Barrington Telephone Directory

April, 1913

Chicago Telephone Company

General Offices:

212-230 W. Washington Street
Official 300

Telephone Attachments

Telephone attachments are being peddled in a miscellaneous manner throughout the country and are purchased by unsuspecting or unthinking users and attached to their instruments. Generally the so-called "helps," disinfectants, etc., are a positive hindrance to telephone service, not being so designed as to secure the maximum of efficiency in hearing or speaking.

Many of them get the lines and instruments into trouble, whereupon the Company, to protect its service, is obliged to remove them. Rubber earpiece attachments do not augment the sounds received, and often make it impossible to hang the telephone properly upon the switch-hook. Essentially the same result can be obtained by closing one ear with the palm of the hand. The instruments should be kept clean by wiping them.

Telephone instruments, necessarily very sensitive and intricate, have been designed to produce the best results as they are. In the interest of good service, subscribers are recommended to make no attachments of any kind to their instruments.

BERNARD E. SUNNY, President
ALONZO BURT, 1st Vice President
H. F. HILL, General Manager
W. R. ABBOTT, General Commercial Supt.
O. J. HOLBROOK, Commercial Supt.

CHICAGO, ILLINOIS

REGULATIONS

WITH WHICH SUBSCRIBERS HAVE AGREED TO COMPLY

USE AND CARE OF EQUIPMENT. The Subscriber shall not make, permit, or use any electric or mechanical connections, or apparatus with the lines or equipment furnished by the Company, without the Company's consent. The lines and equipment on subscriber's premises shall be carefully protected, and used for lawful purposes where installed, and upon the termination of his right of use subscriber agrees to surrender them to the Company unimpaired, or to repair, indemnify and pay the Company for any loss or injury to them arising from carelessness, accident or any other cause. At all reasonable times the Company shall have the right, which the subscriber shall provide, of access from the street line, and of entering the premises of the subscriber to install, inspect or repair the lines or equipment, or to remove them upon the termination of the subscriber's right of use. The subscriber shall not use or permit the use of foul, abusive or obscene language, or persecute any other individual with fraudulent or malicious intent, over the equipment furnished.

EXCHANGE SERVICE. Subscribers to Exchange System service may, on the terms of their contracts, transmit local messages to all exchange telephones located within the limits of the exchange system in which the subscriber is served.

A local message is a communication not exceeding five minutes duration between subscribers' stations within the same exchange limits.

Flat rate business service is furnished only for the use of subscribers and their employees in their business.

Flat rate residence service is furnished only for the use of subscribers (and their families) at their residences.

THE COMPANY DOES NOT GUARANTEE UNINTERRUPTED WORKING OF THE LINES OR EQUIPMENT. For any complete failure of service of which notice in writing has been sent to the Company's general offices, and continued for more than twenty-four hours thereafter, an abatement of the contract charge for the period of such interruption shall be made.

The Company shall not be liable for defaults occurring on the lines of any other Company.

SUBSCRIBER'S NUMBER. The prefix and number assigned to a subscriber's station are no part of the contract with the Company and may be changed by the Company when necessary.

DIRECTORIES. The Company assumes no liability for damages arising from errors or omissions in the making up, or printing of the directory. Subscribers are requested, when they desire any change in their insertion to notify the Company in writing.

PRIVATE BRANCH EXCHANGE OPERATION. Operators employed by the subscriber for the operation of private branch exchange switching apparatus shall comply with the operating rules of the Telephone Company, and render service satisfactory to it.

COLLECTIONS. Settlements for service are due upon receipt of bills rendered about the first of each month. Payment should always be made before the 15th of the month at the Local Exchange Office. Checks should be made payable to the Chicago Telephone Company. Subscribers are urged to settle their accounts promptly before they become delinquent to avoid suspension of service and inconvenience to their patrons and other users.

ALTERATIONS. The subscriber agrees to notify the Company promptly in writing whenever alterations or new construction on premises owned or leased by him will necessitate changes in the Company's equipment and the subscriber agrees to pay the Company's current charges for such changes. Estimates furnished on application.

