kocher Sr. during the campaign. Opposing Mr. Kocher will be Kenneth Scherf. The office is being left vacant this year by H. R. Brintlinger, who is not a candidate for re-election. A. G. Gleake is unopposed in seeking re-election as republican committeeman of Barrington township. The candidates of both parties will be voted on at the primaries April 12.

Public Annual Reports  
The annual reports of the general fund, highway commissioner fund and relief funds for the town of Cuba during the past year are published in this week's issue of "The Review" and will be found on pages 7 and 8.

## Change Plans for Proposed Village Water Reservoir

Structure Will Be Smaller;  
Local Cost Estimated  
at \$7,500

Plans for an additional water reservoir for the village of Barrington underwent several changes during a discussion of the matter at a special board of trustees meeting Monday night.

It was first proposed that a reservoir of the same size and shape as the present one, with a capacity of 240,000 gallons, be built. It was found that an additional structure this size is not possible because the ground space is not available at the village hall.

John A. Fulkman, engineer from Consor, Townsend and Quinlan, village engineers, was present at the meeting and went over the matter with the trustees.

It was decided finally to erect a reservoir having a capacity of 177,000 gallons and being 35 feet by 48 feet in size. This is approximately 70 per cent of the size of the existing reservoir in operation. It is to be located at the southeast corner of the village property on Hough street.

The estimated cost of the structure decided on Monday night is equal to the amount of funds the village has for the improvement. It was stated that the reservoir could be built at an estimated cost of approximately \$30,000, of which the village would pay 25 per cent or \$7,500. All plans and estimates are being prepared and based on the premise that the work is to be done with WPA assistance.

At present only the newer reservoir being used by the water department. Last year the same sanitary water board threatened condemnation on the old brick reservoir if the village continued to use it. It was found to be leaking badly, so it was abandoned.

In the plans for erecting the new reservoir, changing of the village garage and "hobo" house to new location on the village property are also contemplated.

## Take Tires, Wheels and Tools on Job at Lake Tuesday Night

Tires, wheels and a magnet were taken from a truck and magnet from a tractor at Caesar Lake Tuesday night by unidentified persons. The truck is the property of the J. H. Catlow Co. and the tractor belonged to Mr. Caesar.

The equipment was being used in connection with repairing the dam of the Caesar Lake recently built. A small amount of tools was also taken from a shovel crane owned by Mr. Catlow. No watchman was on the premises due to the fact the repair work is almost completed, it was reported.

## Wanderlust Jaut of Truant Boys Ends Here Tuesday

Two errand boys, Paul Thack, 13 years old, of 2711 Madison avenue, and Nick Banbulis, 11 years old, 2801 W. Chicago avenue, were cut short on their spring excursion when they met up with E. W. Baade, chief of police, Tuesday. They had decided not to go to school and left home for a short jaunt.

Edward Baade discovered them enjoying the carefree life along the Northwestern railway tracks, and held them until that evening when their parents came to Barrington.

## Local Band Group to Have Radio Audition

The "Rhythmrears," formerly known as the "Five Palm German Band," will go to Chicago Tuesday evening, Thursday, for an audition for a radio appearance. The band recently won an amateur contest at Palestine and was given the opportunity to try-out for a place on a commercial program.

Two new members have been added to the group, Florence Folked, and Norma Bernman, whistler. Others in the band are Reuben Baade, Robert Plagge, Paul Fohlman, William Saul, and Willard Blode.

Leaves for Carbonado  
Mrs. Herbert Brink, 640 N. Hillside avenue, went to Carbonado Tuesday night to see her mother, who was injured on a recent trip.
