

Y. P. C. C. to Give Three-Act Play to Open Prayer Week

Sponsoring Harvey Group in
Presenting "The Thinker"
Monday Night

The Young People's Christian commission will sponsor a performance of the three-act comedy-drama, "The Thinker," Monday evening, Jan. 2, at the Barrington high school auditorium. The program will begin at 7:45 o'clock.

Presentation of this drama is included in the local observance of the National Week of Prayer. The drama is definitely a modern comedy, but its theme is such that it makes the play particularly suitable for the occasion for which it is used. Fred Eastman, author of "The Thinker," credits a study of the life of St. Francis of Assisi with having inspired him to write the play.

The cast which will give the play Monday night has an interesting background and is unique in that all the male parts are taken by ministers. When the cast was formed a year ago all the ministers in the town were members of the Thornton Township Ministerial association of Harvey. After they had found that they had dramatized a common hobby, and that their wives shared that interest, they decided to give "The Thinker," their motive being largely the sentiment which they themselves felt they would get out of it. The original plan was to give only one performance. The first performance was given at the Thornton township high

school auditorium, but since then the same cast has given the play many times for a variety of occasions and purposes. The performance which is to be given next Monday night will be the cast's eighth, and it already has been engaged for the ninth and tenth performances. This group of players has given the play in churches, Sunday evenings. Among the most successful productions have been three which were given before young people's audiences at Youth Conventions of three different denominations. In the meantime the cast has been enlarged to form a larger group of players which the drama committee of the Chicago Church Federation expects to form in various parts of the city and Chicago area. Rev. Ellerbrake, a member of the committee, will within the near future announce plans for the creation of such a group in the Barrington area.

Included in the present "Thinker" cast are: Rev. Stanley W. Graf, pastor of the Federated church (Congregational-Prebyterian) in Harvey; Rev. Guy Chester Jones, pastor of the Academy Methodist Episcopal church, Harvey; Mrs. George P. Ellerbrake, wife of the pastor of St. Paul Evangelical church, Barrington; Miss Joyce Russell, a member of the Federated church; Rev. Donald Crocker, pastor of the Dolton, Illinois Methodist Episcopal church; Miss LaVerne Blaska, a member of the Evangelical Church of Peace, Harvey; Rev. George P. Ellerbrake of the local St. Paul church and former pastor of the Harvey Evangelical church of Peace. Mrs. Guy Chester Jones is the director and she is assisted by Mrs. Stanley W. Graf.

Minor Estate Probated
The estate of the late R. W. Muir, who died November 30, was admitted to probate in the Lake county probate court Thursday. Letters testamentary were issued to Mrs. Lulu B. Muir, who is given the estate.

Undergoes Operation
Mrs. Thomas W. Samson, 227 W. Lake street, underwent an operation at the Sherman hospital in Elgin Wednesday morning.

WITH genuine appreciation of our pleasant relations we extend to you wishes for

A Very
Happy and
Prosperous
New Year

2 p. m., Village board, village hall.
Thursday, Jan. 5
2 p. m., Methodist Woman's assn., Methodist church.
2 p. m., Women's Missionary society, Salem church.
2 p. m., St. Paul's Union, St. Paul church.
8 p. m., I.O.O.F., Schroeder hall.

Recipes this week are from the files of Mrs. H. K. Tucker, 526 Grove avenue. Try the refreshing salad or the desserts for holiday entertaining.

AVACADO SALAD
2 soft avocados.
Pinch salt.
Juice of one lemon.
¼ cup whipped cream.
1 pkg. lemon Jello.
Cream or mash avocados for 1 cupful. Add salt, juice of one lemon and ¼ cup whipped cream. Add one package lemon Jello. Serve on crisp lettuce.

CHOCOLATE CAKE
2 cups sugar.
¼ cup butter.
1 cup thick sour cream.
¼ cup broken chocolate.
1 teaspoon soda.
2 level teaspoons baking powder.
1 teaspoon salt.
¼ cup sifted cake flour.
3 eggs, separated.
Cream butter and sugar thoroughly. Add beaten egg yolks, ¼ cup of chocolate to which ¼ cup boiling water has been added. Add sifted dry ingredients alternately with sour cream. Beat thoroughly and fold in beaten egg whites last. Bake in 875° oven about 25 minutes.

