You hardly know your engine's turning, so quietly does it pour forth its power!

The big bad bumps are like a mill pond's ripples, so smoothly do giant coil springs level them for you!

You look out on the wide, wide world past narrower posts and through deeper, wider windshields and windows—up to 413 more square inches of safety plate glass let you see America first, last and all the time!

Comfort? You've never known the like,

what with lower floors, and wider seats, and as much as four inches more to stretch out your legs!

Convenience? It's everywhere—from a gearshift out of knee-way to a direction signal that operates by a simple flip of a switch!

An idle dream, you say? Not a bit of it! This great car's calling pointedly to you when it so plainly invites, "Step in! Let's go!"