CHANGE OF ADDRESS OR LOCATION. The Company will move the equipment to any point where the Company furnishes similar service, within the limits of the same exchange system accessible with its facilities, upon written order, when the subscriber agrees to pay the Company's current charge therefor. Such removal will be made without charge if service without changes in line, equipment, or class of service has been continuous at one address and in the same name, for one or more years, but such removal without charge will constitute an express extension of the subscriber's contract for a period of one year from the completion of the removal. **AFTER A REMOVAL THE SUBSCRIBER SHALL PAY THE CURRENT RATE FOR SERVICE AT THE LOCATION TO WHICH THE REMOVAL IS MADE.**

TERMINATION. The subscriber or the Company may terminate the contract on current terms of liquidated damages applying to his class of equipment and service at any time before the equipment has been in use one year at one address or location and may terminate after such year by giving ten days' written notice, in which case the subscriber shall pay in full to the end of such ten days and the Company will refund the portion of any payment made in advance unexpired at the end of such ten days.

GENERAL INFORMATION

AND INSTRUCTIONS TO TELEPHONE USERS

TELEPHONE NUMBERS. Each subscriber's telephone is designated by a number placed at the left of his name. It is imperative that subscribers call by number (not name) to avoid error and delay. Always use the current telephone directory to obtain the correct numbers.

THE INFORMATION OPERATOR WILL FURNISH on request **NUMBERS** of new subscribers **NOT LISTED** and who have had service installed after this directory was printed; or of numbers which have been changed.

HOW TO USE THE TELEPHONE. A local message is a communication not exceeding five minutes' duration between subscriber's stations within the same exchange area. To call the Exchange Office, take the hand telephone from the hook and place at the ear. (If the telephone has a crank attachment for signaling Central, give two quick turns of the crank before removing the hand telephone from the hook.) The operator will say "Number, please?" Give the exchange name and number of the subscriber wanted, and the operator will repeat them to avoid mistakes. Remain with the telephone at the ear until an answer is received. If the desired line is busy the busy signal (an interrupted buzzing noise) or the operator will notify you of that fact. This means that the line called for is in use. Always hang up the hand telephone when through talking and if the telephone has a crank attachment, give two quick turns of the crank to notify the operator to disconnect.

HOW TO ANSWER A TELEPHONE CALL. Remove the hand telephone from the hook and give your own number, and for example, "This is Main 294" (or whatever the number may be). This will immediately inform the person calling that the desired connection has been established.

REPORT TROUBLE. When the line or instrument is out of order, notify the Manager or Chief Operator of your Exchange. If the trouble is not remedied within twenty-four hours, kindly send notice in writing to General Manager, Chicago Telephone Co., 230 W. Washington St., Chicago, Illinois.

A TOLL MESSAGE is a communication to a telephone beyond the limits of your local exchange system, but within the area in which the Company operates. A Long Distance Message is a communication to a telephone outside of the area in which the Company operates. The Company's employees must not undertake to transmit or deliver verbal or written messages for patrons.

Toll or Long Distance rates are for messages of three minutes or less. A charge is made for each additional minute or fraction thereof.

TO MAKE A TOLL OR LONG DISTANCE CALL. Call for "Long Distance" and when the Long Distance Operator answers, give the name of the town, and exchange name and number, when known, and the name and address, or the necessary information to identify the party desired. The operator will make the connection and will call you to the telephone.

TO MAKE COLLECT CALLS. Toll or Long Distance messages can be sent "collect" provided the person receiving a collect message agrees to allow the same to be charged to him. Request to have the charges made against the party called for should be made at the time the call is given to the Toll or Long Distance Operator.

ORDER TO MOVE TELEPHONE. If you wish to have telephone moved, please **FILL OUT** a move order and mail to **MANAGER** of your Exchange, or No. 230 W. Washington St., Chicago, at least ten days before date removal is desired.

NOTE. Thirty days' notice is necessary for removal between April 15th and May 15th.

