

## Two Committeemen Will Be Appointed for Cuba Township

### Divided Into Two Precincts; Welch and LaPointe Prob- able Selections

Two new precinct committeemen will be added to the Cuba town political machines this month. It is probable that Joe Welch will be the republican selection and Leo LaPointe the democratic choice.

Here-to-for Cuba has operated as a single precinct, but as the result of action taken by the county board of supervisors in July, the township will be divided as follows: all the territory east of route 59 (Hough street), precinct 1; all territory west of route 59, precinct 2, with a committee-man for each precinct.

The party central committees have not yet announced appointment of the committeemen to pre- side over the newly formed pre- cinct but it is expected they will accept the recommendation of the former township committeemen who will become precinct commit- teemen in the second precinct. These men are Rudolph Berg, re- publican and John Treistik, democ- rat.

If their recommendations are ac- cepted, the committeemen will be: republican party, precinct 1; Welch, precinct 2; Berg, democ- rat party, precinct 1, LaPointe, precinct 2, Treistik.

The division was made necessary by the increase in number of reg- istered voters. Eight hundred is the maximum for a single precinct, but Cuba has more than that for several years.

## New Municipal Code Proposed to Board of Trustees Monday

### Resolution Made By J. Blanke Given to Ordinance Committee

A resolution requesting that a new municipal code book be pre- pared to replace the present an- quated ordinance set of the vil- lage of Barrington was presented at the meeting of the village board Monday night by Trustee John H. Blanke. The resolution was turned over to the ordinance commit- tee for consideration following a motion made by Trustee John J. Carroll and seconded by Trustee John J. Daeschler.

Mr. Blanke pointed out in his resolution that the present munic- ipal code book was compiled in 1903 and during the past 35 years additional ordinances have been kept in looseleaf form. The old laws were never revised or taken from the records and contained that present conditions warrant the compilation of a new municipal code every 10 years.

Trustee Blanke estimated a new code book could be prepared for approximately \$125, of which \$75 would be for the preparing and drafting of the code and the additional \$50 would be for printing costs. Two hundred and fifty copies of the code could be printed at the latter cost, he stated.

Mr. Blanke also stated in the resolution that Thomas A. Mat- thews, associated with the Illinois Municipal League, had been con- tacted with reference to drafting the new code. Mr. Matthews had made the verbal offer to do the work for \$275. It was brought out during the discussion following that it was pointed out that an effort had been made a few years ago to draft a new code of ordinances, but the work was abandoned due to the press of straightening out the village's sewer problem. Vil- lage Attorney D. B. Maloney was doing the work.

Village trustees expressed them- selves favorable to having the or- dinance brought up to standard and the old measures outmoded by recent changes discarded. The or- dinance committee is to bring in a recommendation.

## Barrington Has Municipal Per Capita Rate of \$5.44 in 1937

The July issue of the Illinois Municipal Review contains some comparative 1937 tax figures that should prove to be of interest to every taxpayer in Illinois. The entire issue of the magazine is devoted to a comparison of tax levies showing the per capita tax in every community.

Compared with other villages in Cook county Barrington ranks fourth with a per capita municipal levy of \$5.44. Wheeling, with a population of 467, has a per capita rate of \$4.46, the lowest in the county. Arlington Heights ranks second and Niles third.

With a given total of 3213 per- sons, the per capita rate in Bar- rington is figured at \$5.44. In brief, if each person in the village paid his or her share of the mun- icipal tax the amount would be \$5.44. The other share of the \$19,276.55 is used to determine that amount. ## Second Half 1938 Cook County Taxes Due in September

The last installment of the 1937 Cook county real estate taxes will be payable in September, accord- ing to information received by R. A. Schroeder, deputy collector, from herac G. Lindheimer, county treasurer.

Mess Pearl Adams, collector, and Mr. Schroeder, will establish an office in the First National bank building, where the payments may be made.

Two factors have been evidenced in the survey completed by the Illinois Municipal Review that are needed to lower the per capita rate. They are: increased popula- tion, or the adoption of revenue raising licenses. A gain in popu- lation would lower the per capita cost by virtue of a greater spread, while the additional income would lower the municipal levy.

On the Lake county side the vil- lage of Barrington again ranks well, being seventh in the entire county. The lowest is Highwood with a total of \$2.30 and a popu- lation of 14. The highest is Pal- mwood with a total of \$15.74 and a population of 14. The highest is Pal- mwood with a total of \$15.74 and a population of 14.