DATE PUDDING
1 cup dates, cut fine.
¼ cup oil, ¼ tablespoon more of Graham flour.
1 cup hot water.
Pinch salt.
1 cup nut meats.
Cook in double boiler 45 minutes. Add 1 cup nut meats, and put in mold to cool. Serve with whipped cream or ice cream.

Paper-Mache Making in The Eighteenth Century

The invention of paper-mache was known in Persia but we first hear of it in France in the first half of the Eighteenth century, then in Germany, where a factory was established by Frederick the Great in 1763. In the United States, it was introduced by Alice R. Rollins in the Los Angeles Times.

After becoming popular in other European countries, it went to Birmingham, England, where Henry Clay, a member of the town, started a factory in 1770. Later Jennings & Bettridge opened a large factory in the same town about 1815, and continued to make the work.

Other noted producers of the work were a man named Walton and Virgil Martin.

There were various processes used in making paper-mache. Henry Clay was the first man to build it up on wood or metal cores. Instead of using mashed paper or pulped paper, whole sheets of paper were used together.

The method was as follows: Sheet after sheet of brown paper were pasted on to the core. Before each sheet was applied, the surface of the last one was carefully rubbed down. The treatment was repeated until the surface was perfectly smooth and of the required thickness. It was then japanned, and the core removed and made ready for the painting or inlay as desired.

Local Children to Attend Reunion of Hastings Campers

Barrington boys and girls who attended Camp Hastings near Lake Villa last summer received invitations this week to take part in a reunion of Hastings campers at the Irving Park Y.M.C.A., 4351 Irving Park boulevard, Friday evening.

The get-together and program will start at 8 p. m. Mr. E. Deane, camp director and the various camp counselors will be in charge of activities. Camp songs and stories are to be followed by an "amateur show" of the campers. The trained pets include "Brazilian macaws of gorgeous plumage," a performing monkey, intelligent canaries, beautiful Australian cockatoos which wait together and clever trick dogs.

This pet show played in the Children's theatre on the Enchanted Island during the Century of Progress.

Among the Hastings campers from Barrington who were invited to come and bring the program and friends are Charles Lillen, Alanson Titterton, Jack Harris, Billy Friedlander, Herbert Kuhlman, Nancy Miller, Nancy Huff, Ann Bardwell, Constance Castle, Mary Jean, Betty and Margaret McClure.

Announce Retirement Fund for Jewel Help

A Jewel Retirement Estate was announced by the board of directors of Jewel Tea Co., Inc. at the Christmas party for employees held Friday afternoon. The retirement plan replaces the custom of giving bonuses to the employees annually. It was introduced to the board of directors November 22 and approved December 19. The company offers to give to the fund a certain percentage compared to the individual's contribution to be used as a retirement fund at the age of 65 years. The company's share is in proportion to the annual earnings. It was announced.

Effective January 1, 1939, the fund is not offered to officers and senior executives.

Mrs. Minnie Teason Suing for Divorce

Mrs. Minnie Teason, 603 S. Hough street, has filed suit for divorce in the circuit court of Cook county. She charges Lester Teason with desertion. They were married in Geneva in 1925 and the husband left here December 11, 1927.

Mrs. Teason's bill states she has a one-fourth interest in two houses in Barrington and a 155-acre farm near here, which she inherited from her father. As her husband did not help her acquire title, she asks that she be given her interest in this property along with the divorce.

Imposing Pre-Inca Fortress
On a hill above the city of Cuzco, ancient capital of the Inca empire and the third largest city in Peru, stands an imposing pre-Inca fortress known as Sacasbamban. It is built in zigzag lines of huge stones, some of which weigh 20 tons and are 18 feet high. It has a peculiar slope, the stones have never been discovered, but they must have been dragged for miles by hundreds of slaves. In the same area is a peculiar slope, of solid rock, covered with grooves, called the Rodadero. For years it was believed the formation was caused by a glacier, but experiments made by the Inca lines from Sacasbamban showed they fitted perfectly into the grooves and indicated the ancient Indians had dug the grooves into the rock and used the formations as a work-bench to round, shape and polish the fortress blocks, probably using water to wet the stones.

