Our Own Folks Sell Our Service

WITH the aid of its 33,000 employees, the Illinois Bell Telephone Company is conducting an active educational and selling program to instruct telephone users in the best and most effective ways of using their service and in an effort to put adequate telephone facilities into every home.

Good telephone service requires: (1) that telephones be answered promptly and users speak distinctly; (2) that every home be equipped with adequate and conveniently located telephone facilities, for a telephone always within easy reach means prompt answering; (3) that more persons install telephones in their homes, for the greater the number of persons who can be reached by telephone the more valuable the service.

A telephone extension might be installed to advantage in almost every room in your house or apartment. The cost of telephone extensions is small.

For charges to points not shown in this schedule, or for other information regarding toll connections, call "Long Distance."

The rates herein stated are the present legal rates of the Company as on file with the Illinois Commerce Commission.

How to Make Long Distance Calls

First—Determine whether the lower priced Station-to-Station service can be used or whether Person-to-Person service is more suitable.

Second—Ask your operator for "Long Distance." When "Long Distance" answers, give her the details of your call, including the telephone number, if known, at the distant place, and wait for her directions. She will either request you wait at the telephone without hanging up your receiver, or she will request you to hang up the receiver until you are called.

Long Distance Telephone Service

Station-to-station service. The term Station-to-Station service is defined as a connection between any two telephones (including private branch exchange switchboard operator) and does not contemplate the establishment of conversation between particular individuals or departments of private branch exchanges.

Under Station-to-Station rates a charge for a message is made in all cases where a connection is established with the called station.

Liberal reductions are made between 7:00 P. M. and 4:30 A. M. on station-to-station calls where the day rate is 35 cents or more as follows:

Evening Rates:—Between 7:00 P. M. and 8:30 P. M. approximately 75% of the day rates.

Night Rates:—Between 8:30 P. M. and 4:30 A. M., approximately 50% of the day rates.

Minimum "Evening" or "Night" rates, 35 cents.

Person-to-Person service. Calls for particular individuals are accepted at a rate of approximately one-fourth more than those quoted under Station-to-Station service.

Report Charge. A charge of approximately one-fifth of the Person-to-Person rate to the

point involved is made if communication cannot be established on Person-to-Person, Appointment, Messenger or Reversed Charge calls for reasons beyond the Company's control.

No Report Charge is made if the call is completed nor in case the report returned is "busy" "out of order," or "don't answer," as applied to the called station.

Messenger calls. Messenger Calls are Person-to-Person calls requiring the use of a messenger to secure a designated person.

The rates for Messenger Calls shall be the same as apply to Person-to-Person Calls, plus any charges that may be required for the service of messengers.

Messenger charges incurred are to be paid even if desired conversation is not held.

Collect calls. Collect Calls are calls, the charges for which are "reversed," that is, to be collected from the called station, provided the charges are accepted by the person called. When the station-to-station rate is less than 20 cents, reversal of charges is made only under the corresponding Person-to-Person rate.

For Information not given above concerning long distance service, call "Long Distance."

General Information

Order to Move Telephone. If you wish to have telephone moved, write or telephone to the manager of the Exchange with which you are connected, giving telephone number, name and address; also new address and date you expect to move, at least fifteen days before removal is desired, *except on moves due between April 15th and June 1st and between September 15th and October 10th, at which two periods thirty day's notice is required.*

Identification of Employees. All employees of the Company whose duties require them to

enter the premises of its subscribers for any purpose whatever are supplied with identification cards, each card bearing the photograph and name of the employee entitled to carry it. Any subscriber having the slightest doubt as to the identity or the right of the person representing himself to be an employee of the Company should inspect the credentials. **Beware of persons misrepresenting themselves as employees of the Telephone Company.**

International Telephone Service

Telephone service is available from your telephone to any point in Canada, Cuba, England, Scotland, Wales, and to many of the important cities of Continental Europe, Africa and of Mexico. Communication may be made to these points or information and the rates secured by merely calling "Long Distance" in the usual way.

REGULATIONS

WITH WHICH THE SUBSCRIBER HAS AGREED TO COMPLY

To establish credit an applicant who is unknown to the Company is required to make an advance payment for not to exceed three months' service.

Where the cost of installation is out of proportion to the exchange revenue it produces, the subscriber will be required to pay a reasonable proportion of such cost.

Following the acceptance of the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the contract and may be changed at any time at the discretion of the Company.

Under average conditions the Company requires ten days to arrange for and complete an order to install or move a telephone.

To guard against interference with the service unauthorized attachments with the telephone lines or instruments are prohibited.

For any complete failure of service, of which notice in writing has been sent to the Company's Business Office, and which has continued for more than twenty-four hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.

The continuous use of a party line is limited to five minutes. Party line subscribers are necessarily associated on the line with others located nearest to them and using the same class of service. Mutual accommodations usual in public service of any kind, where two or more persons are jointly concerned, should be extended between party line users.

Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, one-half the regular rental shall be charged, during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.

Bills are rendered once a month, to cover (a) one month's charges for local exchange service in advance, and (b) toll and other charges in arrears. Bills are payable at the office of the Company. If not paid on or before the fifteenth day after issuance of the bill, written notice calling attention to that

fact will be sent to the subscriber; after which action the service may be discontinued, without further notice, if a settlement of the account is not made by the seventh day.

When settlement of the bill is made before telephone instruments have been removed from the premises, service will be restored upon payment of the following restoral of service charge:

- a. If service has been suspended one way only\$0.50
- b. If service has been suspended both ways 1.00

Measured Service, where furnished, is billed on a monthly period guarantee basis, the bill for each period to cover (a) the guaranteed charges for one month in advance, and (b) additional messages and toll in arrears. Failure to use the minimum guaranteed number of messages in any monthly period, or the use of messages in excess of such number, does not entitle the subscriber to any allowance in any other monthly period.

One incoming line (one-way service) furnished only for each individual two-way flat rate line or two-way trunk line.

Not more than two joint users will be allowed on P. B. X. or individual line service; and not more than one joint user in connection with a party-line subscriber.

Four Party Service is furnished only where at least two subscribers within the limits of a single block apply for such service, or there is a vacancy on an existing circuit.

Two-party Service beyond the established exchange area will be furnished only where two parties outside said area, but within one-quarter mile of each other, apply for service at the two-party rate.

Four-party Service beyond the established exchange area will be furnished only when at least three parties outside said area, who are within a radius of one-quarter mile of each other, apply for the service at the four-party rate.

Rural Service is furnished only where at least two subscribers are secured for each one mile of line built.

MAKE YOUR BUSINESS APPOINTMENTS**BY LONG DISTANCE**

A long distance telephone call paves the way for a personal business interview. It establishes your identity in advance and enables you to arrange for a definite appointment, thus avoiding a long wait in an outer office or failure to see the person desired.

The practice of making long distance appointments at all times enables you while on business trips to utilize your time to the best possible advantage.