Lake Zurich, on a basis of 368 population, has a per capita rate of \$10.93, while Wauconda has one of \$6.99.

Opportunity was given to the music of Rex Paul's orchestra will be the feature of the evening, Mr. Murphy said. The front lawn of the club will be decorated for the even- ing's festivities. ## Team Bolts, Hurling Man Into Blades of Hay Mower Friday

Hurled under a hay mower when his team ran away from the John J. Ward estate near Barrington, Luke Mulvaney, 30 years old, fell beneath the blades of the machine and received deep and painful lac- erations of both legs and his face Friday.

Mulvaney was given treatment by a local physician and then taken to the Sherman hospital in Elgin by ambulance. According to later information, an infection had set in but his recovery is expected. The flesh of both legs was consid- erably torn. It was learned, by the machine blades.

Suddenly the horses started to run. Mulvaney was hurled from his seat and fell directly in the path of the hay mower. Before he could jump to his feet or roll to safety, the machine had passed over his entire body.

According to reports, the most serious lacerations were on his legs and face, although Mulvaney had other cuts over most of his entire body.

Other employees on the Ward es- tate who were attracted to the scene by the runaway team suc- ceeded in stopping the horses. They then went to Mulvaney's aid.

## Names Committee For Flint Creek Dredging Project

### Village President Earl Hatje Appoints Trustees to Study Proposals

Village Trustees Rudolph Berg, John H. Blanke and John J. Car- roll were named by Village Pres- ident Earl Hatje at a board meet- ing Monday to act as a special committee to make a final decision on a WPA project for dredging Flint creek and leveling the stream's banks.

A report was made to the board that Harry Van Middlewayer, local surveyor, had offered to pre- pare the complete data, showing grade elevations, detail maps, es- timated amount of excavation and estimated number of man hours to complete the job, which all could be incorporated by the trust- ees in the application form that is required by the government.

Discussion arose as to whether the village board should have the project extended beyond the city limits along Flint creek or merely confine itself to working within the village boundaries. It was pointed out that the creek was dredged last year from Jewel Park to the lagoon in Northside park, leaving only a short distance from the park to a point beyond the village treatment plant.

The committee appointed by Mr. Hatje will investigate the entire project and if sufficient work is available, it is to order the pre- liminary detail plans started.

Mr. Hatje also appointed Trust- ees Carroll, Daeschler, Blanke and Berg as a committee to pre- pare a village exhibit at the Lions Club Fair in October. It was recommended at the meeting Mon- day night that the village rent one display booth.

## Lions Club Buys Land for Road to Northside Park

### Negotiations Made Friday; Strip Is 60 by 613 Feet on Hough

Negotiations were completed at a meeting Friday night between a committee from the Barrington Lions club and Mr. and Mrs. A. C. Burandt for the purchase of a piece of land, 60 feet wide by 613 feet deep on North Hough street, which will be improved by the club with a road and landscaping, and then turned over to the Barrington park board.

The project was started by the Lions club in order to give access to the swimming pool and the grounds proper in Northside park without the motorist or pedestrian being forced to travel on North- west highway.

Acting on the committee for the Lions club were: M. H. Schreiber, chairman, A. D. Church, F. C. Fleming, Harry Dwyer and H. Brainerd. The purchase price aggregated \$1000. It was reported Mr. and Mrs. Burandt are joint owners of the property, which they purchased from the Chicago Real Estate Co. They are residing at present in the Boyer home.

The section to be improved is the north 60 feet of the Boyer property and extends west to join up with the parking lot in North- side park.

Forty feet of the acquisition is to be used as a two-lane roadway with cement curbing and a strip of shrubbery along the highway to separate traffic. On the south side a cement sidewalk is to be con- structed and also a steel fence. The whole piece is to be improved with trees and shrubs, according to present plans, and white lim- stone or gravel will be placed on the roads. It is also proposed that the roads be made dust proof.

In addition to the purchase price, it is estimated that the Lions club will have to expend an addi- tional \$2500 before the project is completed according to plans. If it is used as desired, it will then be turned over to the park board for its supervision. The new road will offer a more con- venient and safer entrance to the park, eliminating the necessity of turning around on the highway, Northwest highway and then on again. The cement sidewalk will also make it easier for pedestrians to reach the park, particularly chil- dren. The new road will also make it easier for the Lions club to cross the E. & E. railroad tracks at an unprotected point at present.