Foot Has Two Arches
Because of its design the foot has long been recognized as a specialized organ for man's upright carriage of his body. In construction the normal foot is a finely designed and highly efficient structure perfectly planned for its function of weight bearing, shock absorption and locomotion. If only a single block of bone were positioned beneath each leg to serve as a foot, walking would be very much of a peg-legged performance. But nature, in many other ways, has adapted the organ to meet man's needs. It is of extreme importance, therefore, that measures be taken to protect and preserve this most necessary and efficient structure from mechanical defects and disabling infections.

'The Embargo Act of 1897'
The embargo act of 1897 was passed by congress December 22 that year, forbidding any ship to sail with cargo from an American port to any foreign port. It was a reply to the English orders to council and to Napoleon's decrees, which made level prices of American ships on the high seas. These threatened to destroy American commerce. The embargo, however, was not intended to be a trade restriction. The act was replaced by 1899 by a non-intercourse act applying only to France and England.

Farm Sale Calendar

Thursday, Dec. 29—Lester W. MacKinn, 5 miles southeast of MacKinn—66 head of livestock, feed and machinery.

Tuesday, Jan. 3—N. J. Nye estate, 5 miles north of McHenry—21 head of livestock, machinery and grain.

Thursday, Jan. 5—Christ Rieker, corner of Chicago avenue and Barrington road—1 mile north of Algonquin road, 67 head of livestock, feed and grain, machinery and household articles. See advertisement on page 5.

To Hold Rites for W. Hendrickson of Richmond Friday

Funeral services for William Hendrickson of Richmond, who died Tuesday at his residence, will be held Friday afternoon at Richmond. He was well known in Barrington, having visited here on many occasions.

His wife, Mrs. Hendrickson is the daughter of the late Susan E. Church and a sister of A. D. Church, a son, Earl and a sister, Mrs. Eva Perkins, both of Richmond, also survive him.

Filing in Bankruptcy

A voluntary petition in bankruptcy has been filed in the United States district court by Benjamin Gimstead, a Des Plaines ironman. He lists \$2712 in liabilities and \$465 in assets.

Has Appendectomy

Miss Frieda Kohner of Barrington underwent an operation for the removal of her appendix at the Sherman hospital in Elgin Wednesday morning.

Remove Arm of Man Employed by Druggan

The left arm of John McLaren, 47-year-old farm hand employed on the Terry Druggan farm near Prairie View, was amputated below the shoulder at St. Joseph hospital in Elgin Monday afternoon in an effort to halt a gas-bacillus infection.

McLaren's hand was injured in a corn shredder Thursday while working on the Druggan farm. The infection developed soon afterwards and spread rapidly.

Receiving Treatment
Mrs. Svend Tollerlund of Barrington is receiving treatment at the Sherman hospital in Elgin.

Pencil Used in Writing
The kind of pencil which is used to write on slate makes its mark on the slate because the slate itself is too soft to write on. The pencil down when it is pressed. If you try to write on paper with a slate pencil, the paper will tear because paper is too soft to write on. The slate must not only be of a certain hardness, but also a little rough to have the pencil mark effectively. Have you ever tried to write on a blackboard with a grease spot on it? If you have you can easily understand why roughness is essential to the proper wearing down of a slate pencil. For the same reason, neither an ordinary lead pencil nor a slate pencil can make a mark on glass because the glass is too smooth. It takes sufficient friction to wear the point of the pencil as the pencil is moved across its surface.

Wild Bear a Frightener
The European wild boar packs dynamite in his charge and his long tusks can make short work of a charging dog. In Europe boar hunting is a popular sport and it has reached some sections of this country.

Good Livestock
4 head good horses; 25 head Holstein and Guernsey cows; most all close springers; stock milk; 4 heifers, all home raised cattle; 14 shoats, about 140 lbs. each; and 2 sows with 17 little pigs.
