We especially recommend two fuels which are steadily gaining popularity.

Petroleum Carbon-Coke

ess, contains more units of heat per ton than her solid fuel, ignites readily, drafts easily and d and balanced to meet all requirements.

PER TON \$10.50 CASH

Pocahontas Briquets

Pocahontas Briquets have gained the reputation of being an "all-weather" fuel because they can be so easily regulated. Do you need a hot fire to combat zero weather? Adjust the drafts and the response will be immediate. In moderate weather, Pocahontas Briquets hold an even, steady fire, again assuring you of comfortable warmth.
