

Barrington Hills Country Club to Be Holiday Attraction

BARRINGTON HILLS.—This Saturday night the Labor Day dinner-dance will be given at Barrington Hills Country club. It starts the usual three day celebration Sunday is sort of a "do as you please" day at the club, but there will be many family parties and perhaps considerable golf, swimming and tennis.

Monday will bring the usual women's approaching and putting contest, and the always interesting and amusing "fruits of labor" contest for the men.

On Thursday night of this week another moonlight contest will be held, with the first, eighth, ninth and eighteenth greens as the battle ground for approaching and putting.

Taking Western Trip
Some Barrington Hills people are starting on Sunday for a most interesting western trip. They are going to Sun Valley at Ketchikan, Idaho, for a week, joining a party of about 150 Chicago people. In the Barrington group are Mr. and Mrs. James A. Cardwell, Miss Virginia Cardwell, Mr. and Mrs. Kenneth Kulechewsky, Mr. and Mrs. George E. VanHagen, Miss Elizabeth VanHagen, Mr. and Mrs. M. C. Beymer and Mr. and Mrs. Arthur Biddle.

Plan New Field
At a meeting of the members of the Polo club last Wednesday night it was decided to establish its new riding field on the Preking farm. The party on September 17 at the country club is to assist in raising funds for this new venture.

Wine Honors
Sometimes this summer a country and state garden project was launched and both estate and farm gardens were entered in the contest. Barrington, as usual, was in the running and made a most satisfactory showing in the final awards. The garden at Oak Brae, the country home of G. E. Rutledge, was given first prize for an estate garden in Cook county and also fourth place in the state. Dr. and Mrs. J. E. McIntosh were awarded first prize for the best roadside farm garden in Lake county.

Return Following Vacation
Mr. and Mrs. Robert Work returned from a ten-day visit in Harbor Point, Mich., last Tuesday. They spent Thursday in Sterling, where Mr. Work is engaged on an interesting commission. He is the architect for the new stadium being erected on the outskirts of Sterling and a part of the school of that city. The athletic field is already completed. The new stadium is an unusually large one for a public school, having a seating capacity of 3000 and is most complete with lockers, showers and all the equipment necessary to a structure of that kind. The contemplated development will cover an area of 25 acres.

Personals