Toll Service

Believing that our toll service adequately meets the demand for quick communication between telephone users in the various cities and villages near Chicago, we encourage our patrons to use the long distance lines.

Rates

Our information operator has a list of exchanges and will advise you of the rate of service to any point. We also call attention to the fact that we maintain a messenger service at each exchange and will call any party with whom you wish to talk, even though he has no telephone, providing you will pay a nominal charge for the messenger.

HAVE YOU HAD YOUR SAMPLE OF UTILITY WALL BOARD?

Do you realize what it means to be free from the mess and bother of plastering, to be able to complete your home, or reconstruct it at any time, without reference to weather conditions and without having to wait for plaster to dry?

Utility Wall Board is a tough, durable fibre board—

It is waterproofed on both sides and is impervious to moisture, or atmospheric changes. It will not warp or crack, it is not affected by jolting or vibration. When once put on it is there to stay, as long as the building lasts.

It does away entirely with the need for lath and plaster—and produces a wall or ceiling more permanent, more efficient and more economical than lath or plaster.

It is extremely easy to put on, any carpenter, or anyone else, for that matter, who can use a saw and hammer, can readily handle it.

Utility Wall Board comes in various lengths and widths and is attached to the studding. It is easily cut to any size with a hand saw, and when in place makes a wonderfully smooth, attractive wall or ceiling.

It may be paneled or decorated in any manner desired.

Utility Wall Board is Extremely Economical and Convenient in Making Over an Old Home

At slight expense you can turn an unattractive attic into a cozy bed room or den—or you can partition it into two or three rooms of any size and shape desired.

You can finish the laundry or the storage in perfect keeping with their requirements—or you can produce an enameled or tiled effect in bath rooms or kitchen.

You can use it with perfect success over old plaster that is cracked or that has partly fallen off. You can use it to make wardrobes or closets or in a hundred other ways that will readily occur to you—

Utility Wall Board is more lasting than lath and plaster—More easily put on—More impervious to heat and cold—More nearly fireproof and soundproof—

And it costs 25 per cent less.

We want to send you a free sample—and a copy of our illustrated book. Write today.

THE HEPPE'S COMPANY

4460 FILLMORE STREET

CHICAGO, ILLINOIS

This cut shows the appearance of red Flex-A-Tile Shingles. Colors are deep red, green gray and brown.

AT LAST—A roofing material that is as quickly and easily applied as wood shingles. As beautiful as tiling; as durable as the finest slate and that is surprisingly inexpensive.

FLEX-A-TILE

Asphalt Shingles

are made of solid asphalt, into the surface of which is embedded, so substantially that it becomes an actual part of it, chipped slate and granite. The natural color of this slate and granite gives the coloring to the shingles. There is no paint or artificial coloring of any kind. Shades are rich red, green gray, and brown—and these colors can't change—they are natural. Flex-A-Tile Shingles are cheaper than wood shingles that have been stained. They are easier to lay—and they will last as long as the house stands. The slate surface makes practically a fire-proof covering for the roof. Can be applied on same roof boards as are used for wood shingles.

Write today for a sample of Flex-A-Tile Shingles. Also the Flex-A-Tile book showing roofing designs, if they are not sold by your local dealer.

THE HEPPE'S COMPANY
1025 45th AVENUE CHICAGO, ILL.

Sectional view showing how Flex-A-Tile Shingles are laid. Note the three solid thicknesses of slate covered asphalt. An absolutely tight, weather-proof, time-proof roof.

Tailor Made—

You can see that at a glance when a man's clothes are before you. The distinction about certain men is that they wear clothes that fit. You can have clothes that fit and you need not pay a big price for them. Let us take your order and you will have a made-to-fit-you suit costing no more than ready-made clothes. Every piece of cloth cut up into garments that this shop tailors is of "A1" quality. We show newest styles piece goods for suitings as well as for overcoats.

Cleaning, Pressing and Repairing of Clothing

is a specialty of ours. A moderate sum of money will keep your garments free from wrinkles, dust, dirt and stains, and pay for the necessary repairs.
